No. 8305—R. F. 209-92, *the 14th December* 1892.

1. It is hereby notified by the Government of His Highness the Maharaja of Mysore that the exclusive privilege of selling country spirits in the defined tracts specified in the subjoined schedule for fifteen months, namely, April, May and June 1893 and the twelve months of the official year beginning with 1st July 1893 and ending with 30th June 1894 will be sold by the respective Deputy Commissioners or by Assistant Commissioners specially authorized by the Deputy Commissioners for the purpose, on the dates and at the places specified in the said schedule, subject to the conditions hereinafter set forth. If the sales are not completed on those days, they will be continued on the next following days. Should there be no bids for any of the aforesaid tracts singly, the officer conducting the sale may revise the tracts at discretion, clubbing together more than one tract, or selling the tracts by taluks, or if necessary, reserving special tracts in which there may at present be no shops, for disposal afterwards.

2. The exclusive privilege above described will be put up to auction at the upset prices mentioned in the aforesaid schedule, and will be knocked down to the approved highest bidder above those prices, subject to the formal confirmation by the Deputy Commissioner who will be at liberty to accept or reject the bid at his discretion. Such formal confirmation will be tantamount to an acceptance of the bid. Should there be no bid above the upset price, the officer conducting the sale may lower the upset price at his discretion.

3. Parties intending to bid must attend either in person or by duly authorized agents, and no person will be permitted to bid either on his own behalf or on account of any one else until he has desposited Rs. 25 (Twenty-five). The deposits made by the unsuccessful bidders and not forfeited as hereinafter provided will be returned at the close of the sale. The successful bidder must, on the exclusive privilege being knocked down to him, and before the next farm is put up for sale, deposit a sum equal to one-twentieth of the amount of his bid, and within fifteen days of the confirmation of the sale having been notified to him by the Deputy Commissioner in writing, he must deposit such further sum as, with the former deposit, will make up an aggregate sum equal to three months' rent, and if he fails to do so, the deposits already made will be forfeited, and the exclusive privilege will be immediately resold or otherwise disposed of as the Deputy Commissioner may direct.

4. Resales effected under para 3 will be at the risk of the defaulting bidder who will forfeit all gain, and in the event of a loss by the resale, will make good the deficiency between the total amount payable by him for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the forfeited deposit will be deducted from the loss arising from the resale; and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by resale, the whole of such deposit will be credited to Government.

5. The purchaser of the exclusive privilege shall sign an agreement binding himself to observe the conditions hereinafter set forth, and the agreement shall be executed within ten days of the expiry of the period of fifteen days above mentioned. If the purchaser fails or refuses to sign the agreement, all deposits already made will be forfeited; and the exclusive privilege will be resold at the risk and loss of the first purchaser as set forth in paras 3 and 4, or be otherwise disposed of. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

6. A statement showing the details of consumption of liquor in the shops of the existing farms will be shown to the intending bidders at the time of sale.

7. As soon as the agreement has been executed, the Deputy Commissioner will issue a license in the prescribed form, assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions :—

(1.) The exclusive privilege shall extend only to the sale of country spirits ordinarily of 20° under proof, and with the special permission of the Deputy Commissioner or other officer authorized by him, to the sale of 30° under proof.

(2.) The amount for which the privilege has been purchased shall be payable into the local Government Treasuries on printed chellans furnished for the purpose by Government, in equal monthly instalments commencing from April 1893; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on the 15th of the month following.

(3.) The deposit of three months' rent made by the licensee will be taken in payment of the rents due for the last three months of the period of the farm. Failing payment of each monthly rent by the 15th of the next month, the Deputy Commissioner will recover the same under the rules in force for the recovery of land revenue, together with interest at 6 per cent per annum. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(4.) (*a*) The licensee shall purchase the spirits for issue to his shops from Messrs. Parry and Co., who have been appointed Distillers for the manufacture of country spirits for the State, or from any Bonded Depôt established under the sanction of Government. The rate to be charged by such distiller for spirits supplied by him shall be 10½ annas per gallon of 20° under proof, and proportionate rates for higher or lower strengths in accordance with Cassella's rules. The spirits shall be sold to the public at Rs. 5—5—0 per gallon of 20° under proof, and at proportionate rates for higher or lower strengths.

(*b*) The above rate is in addition to excise duty which shall be prepaid into the local Government Treasury, as per condition (6), at the rates specified in the subjoined schedule, before the removal of the spirits from the Distillery, or from any Bonded Depot established under the sanction of Government.

(5.) The licensee shall pay the above duty into the local Taluk Treasury and obtain a receipt in the prescribed form. On production of such receipt and an indent for the supply of the liquor covered by the receipt, and on payment of the prescribed price of such liquor to the distiller or his agent, or any person appointed by Government on this behalf, the Assistant Supervisor or other officer in charge of the Distillery or the Bonded Depôt keeper shall issue the quantity of liquor equal to the amount of duty shown in the Treasury Officer's receipt which will be forwarded to the Excise Commissoner's Office under the endorsement of the Assistant Supervisor or other officer aforesaid as to the date and hour when the liquor was issued. The Assistant Supervisor or other officer aforesaid shall issue a pass in duplicate in the prescribed form under the rules in force for the transport of the liquor from the Distillery or Warehouse. The licensee who obtains liquor from a Bonded Depôt shall pay both the price of liquor and duty into the local Taluk Treasury.

(6.) The licensee in the Bangalore District shall maintain at a place or places within his farm, where it may be considered necessary by him and the Deputy Commissioner, a Depôt or Depôts to which all spirits purchased by him shall be conveyed in the first instance for verification, &c., of the consignment under the rules in force, before issue to the shop-keepers. The Depôts shall at all times be open to inspection by the Deputy Commissioner or any officer of the Excise Department. No such Depôt shall be opened without a license from the Deputy Commissioner in the prescribed form. The licensees in the remaining seven Districts will draw their supplies from, and deposit the same for issue to their shops in, the existing Bonded Depôts, the cost of the establishments whereof being paid by them as at present.

(7.) The spirits shall be sold as issued from the Distillery or Bonded Depôt, and shall not be adulterated or diluted in any manner in the shops.

(8.) The licensee shall keep true accounts of the quantity and strength of the spirits purchased by him and issued to shop-keepers. The passes issued with the liquor purchased by him shall be subject to examination and check under the Rahadari rules in force or which may be issued by Government hereafter.

(9.) The spirits shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner.

(10.) The Deputy Commissioner may, whenever he thinks fit, direct any shops to be closed, or permit transfers of shops from one place to another.

(11.) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending toddy in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending toddy in any part of the farm, to hold any share or interest in his exclusive privilege of selling country spirits; nor shall he, during the

term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indirect, in any arrack farm in any Districts of the Madras or Bombay Presidency under the British Government or in any other Foreign State or Territory.

(12.) The licensee shall be bound to take over any arrack which may remain as stock in hand, belonging to the out-going farmer, on the 1st April 1893 in the existing Bonded Depôt in his farm, paying to the old farmer such compensation for the same as may be fixed by the Excise Commissioner.

(13.) The licensee shall be bound by the provisions of the excise laws and rules in force or by any additional rules which may from time to time be prescribed under the Excise laws. The licensee shall use such measures as may from time to time be prescribed by Government and provide himself with the prescribed forms of accounts and permits or passes for the transport of liquor, which forms shall be purchased from the local Excise Officers.

(14.) This contract shall not be transferable except with the permission of Government.

8. In case of any breach of the aforesaid conditions or of the license either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach of such conditions, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and resell the exclusive privilege at the risk of the licensee or to place the farm under the management of Government; and all loss thereby caused, together with all losses accruing to Government in consequence of the licensee's neglect to carry on his business by opening his shops on 1st April 1893, should be made good by the licensee. When a lease is cancelled, the rent for the whole period of the lease shall become due at once. All the amounts of such penalties and loss shall be recovered in the same manner as if they were the arrears of land revenue.

9. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition shall not be held to prevent the prosecution of the licensee or his agents or employès for any offence punishable under the Excise laws for the time being in force.

No. 8306—R. F. 209-92, DATED 14TH DECEMBER 1892.

1. Notice is hereby given that the right of selling country spirits in each of the separate shops in the tracts specified in the subjoined schedule, for fifteen months, namely, April, May and June 1893 and twelve months of the official year beginning with 1st July 1893 and ending with 30th June 1894, will be put up to public auction on the dates and at the places named in the said schedule, by the officers therein mentioned.

2. Each bidder at the auction will deposit a sum of Rs. 60 previous to bidding. The shops will be knocked down to the approved highest bidder above the upset price mentioned in the aforesaid schedule, subject to the formal confirmation by the Deputy Commissioner who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents. Should there be no bid above the upset price, the officer conducting the sale may lower the upset price at his discretion.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forefeited as hereinafter provided will be returned to them. As the auction proceeds, the person whose bid is accepted for each shop shall at once deposit a sum

equal to $\frac{5}{8}$ths of a month's rent for that shop. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the shop will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other shop.

4. Persons to whom shops have been knocked down, and who have made deposits as provided in paras 2 and 3 shall also, within seven days from the date of the auction, deposit such further sum as, with the first and second deposits, will make up an amount equal to three months' rent of each shop knocked down to them; and shall take out licenses in the prescribed form, on the conditions hereinafter set forth. On the failure of any person to make the deposit, or to take out licenses as aforesaid, the shop or shops will be resold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder who will forfeit all gain; and in the event of a loss by resale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the resale, and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by resale, the whole of such deposit will be credited to Government.

6. A statement showing the details of the consumption of liquor at each shop will be shown to the intending bidders at the time of sale.

Conditions.

No. 8372—*R. F.* 210-92, *dated the* 15*th December* 1892.

It is hereby notified by the Government of His Highness the Maharaja of Mysore that the exclusive privilege of selling date toddy in the various classes of farms specified in the subjoined schedule for fifteen months, namely, April, May and June 1893, and the twelve months of the official year beginning with 1st July 1893 and ending with 30th June 1894, willbe sold by the respective Deputy Commissioners or by Assistant Commissioners specially authorized by the Deputy Commissioners for the purpose, on the dates and at the places specified in the said schedule, subject to the conditions hereinafter set forth. If the sales are not completed on those days, they will be continued on the next following days. Should there be no bids for any of the aforesaid farms singly, the officer conducting the sale, may revise the farms at discretion, clubbing together more than one farm or selling the farms by taluks.

2. The exclusive privilege above described will be put up to auction at the upset prices mentioned in the aforesaid schedule, and will be knocked down to the approved highest bidder above those prices, subject to the formal confirmation by the Deputy Commissioner who will be at liberty to accept or reject the bid at discretion. Such formal confirmation will be tantamount to an acceptance of the bid. Should there be no bid above the upset price, the officer conducting the sale, may lower the upset price at discretion.

3. Parties intending to bid must attend either in person or by duly authorized agents, and no person will be permitted to bid either on his own behalf or on account of any one else until he has deposited Rs. 50 or such other reasonable amount as may be fixed by the officer conducting the sale. The deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned at the close of the sale. The successful bidder must, on the exclusive privilege being knocked down to him, and before the next farm is put up for sale, deposit a sum equal to one-twentieth of the amount of his bid, and within fifteen days of the confirmation of the sale having been notified to him by the Deputy Commissioner in writing, he must deposit such further sum as, with the former deposit, will make up an aggregate sum equal to three months' rent, and if he fails to do so, the deposits already made will be forfeited, and the exclusive privilege will be immediately resold or otherwise disposed of as the Deputy Commissioner may direct.

4. Resales effected under para 3 will be at the risk of the defaulting bidder who will forfeit all gain, and in the event of a loss by the resale, will make good the deficiency between the total amount payable by him for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the forfeited deposit will be deducted from the loss arising from the resale ; and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by resale, the whole of such deposit will be credited to Government.

5. The purchaser of the exclusive privilege shall sign an agreement binding himself to observe the conditions hereinafter set forth, and the agreement shall be executed within ten days of the expiry of the period of fifteen days above mentioned. If the purchaser fails or refuses to sign the agreement, all deposits already made will be forfeited ; and the exclusive privilege will be resold at the risk and loss of the first purchaser as set forth in paras 3 and 4, or be otherwise disposed of. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

6. A statement of existing shops in each farm and the groves attached to each farm, will be shown to the intending bidders at the time of sale.

7. As soon as the agreement has been executed, the Deputy Commissioner will issue a license in the prescribed form, assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions :—

(1.) The exclusive privilege shall extend only to the sale of date toddy.

(2.) The amount for which the privilege has been purchased, shall be payable into the local Government Treasuries on printed chellans furnished for the purpose by Government, in equal monthly instalments commencing from April 1893, together with the local cess of one anna on every rupee of such instalment ; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent together with local cess thereon shall be payable on the 15th of the month following.

(3.) The deposit of three months' rent made by the licensee will be taken in payment of the rents due for the last three months of the period of the farm. Failing payment of each monthly rent by the 15th of the next month, the Deputy Commissioner will recover the same under the rules in force for the recovery of land revenue, together with interest at 6 per cent per annum. No remission or abatement of the rent, shall, on any account whatever, be claimable by the licensee.

(4.) The toddy shall be sold to the public at the rates prescribed by Government.

(5.) The toddy shall be sold pure as drawn from trees, and shall not be adulterated or diluted in any manner in the shops, or depôts if any.

6

(6.) The licensee shall keep true accounts of the quantity of toddy received and issued to shopkeepers. The passes issued with the toddy transported, shall be subject to examination and check by the officers authorized on this behalf.

(7.) The toddy shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner.

(8.) The Deputy Commissioner may, whenever he thinks fit, direct any shops to be closed, or permit transfers of shops from one place to another.

(9.) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending arrack in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending arrack in any part of the farm, to hold any share or interest in his exclusive privilege of selling toddy; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest direct or indirect, in any toddy farm in any Districts of the Madras or Bombay Presidency under the British Government or in any other Foreign State or Territory.

(10.) The licensee shall be bound by the provisions of the excise laws and rules in force or by any additional rules which may from time to time be prescribed under the excise laws. The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with permit books for the transport of toddy, which books may be purchased from local Excise officers.

(11.) This lease shall not be transferable except with the permission of Government.

(12.) The remaining terms and conditions shall be as set forth in the prescribed licenses.

8. In case of any breach of the aforesaid conditions or of the license either by the licensee, or with his connivance or privity by any person in his employment, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach of such conditions, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license, and resell the exclusive privilege at the risk of the licensee or to place the farm under the management of Government; and all loss thereby caused should be made good by the licensee. When a lease is cancelled, the rent for the whole period of the lease shall become due at once. All the amounts of such penalties and loss shall be recovered in the same manner as if they were the arrears of land revenue.

9. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of the licensee or his agents or employés for any offence punishable under the excise laws or other enactments or rules for the time being in force.

REVENUE—FOREST.

No. 7953—R. F. 155-92, DATED 29TH NOVEMBER 1892.

In supersession of all existing rules on the subject, the following revised rules for the sale of timber and bamboos by public auction have been approved by His Highness the Maharaja's Government and are published for general information :—

I.—Procedure.

1. Every auction sale shall be held by the Forest Officer in charge of the District or other officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot brought by him in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot.

II.—Payments how to be made.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him and with a letter of advice to pay immediately twenty-five per cent of such amount as a deposit into the Taluk Treasury at the place, and if there is no such Treasury, to pay the same into the nearest Taluk Treasury before the close of the 3rd or 5th day from the date of the sale as circumstances may require, regard being had to the distance of the Taluk Treasury. A receipt for the deposit money will be granted by the Treasury Officer and must be presented to the Forest Officer at once if the Treasury is at the place of sale, and if otherwise, before the close of the fifth or eighth day from date of sale as fixed. The Forest Officer will initial the receipt and enter on its face the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to resell all or any portion of the timber and bamboos purchased by such defaulter, who shall be required to make good any loss, but shall not participate in any profit on such resale. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each purchaser must be paid for within 30 days from the date of sale or within such further period not exceeding 90 days from the date of sale under the special orders of the Inspector General of Forests, failing which, the deposit money already paid in shall be forfeited to the Government and the wood or bamboos not paid for shall be resold. Moneys due may be paid into the Treasury of the Taluk in which the wood-yard is situated, or into the District Treasury, but into no other, except in cases where the merchants are permitted to pay into any other Government Treasury.

III.—Delivery of Wood.

6. No wood can be removed by any purchaser until it has been paid for in full and until a "license to remove," shall have been obtained from the Forest Officer.

IV.—Wood-yard Rent.

7. Timber and bamboos paid for under the preceding sections may be removed at any time within 30 days from date of sale, or within such further period not exceeding 90 days from date of sale, as may be fixed by the Forest Officer, as the circumstances of each case may require, without payment of wood-yard rent ; but if left in the wood-yard longer than 90 days from date of sale, shall be charged with wood-yard rent at 12 per cent per annum on the amount of purchase money from date of sale. If the wood or bamboos be not removed within six months from date of sale, the same shall, after ten days' notice to the purchaser, be sold by public auction for the recovery of rent and cost, after due publicity of the sale, subject to full payment at once and immediate removal, and the balance of sale proceeds shall be paid to the original purchaser. If before such sale is concluded, the original purchaser tenders the rent due and cost, he shall be allowed to remove his wood or bamboos.

V.—Licenses to remove.

8. No wood can be removed from the wood-yard till a "license to remove timber and bamboos" signed by the Forest Officer in charge of the District shall have been obtained ; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other person infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules. All time-expired licenses shall be considered as null and void and extension of time shall not be granted, except on the ground of special and cogent reasons and under Deputy Commissioner's orders.

VI.—General.

9. The Forest Officer shall be at liberty, with the concurrence of the Deputy Commissioner or the officer deputed by the Deputy Commissioner if such be present, and failing their presence, on his own responsibility, to stop the sale at any time without giving any reason to the intending purchasers.

No. 7954—R. F. 155-92, DATED 29TH NOVEMBER 1892.

In supersession of all existing rules on the subject, the following revised rules for the sale of sandalwood by public auction in Mysore have been approved by His Highness the Maharaja's Government and are published for general information :—

I.—Procedure.

1. Every auction sale shall be held by the Forest Officer in conjunction with the Deputy Commissioner of the District, or other officer deputed by the Duputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot. The lot thus sold shall remain intact till weighment by the Forest Officer under para 6 of these rules.

II.—Payments how to be made.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him and with a letter of advice to pay immediately 25 per cent of such amount as deposit into the Taluk Treasury at the place, and if there is no such Treasury, to pay the same into the nearest Taluk Treasury before the close of the third day from the date of sale. REVENUE—FOREST.

No. 7953—R. F. 155-92, DATED 29TH NOVEMBER 1892.

In supersession of all existing rules on the subject, the following revised rules for the sale of timber and bamboos by public auction have been approved by His Highness the Maharaja's Government and are published for general information :—

I.—Procedure.

1. Every auction sale shall be held by the Forest Officer in charge of the District or other officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot brought by him in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot.

II.—Payments how to be made.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him and with a letter of advice to pay immediately twenty-five per cent of such amount as a deposit into the Taluk Treasury at the place, and if there is no such Treasury, to pay the same into the nearest Taluk Treasury before the close of the 3rd or 5th day from the date of the sale as cir-

cumstances may require, regard being had to the distance of the Taluk Treasury. A receipt for the deposit money will be granted by the Treasury Officer and must be presented to the Forest Officer at once if the Treasury is at the place of sale, and if otherwise, before the close of the fifth or eighth day from date of sale as fixed. The Forest Officer will initial the receipt and enter on its face the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to resell all or any portion of the timber and bamboos purchased by such defaulter, who shall be required to make good any loss, but shall not participate in any profit on such resale. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each purchaser must be paid for within 30 days from the date of sale or within such further period not exceeding 90 days from the date of sale under the special orders of the Inspector General of Forests, failing which, the deposit money already paid in shall be forfeited to the Government and the wood or bamboos not paid for shall be resold. Moneys due may be paid into the Treasury of the Taluk in which the wood-yard is situated, or into the District Treasury, but into no other, except in cases where the merchants are permitted to pay into any other Government Treasury.

III.—Delivery of Wood.

6. No wood can be removed by any purchaser until it has been paid for in full and until a "license to remove," shall have been obtained from the Forest Officer.

IV.—Wood-yard Rent.

7. Timber and bamboos paid for under the preceding sections may be removed at any time within 30 days from date of sale, or within such further period not exceeding 90 days from date of sale, as may be fixed by the Forest Officer, as the circumstances of each case may require, without payment of wood-yard rent; but if left in the wood-yard longer than 90 days from date of sale, shall be charged with wood-yard rent at 12 per cent per annum on the amount of purchase money from date of sale. If the wood or bamboos be not removed within six months from date of sale, the same shall, after ten days' notice to the purchaser, be sold by public auction for the recovery of rent and cost, after due publicity of the sale, subject to full payment at once and immediate removal, and the balance of sale proceeds shall be paid to the original purchaser. If before such sale is concluded, the original purchaser tenders the rent due and cost, he shall be allowed to remove his wood or bamboos.

V.—Licenses to remove.

8. No wood can be removed from the wood-yard till a "license to remove timber and bamboos" signed by the Forest Officer in charge of the District shall have been obtained; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other person infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules. All time-expired licenses shall be considered as null and void and extension of time shall not be granted, except on the ground of special and cogent reasons and under Deputy Commissioner's orders.

VI.—General.

9. The Forest Officer shall be at liberty, with the concurrence of the Deputy Commissioner or the officer deputed by the Deputy Commissioner if such be present, and failing their presence, on his own responsibility, to stop the sale at any time without giving any reason to the intending purchasers.

No. 7954—R. F. 155-92, DATED 29TH NOVEMBER 1892.

In supersession of all existing rules on the subject, the following revised rules for the sale of sandalwood by public auction in Mysore have been approved by His Highness the Maharaja's Government and are published for general information :—

I.—Procedure.

1. Every auction sale shall be held by the Forest Officer in conjunction with the Deputy Commissioner of the District, or other officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot. The lot thus sold shall remain intact till weighment by the Forest Officer under para 6 of these rules.

II.—Payments how to be made.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him and with a letter of advice to pay immediately 25 per cent of such amount as

deposit into the Taluk Treasury at the place, and if there is no such Treasury, to pay the same into the nearest Taluk Treasury before the close of the third day from the date of sale. A receipt for the deposit money will be granted by the Treasury Officer and must be presented to the Forest Officer before the close of the fifth day. The Forest Officer will initial the receipt and enter on its face the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to resell forthwith all or any portion of the sandalwood purchased by such defaulter who shall bear any loss, but shall not participate in any profit that may arise. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each merchant must be paid for within 90 days from the date of sale. Failing which, the deposit money already paid in shall lapse to the Government and shall not be counted as part payment. The sandalwood not paid for shall be resold. Moneys due may be paid into the Treasury of the Taluk in which the Koti is situated, or into the District Treasury, but into no other, except in cases where the purchasers are permitted to pay into any other Government Treasury.

III.—Weighing out and Delivery of Wood.

6. The Forest Officer or in his absence any other officer deputed by the Deputy Commissioner, shall personally weigh out the whole quantity of wood bought by each purchaser, and thus weighing out of the wood sold in each Koti must be completed within three months from the date of sale. When weighing, should any surplus be found, it shall be taken out, and should any deficiency occur, the officer weighing will make up the full tale of wood, stamp every piece that can be stamped and take such precautions as shall preclude the lots being tampered with before final removal.

The full tale of wood having been thus once made up, all loss which may afterwards arise from driage or other causes, shall be borne entirely by the purchaser who shall be warned to attend at the weighing out of his lots. Should he not appear in person or by duly constituted agent, the Forest Officer or the officer deputed for weighing, shall weigh out, stamp and seal the lots at his own convenience, and no complaint afterwards made by the purchaser will be attended to. The expenditure incurred in weighing out wood will be borne by the Government, but all expenses necessary for the final removal of the wood from the Koti shall be borne by the purchaser. Nothing shall prevent a Forest Officer from weighing out wood to any purchaser who wants early delivery upon full payment of the amount due thereon.

7. No wood can be removed by any purchaser until it has been paid for in full and until a "license to remove" shall have been obtained from the Forest Officer.

IV.—Koti Rent.

8. Wood weighed out, stamped and paid for under the preceding sections may be removed at any time within 90 days from date of sale without payment of Koti rent. Such wood, if left in the Kotis for more than 90 days from date of sale, shall be charged with Koti rent at the rate of 4 annas per khandi or 1 rupee per ton per mensem from date of sale for superior sorts, and 2 annas per khandi or 8 annas per ton for inferior sorts such as milwa chilta and white chips. If the wood be not removed within six months from date of sale, the same shall, after ten days' notice to the purchaser, be sold by public auction for the recovery of rent and cost, after due publicity of the sale, subject to full payment at once and immediate removal, and the balance of sale proceeds shall be paid to the original purchaser. If before such sale is concluded, the original purchaser tenders the rent due and cost, he shall be allowed to remove his wood.

V. Licenses to remove.

9. No wood can be removed from the Koti till a "license to remove sandalwood" signed by the Forest Officer in charge shall have been obtained; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other person infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules. All time-expired licenses shall be considered as null and void and extension of time shall not be granted, except on the ground of special and cogent reasons and under Deputy Commissioner's orders.

VI.—General.

10. In conformity with standing rules, no sandalwood can be sold by private individuals within the Mysore Territories or be moved from place to place without a license to be granted by the Forest Officer in charge of the Range.

11. The Forest Officer in charge shall be at liberty, with the concurrence of the Deputy Commissioner or the officer deputed by the Deputy Commissioner, if such be present, and failing their presence, on his own responsibility, to stop the sale at any time without giving any reason to the intending purchasers.

The 9th December 1892.

No. 9837—R. F. 226-92.—The following revised Rules framed under Sections 23, 24, 25 and 26 of the Forest Rules of 1878, defining more fully the privileges of raiyats to take wood and other articles of forest produce from District or Government unreserved forests, have been, pending the revision of Forest Rules, sanctioned by the Government of His Highness the Maharaja, for the Districts of Shimoga, Kadur and Hassan, and are published for general information. These rules do not apply to coffee planters:—

1. The privileges granted in the rules to raiyats will be exercised by them within the limits of Village Forests wherever specifically assigned and when Village Forests have not been so assigned, within the limits of District Forests or portions thereof which may be set apart for the purpose.

2. No trees bearing forest produce, such as cinnamon, or yelaga, tamarind, alalekayi, kachu, geru, gamboji, antavala, manda or maddidhupa and halmaddi, &c., shall be felled under these rules, either in the Village or District Forests.

In the Village and District Forests, sandalwood, teak, bité or blackwood, ebony, poon, karachi, and jalari, will be entirely at the disposal of the Forest Department. Raiyats as well as traders will have to pay for this description of wood on the terms and at the rates prescribed by the Forest Department.

3. "Classified trees of the 1st Class" shall mean halasu, hebbalasu, matti, honne, nandi, and ippe.

"Classified trees of the 2nd Class" shall mean hunal, jambi, nasi, hettiga or arsintyaga, bilavara, todasalu, kendal, bagi, hadaga, nanja or bakula, sampige, vaté, balgi, hauladi or haralbandige and sagadi.

"Jungle wood" shall mean wood other than that of the reserved and classified kinds.

"Agricultural implements" shall mean and include ploughs, harrows, clod-crushers, hoes, seed-drills, mamti-handles, gudli-handles, and all other agricultural implements. The term shall not include sugar-cane mills, paddy-husking mills, and troughs for cattle, except in the Malnad.

"Malnad" shall mean the Taluks and parts of Taluks mentioned in the Appendix A, all other parts will be deemed to be Maidan.

"Raiyat" shall mean a pattadar, khatedar, or registered occupant of Government land.

4. These rules shall not affect any existing privilege of grazing in District Forests subject to such arrangements as may be introduced hereafter, nor will they affect existing rights of owners of gardens in their Soppinabettas or rights in the Kans in the Malnad. But nothing herein contained will prevent any District Forest being closed for forest conservancy by the Forest Department.

5. Raiyats in the Malnad and Maidan will, subject to Rules 1 and 2, be entitled to take free in District Forests without permit—

1stly. wood other than of the classified kinds for agricultural implements. In the Malnad, however, classified kinds of the 2nd Class may be taken for this purpose with the written permission of the Patel. The trees to be cut should be mature, knotted and unfit for timber. In the Malnad, when wood is wanted for sugar-cane mills, paddy-husking mills and troughs for cattle, free permits shall be obtained from the Amildar and these shall be returned to the Taluk within the time specified with the endorsement of the Patel of the village in which the wood has been cut, as to the quantity removed under the permit;

2ndly. stakes, brushwood and bamboo thorns for fences and hedges and dams;

3rdly. wood other than of the classified kinds and bamboos required for cattle pens, for sheds, pandals, small huts, and "Machans" to be put up in fields and for stack floors;

4thly. branches of jungle wood trees, for manure and litter; and

5thly. grasses for thatching.

In addition to the above, the raiyats may also cut and remove grass gratis, from the Reserved and District Forests with the permission of the Deputy Commissioner of the District in which such forests are situated.

6. Raiyats requiring wood for purposes specified in Rule 5, 1st and 3rd clauses, if they wish to cut wood within the limits of any village other than their own or beyond the limits assigned to them, must obtain the permission of the Patel of that village. The size of the wood cut for agricultural implements shall not exceed what may be absolutely necessary for making the implements. Wood taken free under 3rd clause of Rule 5 should not either in the Malnad or Maidan exceed 2 feet in circumference except for sugar-cane mills, paddy-husking mills and troughs for cattle in the Malnad.

6. (*a*). The raiyats of the marginally noted Maganis of the Sagar and Nagar Taluks shall, for the present, take jungle wood free without permit, but shall report the quantity removed by them to the Patel of the village, who shall report the same to the Amildar of the Taluk.

9. Within 50 yards of the banks of a hill stream or any of its feeders or within a radius of 50 yards from any spring or within 50 yards of any road, no tree, shrub, or bamboos or jungle in any District Forest shall be cut, nor shall any wood or grass therein be burnt.

10. The concession of wood on favorable seigniorage made under Rule 8, shall not exceed, to any raiyat, 50 cart-loads in any one period of ten years in the Maidan and five years in the Malnad. It is not intended that fifty cart-loads should be issued in each case. It is the maximum allowed. The Amildar should ascertain the necessity of the raiyat in each case and grant the quantity he may consider absolutely necessary. He should also see that the privilege is not abused. He may refuse to grant license where an application for wood or bamboos is made with a view to make profit out of it.

11. The concessions accorded to raiyats in Rules 7, 8 and 10 are intended solely for their own *bonâ fide* use. They shall not sell or barter for purposes of trade any materials obtained under the aforesaid rules.

12. Any raiyat wishing to obtain wood or bamboos under Rule 8 should apply to the Amildar of the Taluk in whose limits he wishes to cut the same. If he is a resident in a different Taluk, his application should be forwarded through, and supported by, the Amildar of the Taluk in which the raiyat resides.

13. Upon payment of seigniorage prescribed in Rule 8, the Amildar will issue a license in form set forth in Appendix B. It will be the duty of license-holder to abide by the terms of the license. All time-expired licenses shall be null and void. No refund shall be made for unutilized licenses.

14. The licensee shall be bound to produce for examination to the Patel of the village, within the limits of which District Forest specified in the license is situated, the wood or bamboos or other materials he is removing under the authority of that license, and to obtain the Patel's endorsement thereon as to the correctness of the quantity specified therein. The wood, bamboos, or other materials may then be removed, accompanied by the license which shall be finally handed over to the Patel

of the village into which the wood, bamboos, or other materials are taken, who shall examine the quantity with the license and return the same with his certificate thereon, to the Amildar of the Taluk, who will, if he has not himself issued the license, transmit it to the issuing Amildar. Only the trees that are likely to produce the quantity granted in the license shall be cut. Irregular or wasteful cutting will lead to the concessions being withdrawn totally or for a time from the raiyat concerned.

15 Free permits prescribed for Malnad raiyats in Rule 5 and paid licenses referred to in Rule 13 will be liable to inspection by Forest, Revenue and Police officers, who will be bound to see that the terms of the license are not exceeded or broken.

16. No license will be issued for felling wood or bamboos in Malnad "kans" or in any Government jungle which the Forest Department has closed. The fact of any jungle being closed should, without delay, be intimated to the Amildar concerned.

17. Any raiyat who fells or removes wood, bamboos, or other materials specified in para 8, or from a District Forest, without having obtained the necessary license, exceeds the quantity specified in the same, fails to return the license, within the prescribed time, or breaks the terms of the license or contravenes the provisions of these Rules, shall be punishable under Section 40 of the Forest Rules of 1878.

18. In consideration of the concessions above granted, such raiyats as are living within the vicinity of State Forests and Plantations are expected to aid the Forest Department in the prevention, spread or extinction of any fire that occurs in State Forests and Plantations. Any neglect in this respect will lead to the withdrawal of the whole or any part of the concessions for such length of time as the Inspector General of Forests may direct.

19. The raiyats are strictly forbidden from setting fire to grass, leaves, thorns or bamboo clumps in a District Forest, thereby endangering the safety of a State Forest or Plantation.

20. The undermentioned notifications are hereby cancelled :—

Notification No. 5, dated 23rd April 1873. Notification No. 244, dated 11th February 1887, as also No. 153, dated 31st August 1874, which it cancels. Proceedings No. 5323-83, dated 19th December 1873.	So far as they apply to the Districts of Shimoga, Kadur and Hassan.

The term cart-load referred to in Rule 8 shall mean a country cart drawn by two bullocks. The rate for a cart-load drawn by four bullocks, to be double that for a cart drawn by two bullocks and so on for every additional pair of bullocks employed in dragging the cart.

1. Where a grove or group of groves, and the shops which are usually supplied by it, are so situated, that the whole geographically is in one compact tract, the right of drawing toddy from such grove or group of groves and selling the same in such shops, shall be farmed separately; but when the number of shops supplied from a grove or group of groves is more than six, the grove or group of groves shall, with due regard to all local circumstances, be so divided that each division may fully supply the number of shops to be attached to it. The shops supplied as above, and the grove or group of groves so supplying them, shall together form the ordinary toddy farm which shall be designated "*direct supply (Aiyn) farm.*"

A. Direct supply farms (*Aiyn.*)

2. Where a grove or group of groves is capable of supplying, or has usually supplied, shops other than those attached to it under the "direct supply" system, the farmer of such grove or group of groves shall undertake to give at a price not exceeding the maximum rate specified in his agreement, the supply required for such other shops (which shall be enumerated in his agreement), in addition to supplying the particular shops attached directly to the grove or group of groves in question. Such a farm shall be called a "*direct and aiding* (*Aiyn Kumki*) farm." Endeavour shall be made to avoid, wherever possible, such a dual arrangement as the above, by dividing the grove or group of groves in question, in such a manner as to form out of it a "direct supply farm," and a "grove farm," and assigning the latter for the service of a convenient "*Shop farm.*"

B. Direct supply farms aiding other farms (*Aiyn Kumki.*)

3. Where a shop or shops situated in a compact tract depend for their supply upon groves situated at a distance (whether or not in the same Taluk or District), such shop or shops shall be farmed (without any groves attached to them) but upon the condition of the farmer buying his supply—

C. Shop Farm.

either (*a*) from specified "*direct and aiding* (*Aiyn Kumki*) farms,

or, (*b*) from a specified "*grove farm*" to be

hereafter defined, by paying such price as he may be able to arrange with the holder of the "*direct and aiding farm*" or the "*grove farm,*" subject however to the maximum price named in the agreement of the last named farm. A farm for shops only, shall be called a "*shop farm.*" The holder of every "*shop farm*" shall, wherever possible, be given a "*Grove farm*" capable of supplying his shops, thereby making him independent of other farmers as far as possible.

4. Where groves exist which are not required to be included in any "*direct supply farm*" or "*direct and aiding farm,*" they shall be separately farmed, and such farms called "*grove farms.*" The toddy drawn under such farms shall not be sold to the public, but may be sold to any "*shop farm*" or used, in very exceptional cases, for the manufacture of jaggory and sugar under Government supervision. The number of persons holding "*grove farms*" without "*shop farms*" in which the produce can be used, shall be as small as possible.

D. Grove Farm.

5. Pending the settlement of Toddy Revenue due to Inamdars and Kayamguttadars, the right of those entitled to Toddy Revenue shall be farmed separately, and not mixed up with Government farms; such farms shall be called "*farms in alienated villages.*"

E. Farms in alienated villages.

III. The sales shall be conducted by the Deputy Commissioner or an Assistant Commissioner authorized by the Deputy Commissioner in that behalf.

IV. The results of sales shall be reported to the Excise Commissioner without delay.

V. The terms and conditions of sale and the grant of farms and issue of licenses shall be as follows:—

1. The exclusive privilege of selling date toddy in the aforesaid farms shall be put up to auction at upset prices, and knocked down to the approved highest bidder above those prices, subject to the formal confirmation by the Deputy Commissioner who will be at liberty to accept or reject the

bid at discretion withoutassigning reasons for the same. Such formal confirmation will be tantamount to an acceptance of the bid. Should there be no bid above the upset price, the officer conducting the sale may lower the upset price at discretion. The condition and character of intending bidders may be enquired into; and the officer conducting the sale may, at the time of sale, refuse to receive the necessary deposit which entitles a bidder to bid, from persons regarding whom the result of such enquiries is not satisfactory. No former contractor who has been guilty of an infringement of the terms of his contract or of the Excise Laws or Rules shall be entitled to bid. The officer conducting the sale shall not be bound to accept the highest bid, should he consider it to be so extravagantly high as to afford apprehension of the lease breaking down. As a rule the results of the sales shall be confirmed except when it is believed that there has been combination among the bidders or when the character of the successful bidder is considered unsatisfactory or he is not believed to be solvent or fit to carry out the lease.

2. Parties intending to bid must attend either in person or by duly authorized agents, and no person shall be permitted to bid either on his own behalf or on account of any one else until he has deposited Rs. 50, or such other reasonable amount as may be fixed by the officer conducting the sale. The deposits made by the unsuccessful bidders, and not forfeited as hereinafter provided, will be returned at the close of the sale. The successful bidder must, on the exclusive privilege being knocked down to him, and before the next farm is put up for sale, deposit a sum equal to one-twentieth of the amount of his bid, and within fifteen days of the confirmation of the sale having been notified to him by the Deputy Commissioner in writing, he must deposit such further sum as, with the former deposit, will make up an aggregate sum equal to three months' rent in cash or Government securities. Provided that, if the Deputy Commissioner considers it advisable, he may permit a deposit in cash or Government securities equal to only two months' rent, or such deposit equal to one month's rent and personal security for three months' rent. If the successful bidder fails to produce the aforesaid securities, the deposits already made shall be forfeited, and the exclusive privilege shall be immediately resold or otherwise disposed of as the Deputy Commissioner may direct.

3. Resales effected under para 2 shall be at the risk of the defaulting bidder who shall forfeit all gain, and in the event of a loss by the resale, shall make good the deficiency between the total amount payable by him for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the forfeited deposit shall be deducted from the loss arising from the resale; and the remainder, if any, shall be recovered from the bidder in the same manner as if it were an arrear of Land Revenue. Should, however, the forfeited deposit be greater than the loss by resale, the whole of such deposit shall be credited to Government.

4. The purchaser of the exclusive privilege shall sign an agreement binding himself to observe the conditions hereinafter set forth; and the agreement shall be executed within ten days of the expiry of the period of fifteen days above mentioned. If the purchaser fails or refuses to sign the agreement, all deposits already made shall be forfeited; and the exclusive privilege shall be resold at the risk and loss of the first purchaser as set forth in paras 2 and 3, or be otherwise disposed of. In the case of the purchaser's death after the confirmation of the sale, it shall be binding on his heirs or assigns.

5. A statement of shops in each farm, and the groves attached to each farm, shall be shown to the intending bidders at the time of sale.

6. As soon as the agreement has been executed, the Deputy Commissioner shall issue a license in the appended Form A to the purchaser of each farm assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions :—

(1.) The exclusive privilege shall extend only to the sale of Date Toddy, and shall not include the sale of Bagani Toddy.

(2.) The amount for which the exclusive privilege has been purchased shall be payable by the licensee into the local Taluk Treasury on the prescribed printed chellans, furnished by the Government for the purpose, in equal monthly instalments commencing from the first month of the lease, together with the local cess of one anna on every rupee of such instalment. Each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent together with local cess thereon shall be payable on or before the 15th of the month following. The chellans shall be in triplicate in the appended Form C. The original shall accompany the Treasury "Daily Cash" account sent to the District Treasury, the duplicate forwarded by the Taluk Treasury Officer to the Deputy Commissioner's Office, and the triplicate retained with the licensee.

(3.) The deposit made by the licensee shall be taken in payment of the instalments due in the last months of the period of the farm. Failing payment of each monthly instalment by the 15th of the next month, together with local cess, the Deputy Commissioner shall recover the same from the licensee or his surety, under the rules in force for the recovery of Land Revenue, together with interest at 6 per cent per annum. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(4.) The toddy shall be sold to the public at the rates from time to time prescribed by Government.

(5.) The toddy shall be sold pure as drawn from trees and shall not be adulterated or diluted in any manner in the farm depôts, if any, or in shops.

(6.) The licensee shall keep true accounts of the quantity of toddy received and issued to shop-keepers. The passes issued with the toddy transported shall be subject to examination and check by the Officers authorized on this behalf.

(7.) The toddy shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner.

(8.) The Deputy Commissioner may, whenever he thinks fit, direct any shops to be closed, or permit transfers of shops from one place to another.

(9.) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending arrack in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending arrack in any part of the farm, to hold any share or interest in his exclusive privilege of

selling toddy, nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indirect, in any Toddy farm in any adjacent Districts of the Madras or Bombay Presidency or in any other adjacent Foreign State or Territory.

(10.) The licensee shall be bound by the provisions of the Excise Laws and Rules in force, or by any additional rules which may from time to time be prescribed under the Excise Laws. The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with Permit books for the transport of Toddy, which books may be purchased from local Excise Officers.

(11.) The lease shall not be transferable except with the permission of the Excise Commissioner.

(12.) The Deputy Commissioner shall grant to each shop under the farmers a license in the appended Form B.

(13.) The licensees of shop farms in the taluks bordering on British Territory, may import and export toddy from and to the Districts of Bellary, Anantapur, Cuddapah, North Arcot, Salem and Coimbatore in the Madras Presidency, subject to para 4 of Rule 170 in Chapter XI of the Standing Orders of the Madras Board of Revenue.

7. In case of any breach of the aforesaid conditions, or of the license, either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee of each vend farm a fine not exceeding the sum of Rs. 50, for every such breach, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and resell the exclusive privilege at the risk of the licensee, or to place the farm under the management of Government. When a lease is cancelled, the rent for the whole period of the lease shall become due at once; and all loss caused to Government by the cancelment or resale of the lease, shall be made good by the licensee or his surety in the manner specified for resales under para 3 of Rule V above. All the amounts of such penalties and loss shall be recovered in the same manner as if they were arrears of Land Revenue.

8. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of the licensee or his agents or employés for any offence punishable under the Excise Laws or other enactments or rules for the time being in force.

VI. Of the amounts paid by the licensee into the Taluk Treasury as per chellans C, under clause (2) of Para 6 of Rule V, the rent shall be credited at once to the appropriate budget head "Excise Revenue," and the local cess to the head "Local Cess on Excise Revenue." The District Treasury Officers shall furnish to the Excise Commissioner monthly statements of realizations on account of Toddy rent and local cess thereon, under separate headings by dates in the form prescribed by the Comptroller.

VII. On receipt of the duplicate chellans referred to in clause (2) of Para 6 of Rule V, at the District Office, they shall be compared and verified with the figures in the monthly Abkari Revenue Statements No. 6 and 6A received from the Amildars.

The Statements No. 6 and 6A compiled for the whole District shall then be forwarded to the Excise Commissioner's Office, where they shall be compared and verified with the Treasury monthly statements. The Excise Commissioner shall thereupon prepare Statements No. 6 and 6A for the whole Province and send them to the Dewan's Office after obtaining the Comptroller's certificate of credits.

In that case the deposit will be applied to cover any arrears which may be due, and the loss, if any, sustained by Government by such re-sale; and if it shall be more than sufficient to do so, the balance will be forfeited. (4) If the Deputy Commissioner does not confirm the re-sale, he may make such other arrangements as may appear advisable for the remainder of the period of the lease, in which case he shall serve a notice on the licensee informing him of the nature of the arrangements made.

4. (1) (*a*) The licensee of a "direct supply farm" shall obtain the supply of toddy only from the grove or groves specially assigned to him.

(*b*) If the number of trees in the above farm be more than the requirements of the shops attached thereto, the licensee shall supply any other Government farmer at ghadas or seers per rupee according to the existing custom. The grove may, at the discretion of Govern-

ment, be sub-divided so as to allow the toddy to be drawn by the "direct supply and aiding (Aiyan Kumki) farm" or "shop farm," as the case may be.

(*c*) Should the "direct supply farm" be inadequate to supply the wants of the licensee, he may make his own arrangements with private land-holders for drawing toddy from trees on their lands, and to use such toddy for sale in the shops attached to his farm.

If the "grove farm" has not trees sufficient to meet the demand of the shops, the licensee may make his own arrangements with landholders to purchase toddy from them and utilize the same for sale in the shops attached to his farm.

(6) The licensee of farms in alienated villages will be allowed to draw toddy only from trees in the groves assigned to him.

5. The lessee shall not interfere with the licensees for cutting date leaves for mat-making, rope-making, basket-making, or for agricultural or other purposes, when they make use of the trees assigned for such purposes, and not reserved for tapping.

These accounts shall be kept in such forms as may be prescribed by the Excise Commissioner, and shall be open to inspection by the Amildar or any other Officer authorized by the Amildar, or any Excise Officer appointed by the Deputy Commissioner for this purpose, and a copy thereof shall be furnished by the licensee to the Deputy Commissioner or Amildar on requisition, in such form as may be prescribed by the Excise Commissioner.

8. Toddy shall be sold only in shops duly sanctioned and licensed by the Deputy Commissioner.

9. The Deputy Commissioner may, whenever he thinks fit, direct shops to be closed or permit transfers of shops from one place to another, or direct new shops to be opened with the previous sanction of the Excise Commissioner. A sufficient supply of toddy shall be maintained in all sanctioned shops.

10. Each shop-keeper shall place the license granted to him in a conspicuous place in the shop.

11. A sign-board shall be affixed in a conspicuous part of the front of each shop containing, in the vernacular, the name of the shop-keeper and the price of the toddy sold by him.

12. The shop-keepers shall prevent all drunkenness or disorder or gaming within their shops.

13. No shop shall be opened before sunrise.

14. Shops shall be closed by 9 o'clock P. M. unless the Deputy Commissioner, for special reasons, shall authorize the keeping open of particular shops to a later hour.

23. The licensee shall have such measures tested and stamped at his own expense.

24. No toddy shall be sold or given to any European Non-Commissioned Officer or private soldier, or to any European or Eurasian Camp follower, or to any member of the families of any of the aforesaid persons, without the permission in writing, of the Commanding Officer, or of some person duly authorized by him in this behalf; nor to any sailor, nor to any sepoy, member of the Police Force, Excise Officer, or a servant of a Railway Company whilst on duty; nor to any European vagrant under escort of the Police; nor to any child under 12 years of age for consumption on the premises; nor shall any toddy be sold *on credit*.

25. The Deputy Commissioner may direct that all shops for the sale of toddy on, or adjacent to, the line of march, shall be closed, whilst a regiment or detachment of European or Native Soldiers is passing or encamped in the vicinity. Such soldiers may be supplied with toddy by such persons as the Government may select for the purpose, notwithstanding the licensee's exclusive privilege.

26. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee. The Government reserves the power to terminate the lease on public grounds, awarding a reasonable compensation to the licensee.

27. Except with the permission of the Excise Commissioner, the licensee shall not sell or sub-rent or transfer his farm or any portion of his farm.

28. Every person placed by the licensee in charge of shops shall, before entering upon his employment, execute the engagements prescribed by law. All engagements entered into by persons to be employed by the licensee on or after 18 , shall be deposited with the Deputy Commissioner within one month from that date, or of the date of executing the engagement.

29. If it comes to the licensee's knowledge that any person employed by him in the manufacture, carriage or sale of toddy, commits any breach of the Excise Laws or of the engagements entered into by him, it shall be the licensee's duty to report the matter to the Deputy Commissioner, and to comply with the directions of the Deputy Commissioner respecting the further employment of such person.

30. During the term of the license, the licensee shall not have any interest in the exclusive privilege of selling country spirits in any part of the farm to which the license relates, or permit any person having any interest in the exclusive privilege of selling country spirits in any part of the farm, to hold any share or interest in the licensee's exclusive privilege of selling toddy.

31. Interest shall be payable upon all moneys due by the licensee at the rate of six percentum per annum.

32. The licensee shall provide himself with printed forms of permits for transport and possession of toddy. Such permits shall be in the form prescribed by the Excise Commissioner, and shall be purchased from local Excise Officers.

33. The licensee shall pay the usual Mohatarfa tax on carts used for conveying toddy, but such carts shall not be impressed for Government work.

34. The licensee shall be responsible that his servants or agents are prevented from extracting toddy from young immature date trees the trunks of which are less than one yard in height from the ground to the springing of the branches, nor shall any leaves be cut and used by them except such as may have to be removed for the purpose of drawing toddy, nor shall any trees be tapped in so careless a manner as to lead to their destruction; and any breach of these rules shall render the licensee liable to the payment of a penalty of Rs. 50 for each offence.

35. The licensee shall employ only professional toddy-drawers for tapping the trees.

36. In case of any breach of the conditions of the license either by the licensee, or with his connivance or privity, by any person in his employment, it shall be

competent to the Deputy Commissioner to impose upon the licensee, a fine not exceeding the sum of Rs. 50 for every such breach of such conditions, or, at the option of the Deputy Commissioner, to declare the money or Government Promissory Notes deposited with him, forfeited, and to cancel the license and re-sell the exclusive privilege at his risk, or to place the farm under the management of Government, and all loss thereby caused shall be made good by him or his surety. It shall be lawful for the Deputy Commissioner to deduct the amount of all fines imposed under this clause, from any sums deposited by the licensee as security for the due performance of the conditions of the lease, or to realize the amount of such fines by the sale of any or all of the Government Promissory Notes deposited by him. Whenever a lease is cancelled, the rent for the whole period of the lease shall become due at once.

37. The imposition of a fine or the forfeiture of deposit, or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of any person for any offence which may be committed against the provisions of the Excise Act or any other law for the time being in force and relating to the Excise Revenue, or any other enactment under which the offence may be punishable.

38. If the licensee shall be convicted on prosecution before a Magistrate of any offence against the Excise Act, or other law for the time being in force and relating to the Excise Revenue, or any other enactment, it shall be lawful for the Deputy Commissioner to declare his license forfeited.

39. All sums payable by the licensee may be deducted from the amount of his deposit, or recovered by attachment and sale of the property of the licensee or his surety, under any law for the time being in force for the recovery of arrears of Land Revenue.

40. Any sums deducted by the Deputy Commissioner under the powers herein contained from the deposit made by the licensee for due performance of the lease, shall be replaced by him or his surety within 15 days from the receipt of a notice from the Deputy Commissioner informing him of such deductions having been made.

REVENUE-FOREST.

The 9th December 1892.

No. 9837—R. F. 226-92.—The following revised Rules framed under Sections 23, 24, 25 and 26 of the Forest Rules of 1878, defining more fully the privileges of raiyats to take wood and other articles of forest produce from District or Government unreserved forests, have been, pending the revision of Forest Rules, sanctioned by the Government of His Highness the Maharaja, for the Districts of Shimoga, Kadur and Hassan, and are published for general information. These rules do not apply to coffee planters :—

1. The privileges granted in the rules to raiyats will be exercised by them within the limits of Village Forests wherever specifically assigned and when Village Forests have not been so assigned, within the limits of District Forests or portions thereof which may be set apart for the purpose.

2. No trees bearing forest produce, such as cinnamon, or yelaga, tamarind, alalekayi, kachu, geru, gamboji, antavala, manda or maddidhupa and halmaddi, &c., shall be felled under these rules, either in the Village or District Forests.

In the Village and District Forests, sandalwood, teak, bité or blackwood, ebony, poon, karachi, and jalari, will be entirely at the disposal of the Forest Department. Raiyats as well as traders will have to pay for this description of wood on the terms and at the rates prescribed by the Forest Department.

3. "Classified trees of the 1st Class" shall mean halasu, hebbalasu, matti, honne, nandi, and ippe.

"Classified trees of the 2nd Class" shall mean hunal, jambi, masi, hettiga or arsintyaga, bilavara, todasalu, kendal, bagi, hadaga, nanja or bakula, sampige, vaté, balgi, hauladi or haralbandige and sagadi.

"Jungle wood" shall mean wood other than that of the reserved and classified kinds.

"Agricultural implements" shall mean and include ploughs, harrows, clod-crushers, hoes, seed-drills, mamti-handles, gudli-handles, and all other agricultural implements. The term shall not include sugar-cane mills, paddy-husking mills, and troughs for cattle, except in the Malnad.

"Malnad" shall mean the Taluks and parts of Taluks mentioned in the Appendix A, all other parts will be deemed to be Maidan.

"Raiyat" shall mean a pattadar, khatedar, or registered occupant of Government land.

4. These rules shall not affect any existing privilege of grazing in District Forests subject to such arrangements as may be introduced hereafter, nor will they affect existing rights of owners of gardens in their Soppinabettas or rights in the Kans in the Malnad. But nothing herein contained will prevent any District Forest being closed for forest conservancy by the Forest Department.

5. Raiyats in the Malnad and Maidan will, subject to Rules 1 and 2, be entitled to take free in District Forests without permit—

1stly. wood other than of the classified kinds for agricultural implements. In the Malnad, however, classified kinds of the 2nd Class may be taken for this purpose with the written permission of the Patel. The trees to be cut should be mature, knotted and unfit for timber. In the Malnad, when wood is wanted for sugar-cane mills, paddy-husking mills and troughs for cattle, free permits shall be obtained from the Amildar and these shall be returned to the Taluk within the time specified with the endorsement of the Patel of the village in which the wood has been cut, as to the quantity removed under the permit;

2ndly. stakes, brushwood and bamboo thorns for fences and hedges and dams;

3rdly. wood other than of the classified kinds and bamboos required for cattle pens, for sheds, pandals, small huts, and "Machans" to be put up in fields and for stack floors;

4thly. branches of jungle wood trees, for manure and litter; and

5thly. grasses for thatching.

In addition to the above, the raiyats may also cut and remove grass gratis, from the Reserved and District Forests with the permission of the Deputy Commissioner of the District in which such forests are situated.

6. Raiyats requiring wood for purposes specified in Rule 5, 1st and 3rd clauses, if they wish to cut wood within the limits of any village other than their own or beyond the limits assigned to them, must obtain the permission of the Patel of that village. The size of the wood cut for agricultural implements shall not exceed what may be absolutely necessary for making the implements. Wood taken free under 3rd clause of Rule 5 should not either in the Malnad or Maidan exceed 2 feet in circumference except for sugar-cane mills, paddy-husking mills and troughs for cattle in the Malnad.

6. (*a*). The raiyats of the marginally noted Maganis of the Sagar and Nagar Taluks shall, for the present, take jungle wood free without permit, but shall report the quantity removed by them to the Patel of the village, who shall report the same to the Amildar of the Taluk.

9. Within 50 yards of the banks of a hill stream or any of its feeders or within a radius of 50 yards from any spring or within 50 yards of any road, no tree, shrub, or bamboos or jungle in any District Forest shall be cut, nor shall any wood or grass therein be burnt.

10. The concession of wood on favorable seigniorage made under Rule 8, shall not exceed, to any raiyat, 50 cart-loads in any one period of ten years in the Maidan and five years in the Malnad. It is not intended that fifty cart-loads should be issued in each case. It is the maximum allowed. The Amildar should ascertain the necessity of the raiyat in each case and grant the quantity he may consider absolutely necessary. He should also see that the privilege is not abused. He may refuse to grant license where an application for wood or bamboos is made with a view to make profit out of it.

11. The concessions accorded to raiyats in Rules 7, 8 and 10 are intended solely for their own *bonâ fide* use. They shall not sell or barter for purposes of trade any materials obtained under the aforesaid rules.

12. Any raiyat wishing to obtain wood or bamboos under Rule 8 should apply to the Amildar of the Taluk in whose limits he wishes to cut the same. If he is a resident in a different Taluk, his application should be forwarded through, and supported by, the Amildar of the Taluk in which the raiyat resides.

13. Upon payment of seigniorage prescribed in Rule 8, the Amildar will issue a license in form set forth in Appendix B. It will be the duty of license-holder to abide by the terms of the license. All time-expired licenses shall be null and void. No refund shall be made for unutilized licenses.

14. The licensee shall be bound to produce for examination to the Patel of the village, within the limits of which District Forest specified in the license is situated, the wood or bamboos or other materials he is removing under the authority of that license, and to obtain the Patel's endorsement thereon as to the correctness of the quantity specified therein. The wood, bamboos, or other materials may then be removed, accompanied by the license which shall be finally handed over to the Patel

of the village into which the wood, bamboos, or other materials are taken, who shall examine the quantity with the license and return the same with his certificate thereon, to the Amildar of the Taluk, who will, if he has not himself issued the license, transmit it to the issuing Amildar. Only the trees that are likely to produce the quantity granted in the license shall be cut. Irregular or wasteful cutting will lead to the concessions being withdrawn totally or for a time from the raiyat concerned.

15 Free permits prescribed for Malnad raiyats in Rule 5 and paid licenses referred to in Rule 13 will be liable to inspection by Forest, Revenue and Police officers, who will be bound to see that the terms of the license are not exceeded or broken.

16. No license will be issued for felling wood or bamboos in Malnad "kans" or in any Government jungle which the Forest Department has closed. The fact of any jungle being closed should, without delay, be intimated to the Amildar concerned.

17. Any raiyat who fells or removes wood, bamboos, or other materials specified in para 8, or from a District Forest, without having obtained the necessary license, exceeds the quantity specified in the same, fails to return the license, within the prescribed time, or breaks the terms of the license or contravenes the provisions of these Rules, shall be punishable under Section 40 of the Forest Rules of 1878.

18. In consideration of the concessions above granted, such raiyats as are living within the vicinity of State Forests and Plantations are expected to aid the Forest Department in the prevention, spread or extinction of any fire that occurs in State Forests and Plantations. Any neglect in this respect will lead to the withdrawal of the whole or any part of the concessions for such length of time as the Inspector General of Forests may direct.

19. The raiyats are strictly forbidden from setting fire to grass, leaves, thorns or bamboo clumps in a District Forest, thereby endangering the safety of a State Forest or Plantation.

20. The undermentioned notifications are hereby cancelled :—

Notification No. 5, dated 23rd April 1873. Notification No. 244, dated 11th February 1887, as also No. 153, dated 31st August 1874, which it cancels. Proceedings No. 5323-83, dated 19th December 1873.	So far as they apply to the Districts of Shimoga, Kadur and Hassan.

The term cart-load referred to in Rule 8 shall mean a country cart drawn by two bullocks. The rate for a cart-load drawn by four bullocks, to be double that for a cart drawn by two bullocks and so on for every additional pair of bullocks employed in dragging the cart.

No. 11893—G. F. 332-92.—Under Section 4 of the Land Acquisition Act X of 1870, it is hereby notified for public information that a strip of land will be required for laying pipes between the Hebbal and Sankey's Tanks, Bangalore Taluk.

The 14th January 1893.

No. 11813—R. F. 233-92.—Under Sections 20 and 55 of the Excise Act XXII of 1881, as extended to Mysore by Regulation III of 1885, the Government of His Highness the Maharaja make the following rules :—

PART I.

System of farming the Exclusive Privilege of Selling Date Toddy, mode of supplying toddy to Licensed Vendors, and the grant of licenses and passes.

I. The exclusive privilege of selling Date Toddy for each year or any period that may be specially fixed by Government shall be disposed of by sale by public auction.

II. For the purpose of selling the exclusive privilege, the Vend farms shall be divided into the following classes :—

1. Where a grove or group of groves, and the shops which are usually supplied by it, are so situated, that the whole geographically is in one compact tract, the right of drawing toddy from such grove or group of groves and selling the same in such shops, shall be farmed separately; but when the number of shops supplied from a grove or group of groves is more than six, the grove or group of groves shall, with due regard to all local circumstances, be so divided that each division may fully supply the number of shops to be attached to it. The shops supplied as above, and the grove or group of groves so supplying them, shall together form the ordinary toddy farm which shall be designated "*direct supply* (*Aiyn*) *farm*."

A. Direct supply farms (*Aiyn.*)

2. Where a grove or group of groves is capable of supplying, or has usually supplied, shops other than those attached to it under the "direct supply" system, the farmer of such grove or group of groves shall undertake to give at a price not exceeding the maximum rate specified in his agreement, the supply required for such other shops (which shall be enumerated in his agreement), in addition to supplying the particular shops attached directly to the grove or group of groves in question. Such a farm shall be called a "*direct and aiding* (*Aiyn Kumki*) farm." Endeavour shall be made to avoid, wherever possible, such a dual arrangement as the above, by dividing the grove or group of groves in question, in such a manner as to form out of it a "direct supply farm," and a "grove farm," and assigning the latter for the service of a convenient "*Shop farm.*"

B. Direct supply farms aiding other farms (*Aiyn Kumki.*)

3. Where a shop or shops situated in a compact tract depend for their supply upon groves situated at a distance (whether or not in the same Taluk or District), such shop or shops shall be farmed (without any groves attached to them) but upon the condition of the farmer buying his supply—

C. Shop Farm.

either (*a*) from specified "*direct and aiding* (*Aiyn Kumki*) farms,

or, (*b*) from a specified "*grove farm*" to be hereafter defined, by paying such price as he may be able to arrange with the holder of the "*direct and aiding farm*" or the "*grove farm,*" subject however to the maximum price named in the agreement of the last named farm. A farm for shops only shall be called a "*shop farm.*" The holder of every "*shop farm*" shall, wherever possible, be given a "*Grove farm*" capable of supplying his shops, thereby making him independent of other farmers as far as possible.

4. Where groves exist which are not required to be included in any "*direct supply farm*" or "*direct and aiding farm,*" they shall be separately farmed, and such farms called "*grove farms.*" The toddy drawn under such farms shall not be sold to the public, but may be sold to any "*shop farm*" or used, in very exceptional cases, for the manufacture of jaggory and sugar under Government supervision. The number of persons holding "*grove farms*" without "*shop farms*" in which the produce can be used, shall be as small as possible.

D. Grove Farm.

5. Pending the settlement of Toddy Revenue due to Inamdars and Kayamguttadars, the right of those entitled to Toddy Revenue shall be farmed separately, and not mixed up with Government farms; such farms shall be called "*farms in alienated villages.*"

E. Farms in alienated villages.

III. The sales shall be conducted by the Deputy Commissioner or an Assistant Commissioner authorized by the Deputy Commissioner in that behalf.

IV. The results of sales shall be reported to the Excise Commissioner without delay.

V. The terms and conditions of sale and the grant of farms and issue of licenses shall be as follows:—

1. The exclusive privilege of selling date toddy in the aforesaid farms shall be put up to auction at upset prices, and knocked down to the approved highest bidder above those prices, subject to the formal confirmation by the Deputy Commissioner who will be at liberty to accept or reject the

bid at discretion withoutassigning reasons for the same. Such formal confirmation will be tantamount to an acceptance of the bid. Should there be no bid above the upset price, the officer conducting the sale may lower the upset price at discretion. The condition and character of intending bidders may be enquired into; and the officer conducting the sale may, at the time of sale, refuse to receive the necessary deposi which entitles a bidder to bid, from persons regarding whom the result of such enquiries is not satisfactory. No former contractor who has been guilty of an infringement of the terms of his contract or of the Excise Laws or Rules shall be entitled to bid. The officer conducting the sale shall not be bound to accept the highest bid, should be consider it to be so extravagantly high as to afford apprehension of the lease breaking down. As a rule the results of the sales shall be confirmed except when it is believed that there has been combination among the bidders or when the character of the successful bidder is considered unsatisfactory or he is not believed to be solvent or fit to carry out the lease.

2. Parties intending to bid must attend either in person or by duly authorized agents, and no person shall be permitted to bid either on his own behalf or on account of any one else until he has deposited Rs. 50, or such other reasonable amount as may be fixed by the officer conducting the sale. The deposits made by the unsuccessful bidders, and not forfeited as hereinafter provided, will be returned at the close of the sale. The successful bidder must, on the exclusive privilege being knocked down to him, and before the next farm is put up for sale, deposit a sum equal to one-twentieth of the amount of his bid, and within fifteen days of the confirmation of the sale having been notified to him by the Deputy Commissioner in writing, he must deposit such further sum as, with the former deposit, will make up an aggregate sum equal to three months' rent in cash or Government securities. Provided that, if the Deputy Commissioner considers it advisable, he may permit a deposit in cash or Government securities equal to only two months' rent, or such deposit equal to one month's rent and personal security for three months' rent. If the successful bidder fails to produce the aforesaid securities, the deposits already made shall be -forfeited, and the exclusive privilege shall be immediately resold or otherwise disposed of as the Deputy Commissioner may direct.

3. Resales effected under para 2 shall be at the risk of the defaulting bidder who shall forfeit all gain, and in the event of a loss by the resale, shall make good the deficiency between the total amount payable by him for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the forfeited deposit shall be deducted from the loss arising from the resale; and the remainder, if any, shall be recovered from the bidder in the same manner as if it were an arrear of Land Revenue. Should, however, the forfeited deposit be greater than the loss by resale, the whole of such deposit shall be credited to Government.

4. The purchaser of the exclusive privilege shall sign an agreement binding himself to observe the conditions hereinafter set forth; and the agreement shall be executed within ten days of the expiry of the period of fifteen days above mentioned. If the purchaser fails or refuses to sign the agreement, all deposits already made shall be forfeited; and the exclusive privilege shall be resold at the risk and loss of the first purchaser as set forth in paras 2 and 3, or be otherwise disposed of. In the case of the purchaser's death after the confirmation of the sale, it shall be binding on his heirs or assigns.

5. A statement of shops in each farm, and the groves attached to each farm, shall be shown to the intending bidders at the time of sale.

6. As soon as the agreement has been executed, the Deputy Commissioner shall issue a license in the appended Form A to the purchaser of each farm assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions :—

(1.) The exclusive privilege shall extend only to the sale of Date Toddy, and shall not include the sale of Bagani Toddy.

(2.) The amount for which the exclusive privilege has been purchased shall be payable by the licensee into the local Taluk Treasury on the prescribed printed chellans, furnished by the Government for the purpose, in equal monthly instalments commencing from the first month of the lease, together with the local cess of one anna on every rupee of such instalment. Each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent together with local cess thereon shall be payable on or before the 15th of the month following. The chellans shall be in triplicate in the appended Form C. The original shall accompany the Treasury "Daily Cash" account sent to the District Treasury, the duplicate forwarded by the Taluk Treasury Officer to the Deputy Commissioner's Office, and the triplicate retained with the licensee.

(3.) The deposit made by the licensee shall be taken in payment of the instalments due in the last months of the period of the farm. Failing payment of each monthly instalment by the 15th of the next month, together with local cess, the Deputy Commissioner shall recover the same from the licensee or his surety, under the rules in force for the recovery of Land Revenue, together with interest at 6 per cent per annum. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(4.) The toddy shall be sold to the public at the rates from time to time prescribed by Government.

selling toddy, nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indirect, in any Toddy farm in any adjacent Districts of the Madras or Bombay Presidency or in any other adjacent Foreign State or Territory.

(10.) The licensee shall be bound by the provisions of the Excise Laws and Rules in force, or by any additional rules which may from time to time be prescribed under the Excise Laws. The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with Permit books for the transport of Toddy, which books may be purchased from local Excise Officers.

(11.) The lease shall not be transferable except with the permission of the Excise Commissioner.

(12.) The Deputy Commissioner shall grant to each shop under the farmers a license in the appended Form B.

(13.) The licensees of shop farms in the taluks bordering on British Territory, may import and export toddy from and to the Districts of Bellary, Anantapur, Cuddapah, North Arcot, Salem and Coimbatore in the Madras Presidency, subject to para 4 of Rule 170 in Chapter XI of the Standing Orders of the Madras Board of Revenue.

7. In case of any breach of the aforesaid conditions, or of the license, either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee of each vend farm a fine not exceeding the sum of Rs. 50, for every such breach, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and resell the exclusive privilege at the risk of the licensee, or to place the farm under the management of Government. When a lease is cancelled, the rent for the whole period of the lease shall become due at once; and all loss caused to Government by the cancelment or resale of the lease, shall be made good by the licensee or his surety in the manner specified for resales under para 3 of Rule V above. All the amounts of such penalties and loss shall be recovered in the same manner as if they were arrears of Land Revenue.

8. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of the licensee or his agents or employés for any offence punishable under the Excise Laws or other enactments or rules for the time being in force.

VI. Of the amounts paid by the licensee into the Taluk Treasury as per chellans C, under clause (2) of Para 6 of Rule V, the rent shall be credited at once to the appropriate budget head "Excise Revenue," and the local cess to the head "Local Cess on Excise Revenue." The District Treasury Officers shall furnish to the Excise Commissioner monthly statements of realizations on account of Toddy rent and local cess thereon, under separate headings by dates in the form prescribed by the Comptroller.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Muzarayi), dated 14th December 1892.

No. 233-42—Muz. F. 102-92, DATED, BANGALORE, 14TH DECEMBER 1892.

ORDER.—It has been brought to notice that the established custom of obtaining His Highness the Maharaja's previous consent to nomination of successors to religious Matts within the State, has not been followed in recent years in a few individual instances.

2. This custom which is an ancient one was followed even during the British administration of the State by reporting every succession to a Matt for the orders of the Chief Commissioner.

3. The omission to report in a few cases has led to the succession to the Guruship of persons, who from their antecedents or lack of learning and qualification do not always command the esteem and regard of their disciples.

4. The Government of His Highness the Maharaja are of opinion that it will advance the public good to enforce due observance of the custom as regards those Matts which enjoy Government grants.

5. It is therefore ordered that the following Rules on the subject will be communicated to all the Matts in the State :—

RULES.

I. Every succession to a Matt enjoying Government grants in land or money or honors granted by the sovereign, should receive the approval of His Highness the Maharaja. Such approval should ordinarily be obtained by previous application to His Highness in the Muzarayi Department.

II. To provide as far as possible against the contingency of a Guru dying suddenly he may as an act of ordinary prudence fix upon one or more eligible persons for an eventual selection by himself as his successor and obtain His Highness' opinion as to the eligibility of such persons. The Guru may, then in due time, select one of them to succeed him.

III. Should the Guru fail to obtain His Highness' approval to an eligible candidate or candidates and should he on the sudden approach of death or fear of death select a successor and give the *A'sramam* to him, the recognition of his succession will, for the purpose of enabling him to enjoy all State grants in land or money, rest with His Highness, who, in exercising his discretion in the matter, will be guided by the opinion of the community and the personal qualification of the successor.

IV. Should a Guru die without giving *A'sramam* to a successor him surviving, then a proper successor shall be selected by the community interested, with the consent of His Highness.

V. Non-recognition of a successor by His Highness will involve the resumption of all State grants in land or money and the customary *Marithés* and *Birúthus* granted or enjoyed under authority from the sovereign.

Secretary.

No. 12832—J. F. 39-92.—The following rules sanctioned by the Government of His Highness the Maharaja of Mysore, in Government Proceedings No. 12585-96—J. F. 39-92, dated 22nd December 1892, are published for general information :—

Rules applicable to Convicted and Under-trial Prisoners in the Lock-ups.

1. The classes of prisoners to be kept in Lock-ups are:—

(*a*) Convicted prisoners sentenced to 30 days and under.

(*b*) Prisoners under-going trial.

(*c*) Prisoners committed to Sessions.

2. No prisoner should be received in a Lock-up without a warrant or written order from a Magistrate, nor should any prisoner be allowed to attend Court, or in any way leave the prison, without such order; when a prisoner is taken to Court under an escort of Police and detained over the night, he should not be admitted to the Lock-up without a written order from the Magistrate.

3. Prisoners in the Lock-ups are not to have their hair cut, or their beard clipped, or shaved.

4. All female convicted prisoners will be kept totally apart from the male convicted prisoners, in such a manner as to prevent them seeing or conversing or holding any intercourse with men.

5. Prisoners sentenced to simple imprisonment are to be kept apart from those sentenced to rigorous imprisonment.

6. Prisoners under-trial before the Magistrate and committed to the Sessions should not be allowed to mix with convicted prisoners.

7. When one of a gang of under-trial prisoners has been admitted by the Committing Magistrate as an approver, he should invariably be kept separate and apart in the Lock-up from the rest of the gang.

8. Female convicted prisoners are to be separated from under-trial prisoners in the same way as males.

9. Juvenile prisoners, before and after conviction, must be kept separate from adult prisoners.

N. B.—Rules 4 to 9 will be observed by all the District Lock-ups and by Taluk Lock-ups, if possible.

10. Prisoners in the Lock-ups, except these rigorously imprisoned, will be allowed to wear their own clothing, provided it is good and clean. They may also be allowed their own food, provided the meals are served in the presence of the Lock-up Officer. Every prisoner sentenced to rigorous imprisonment shall work on admission, unless he be prevented by sickness from doing so.

11. All prisoners under trial shall be allowed their own clothes and use their own bedding; if they have no clothes or bedding, the Officer in charge of the Lock-up shall provide them with the same, according to the scale sanctioned for the Lock-up, the cost thereof being charged in the contingent bill.

12. Convicted prisoners, when sent to Court for trial, should not be placed in the dock with irons on their legs.

13. Every prisoner will be required to wash his own clothing, except in the case of sick prisoners, whose clothing will be washed by some other prisoner.

14. A ticket showing his number, name, crime, term and date of release, will be supplied to each prisoner, to be constantly worn or kept by him.

15. On the admission of a prisoner, he should be searched, and the list of all his property should be entered in a book kept for the purpose, and each entry should be signed by the owner of the property. The properties of each of the prisoners shall be put in a bag duly labelled with his number, number of the case, number of warrant and name of the prisoner, and kept in a box which should be securely lodged in the Taluk Treasury Guard Room.

16. The following offences against discipline are to be read over and explained to every prisoner, on his first admission to the Lock-up, by the Lock-up Gumasta :—

I. Wilful disobedience to these regulations of the prison.

II. Assault or use of criminal force.

III. Use of insulting or threatening language to any officer or prisoner.

IV. Indecent or disorderly behaviour.

V. Wilfully disabling himself from labor.

VI. Refusing to take food prepared and served in the Lock-up.

VII. Contumaciously refusing to work.

VIII. Filing or cutting irons or bars.

IX. Idleness or negligence at work.

X. Wilful mismanagement of work entrusted to a prisoner.

XI. Wilful damage to prison property.

XII. Conspiring to escape, or to assist in escaping, or to commit any other of the offences aforesaid.

17. No one will be allowed to bring, throw, or attempt, by any means whatever, to introduce into the Lock-up, any spirituous or fermented liquor, or tobacco, or intoxicating or poisonous drugs, or other forbidden articles.

18. The offences against the Rules mentioned in Section 16 above, are to be reported to the Officer in charge, giving a brief account of the offence, together with the statement of the prisoner. The said Officer will enquire into the offence and punish the offender in any one of the following ways :—

(*a*) by change of labour to some form less agreeable to the convict,

(*b*) penal or reduced diet for a day or two, in consultation with the Medical Officer,

(*c*) solitary confinement for a day or two.

19. If any prisoner, on or after admission, be found to be sick, he shall at once be placed under treatment and be sent to the nearest Hospital or Dispensary. If he is too weak to be so taken, the Medical Officer should visit him once daily and oftener, if necessary.

20. No convicted or under-trial prisoner, confined in a Lock-up, should be despatched to the Head-quarters of the District, or elsewhere, for trial or for other purposes, unless the Officer in charge of the Lock-up is satisfied, after personal examination, that the prisoner is in a fit condition to travel. In cases of doubt, he should apply, in writing, for the advice of the Medical Officer and act according to his advice, which should also be given in writing.

21. Similar precautions should be observed in the case of prisoners who may, on their way to another station, be taken ill. They should be sent to the nearest Hospital for treatment, either by cart or otherwise as the circumstances of each case may require.

22. It shall be considered a standing order that, on the occurrence of an unnatural or sudden death in the Lock-up, the body is, if possible, to be left in the same position in which it is found, until the arrival of the Medical Officer.

23. Permission shall be granted to prisoners to see their friends occasionally, to enable them to execute a power of attorney for the purpose of preferring an appeal. Such visits should be between 8, A. M. and 4, P. M.

24. Petitions of appeal from prisoners in Lock-ups are to be written, if the prisoners so desire, by a Lock-up Official, free of all charges and forwarded on to the appellate court by the Lock-up Officer. When the appeal is presented by friends of the prisoner, the petition of appeal is not to be written by a Lock-up Official, except under the order of the Officer in charge of the Lock-up. Such order is only to be given under very special circumstances. The Officer in charge of Lock-up should refuse to countersign and to forward appeal memos from prisoners which are worded improperly and indecorously.

25. When any prisoner wishes to execute a power of attorney for the purpose of preferring an appeal, the Officer in charge of the Lock-up will have it duly attested.

26. The Police shall guard the Lock-up whenever there are prisoners, and the cost of guarding shall be calculated as laid down in Resolution "I," dated 4th December 1879, and it will be entered in the Annual Return No. X as nominal cost. In the case of District Lock-ups, separate guarding establishments sanctioned by Government will be maintained.

27. Rations shall be issued to the convicts and under-trial prisoners, in accordance with the scale of diet prescribed (*vide* Appendices A and B), and correct accounts kept in the form prescribed for Lock-up contingent bills.

28. A blanket and matting whereon to sleep shall be provided for every sentenced prisoner.

29. A Medical Officer should visit the Lock-up at least once a week and satisfy himself as to the general sanitation and health of the prisoners, also as to their food, and enter his visits and remarks in a book set apart for the purpose. Should the Medical Officer find the general sanitation bad, he should at once report the matter to the Officer in charge of the Lock-up.

30. It shall be the duty of the Officer in charge of the Lock-up to provide penal labor for all prisoners confined in the Lock-up under sentence of rigorous imprisonment, and how the prisoners are employed shall be shown in a separate column in the monthly statement at present submitted.

31. The convicted prisoners (sentenced to rigorous imprisonment) should be employed in keeping the Lock-up clean, in drawing water and cutting firewood, required for the use of Lock-ups; also in doing any repairs to the Lock-up as far as possible. If convenient, they may also be employed on any remunerative labor. Should there be any surplus number of prisoners, they should be employed in road mending, but on no account should they be employed by the prison officials on private work.

32. Prisoners who are received in the Lock-ups, pending transfer to the District Jail, should be made to work like other prisoners during their stay in the Lock-ups.

33. When prisoners are employed outside the Jail, one peon will guard every five prisoners, the pay of these peons to be charged to the Officer or Department employing the convict labor.

34. Prisoners sentenced to simple imprisonment, if willing to work, should receive full rations.

35. Wherever there is a Munsiff, he will be in charge of the Lock-up, one of his Gumastas attending to the clerical work of the Lock-up, and in other places, the Amildar, Deputy Amildar, or the Sheristadar, one of his Gumastas or a literate Dafadar being deputed to do the clerical work. For the District Lock-up, a separate establishment will be allowed with the sanction of Government.

36. Under-trial prisoners shall be subject to no further restraint than is necessary to their safe custody. They must, however, conform themselves to the Rules of the Lock-up and, for insubordination, will be liable to punishment. They are required to be clean in clothing and person. They shall have all reasonable facilities for conversing with their friends and legal advisers.

37. The Officer in charge of the Lock-up shall visit the Lock-up every morning and inspect all the prisoners in the Lock-up and satisfy himself that the prisoners are clean in their person and have proper clothing. He shall frequently satisfy himself that the diet articles are properly issued and properly cooked and distributed. He shall occasionally visit the Lock-up at meal times. He shall verify the inventory of the property in the Lock-up every quarter and shall curtail expenses of all kinds. He shall cause a strict account to be kept of all clothing.

38. No one shall be allowed to sell, or let, or derive any benefit from selling or letting any article to any prisoner.

39. The Police or other Officer, acting as Gate Porter, or guarding the Lock-up may examine any thing carried in or out of the Lock-up, and may stop and search any person suspected of bringing in spirits or other prohibited articles into the Lock-up.

40. The Officer in charge of the Lock-up shall keep a correct inventory of all clothing, bedding, furniture, tools, cooking utensils, and other Government property belonging to the Lock-up. He shall be held responsible for the safe custody of all property belonging to the prisoners. He shall not allow any prisoner to retain any of his property, but, immediately on the prisoner coming to prison, deprive him of it. On the release of the prisoner, the property will be returned to him, and a receipt obtained from the prisoner should be duly attested by the Officer in charge of the Lock-up in whose presence the property is delivered.

41. The Officer in charge of the Lock-up shall frequently, at uncertain times, search every prisoner, his clothing and bedding, with a view to ascertain whether he has any prohibited articles. He shall also visit the Lock-up at night. Smoking is strictly prohibited in the Lock-up.

No. 12981—R. F. 208–92.—The following Rules framed by the Government of His Highness the Maharaja of Mysore under Section II Act XVI of 1863 as extended to Mysore by Regulation 11 of 1885 for the Methylation, Storage, Fixing the value, and Sale of Spirits rendered effectually and permanently unfit for human consumption are hereby promulgated for general information.

A register in the form appended shall be maintained at distilleries and warehouses whence methylated spirits are issued under Act XVI of 1863 and the following instructions shall be observed in this behalf :—

(i) Spirit methylated for use exclusively in arts, manufactures or chemistry, and which has been rendered effectually and permanently unfit for human consumption, is subject only to an *ad valorem* duty of 5 per cent on the value of the spirits alone, and not on that of the mixture.

(ii) Whenever spirit is to be rendered effectually and permanently unfit for human consumption, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part by volume of the caoutchoucine to 99 parts by volume of the spirit, which shall not be of less strength than 30° over proof.

(iii) But when it can be proved to the satisfaction of the Excise Commissioner in Mysore that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained from that officer for the use of woodnaptha (Methylic Alcohol) instead of caoutchoucine. In this case, one part by volume of crude woodnaptha shall be mixed with nine parts by volume of spirits having a strength not less then 30° over proof.

(iv) The caoutchoucine or the woodnaptha before its admixture with the spirit must be tested by the Chemical Examiner to Government, who must certify to the Excise Commissioner in Mysore that it is of the proper strength and fitted, if used

in the above mentioned proportions, to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed.

(*a*) Should it be found impracticable to obtain caoutchoucine or crude woodnaptha of the required quality to mix in the aforesaid proportons, the Chemical Examiner shall direct the said proportions to be so raised as to render spirits mixed therewith effectually and permanently unfit for human consumption ere issued.

(v) The caoutchoucine or woodnaptha so tested and certified by the Chemical Examiner shall be kept under the lock and key of the Distillery Officer in whose presence only methylation shall be allowed.

(vi) No methylated spirits shall be allowed to pass out of a distillery or warehouse unless covered by a Pass issued by the Officer in charge thereof.

(vii) For the purpose of fixing the amount of duty to be levied on such spirits, their market-value shall be determined by the Excise Commissioner in Mysore subject to approval of Government.

(viii) No greater quantity than 100 gallons of spirits shall be passed for sale under a single permit to any trader without the sanction of the Excise Commissioner in Mysore who shall be at liberty to refuse a permit on this or any other grounds without assigning his reasons except to Government in case of appeal.

(ix) Materials intended for use in the methylation of spirits must be delivered by the distiller of the Government Central Distillery at Bangalore into the charge of the officer who will take a sample from each separate cask or parcel thereof and forward the same to the Excise Commissioner in Mysore for transmission to the Chemical Examinear, and will secure the bulk under a lock in a separate secure room or godown to be provided by the distiller. No portion of such bulk shall be used for the purpose of methylation or be transferred to the warehouse until the receipt of the Chemical Examiner's report. On the receipt thereof, if it be to the effect that the materials are not suitable for use in methylation, the officer shall deliver the same to the distiller who shall be bound forthwith to remove the same from the premises and not to bring them back again. If, however, the Chemical Examiner's report is to the effect that the materials are suitable for use in methylation, the officer will cause them to be removed into and to be secured in the Distillery warehouse, and will at the same time enter them in the Register appended to these Rules.

(x) The officer must personally attend during the whole process of the methylation of spirits.

(xi) No permit may be granted for the removal by any person for private use of a larger quantity of methylated spirits than one gallon at a time.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Muzarayi), dated 14th December 1892.

No. 233-42—Muz. F. 102-92, DATED, BANGALORE, 14TH DECEMBER 1892.

ORDER.—It has been brought to notice that the established custom of obtaining His Highness the Maharaja's previous consent to nomination of successors to religious Matts within the State, has not been followed in recent years in a few individual instances.

2. This custom which is an ancient one was followed even during the British administration of the State by reporting every succession to a Matt for the orders of the Chief Commissioner.

3. The omission to report in a few cases has led to the succession to the Guruship of persons, who from their antecedents or lack of learning and qualification do not always command the esteem and regard of their disciples.

4. The Government of His Highness the Maharaja are of opinion that it will advance the public good to enforce due observance of the custom as regards those Matts which enjoy Government grants.

5. It is therefore ordered that the following Rules on the subject will be communicated to all the Matts in the State :—

RULES.

I. Every succession to a Matt enjoying Government grants in land or money or honors granted by the sovereign, should receive the approval of His Highness the Maharaja. Such approval should ordinarily be obtained by previous application to His Highness in the Muzarayi Department.

II. To provide as far as possible against the contingency of a Guru dying suddenly he may as an act of ordinary prudence fix upon one or more eligible persons for an eventual selection by himself as his successor and obtain His Highness' opinion as to the eligibility of such persons. The Guru may, then in due time, select one of them to succeed him.

III. Should the Guru fail to obtain His Highness' approval to an eligible candidate or candidates and should he on the sudden approach of death or fear of death select a successor and give the *A'sramam* to him, the recognition of his succession will, for the purpose of enabling him to enjoy all State grants in land or money, rest with His Highness, who, in exercising his discretion in the matter, will be guided by the opinion of the community and the personal qualification of the successor.

IV. Should a Guru die without giving *A'sramam* to a successor him surviving, then a proper successor shall be selected by the community interested, with the consent of His Highness.

V. Non-recognition of a successor by His Highness will involve the resumption of all State grants in land or money and the customary *Marithés* and *Birúthus* granted or enjoyed under authority from the sovereign.

A. SREENIVASACHARLU,
Secretary.

No. 12632—J. F. 39-92.—The following rules sanctioned by the Government of His Highness the Maharaja of Mysore, in Government Proceedings No. 12585-96—J. F. 39-92, dated 22nd December 1892, are published for general information:—

Rules applicable to Convicted and Under-trial Prisoners in the Lock-ups.

1. The classes of prisoners to be kept in Lock-ups are:—

(*a*) Convicted prisoners sentenced to 30 days and under.

(*b*) Prisoners under-going trial.

(*c*) Prisoners committed to Sessions.

2. No prisoner should be received in a Lock-up without a warrant or written order from a Magistrate, nor should any prisoner be allowed to attend Court, or in any way leave the prison, without such order; when a prisoner is taken to Court under an escort of Police and detained over the night, he should not be admitted to the Lock-up without a written order from the Magistrate.

3. Prisoners in the Lock-ups are not to have their hair cut, or their beard clipped, or shaved.

4. All female convicted prisoners will be kept totally apart from the male convicted prisoners, in such a manner as to prevent them seeing or conversing or holding any intercourse with men.

5. Prisoners sentenced to simple imprisonment are to be kept apart from those sentenced to rigorous imprisonment.

6. Prisoners under-trial before the Magistrate and committed to the Sessions should not be allowed to mix with convicted prisoners.

7. When one of a gang of under-trial prisoners has been admitted by the Committing Magistrate as an approver, he should invariably be kept separate and apart in the Lock-up from the rest of the gang.

8. Female convicted prisoners are to be separated from under-trial prisoners in the same way as males.

9. Juvenile prisoners, before and after conviction, must be kept separate from adult prisoners.

N. B.—Rules 4 to 9 will be observed by all the District Lock-ups and by Taluk Lock-ups, if possible.

10. Prisoners in the Lock-ups, except these rigorously imprisoned, will be allowed to wear their own clothing, provided it is good and clean. They may also be allowed their own food, provided the meals are served in the presence of the Lock-up Officer. Every prisoner sentenced to rigorous imprisonment shall work on admission, unless he be prevented by sickness from doing so.

11. All prisoners under trial shall be allowed their own clothes and use their own bedding; if they have no clothes or bedding, the Officer in charge of the Lock-up shall provide them with the same, according to the scale sanctioned for the Lock-up, the cost thereof being charged in the contingent bill.

12. Convicted prisoners, when sent to Court for trial, should not be placed in the dock with irons on their legs.

13. Every prisoner will be required to wash his own clothing, except in the case of sick prisoners, whose clothing will be washed by some other prisoner.

14. A ticket showing his number, name, crime, term and date of release, will be supplied to each prisoner, to be constantly worn or kept by him.

15. On the admission of a prisoner, he should be searched, and the list of all his property should be entered in a book kept for the purpose, and each entry should be signed by the owner of the property. The properties of each of the prisoners shall be put in a bag duly labelled with his number, number of the case, number of warrant and name of the prisoner, and kept in a box which should be securely lodged in the Taluk Treasury Guard Room.

16. The following offences against discipline are to be read over and explained to every prisoner, on his first admission to the Lock-up, by the Lock-up Gumasta :—

I. Wilful disobedience to these regulations of the prison.

II. Assault or use of criminal force.

III. Use of insulting or threatening language to any officer or prisoner.

IV. Indecent or disorderly behaviour.

V. Wilfully disabling himself from labor.

VI. Refusing to take food prepared and served in the Lock-up.

VII. Contumaciously refusing to work.

VIII. Filing or cutting irons or bars.

IX. Idleness or negligence at work.

X. Wilful mismanagement of work entrusted to a prisoner.

XI. Wilful damage to prison property.

XII. Conspiring to escape, or to assist in escaping, or to commit any other of the offences aforesaid.

17. No one will be allowed to bring, throw, or attempt, by any means whatever, to introduce into the Lock-up, any spirituous or fermented liquor, or tobacco, or intoxicating or poisonous drugs, or other forbidden articles.

18. The offences against the Rules mentioned in Section 16 above, are to be reported to the Officer in charge, giving a brief account of the offence, together with the statement of the prisoner. The said Officer will enquire into the offence and punish the offender in any one of the following ways :—

(*a*) by change of labour to some form less agreeable to the convict,

(*b*) penal or reduced diet for a day or two, in consultation with the Medical Officer,

(*c*) solitary confinement for a day or two.

19. If any prisoner, on or after admission, be found to be sick, he shall at once be placed under treatment and be sent to the nearest Hospital or Dispensary. If he is too weak to be so taken, the Medical Officer should visit him once daily and oftener, if necessary.

20. No convicted or under-trial prisoner, confined in a Lock-up, should be despatched to the Head-quarters of the District, or elsewhere, for trial or for other purposes, unless the Officer in charge of the Lock-up is satisfied, after personal examination, that the prisoner is in a fit condition to travel. In cases of doubt, he should apply, in writing, for the advice of the Medical Officer and act according to his advice, which should also be given in writing.

21. Similar precautions should be observed in the case of prisoners who may, on their way to another station, be taken ill. They should be sent to the nearest Hospital for treatment, either by cart or otherwise as the circumstances of each case may require.

22. It shall be considered a standing order that, on the occurrence of an unnatural or sudden death in the Lock-up, the body is, if possible, to be left in the same position in which it is found, until the arrival of the Medical Officer.

23. Permission shall be granted to prisoners to see their friends occasionally, to enable them to execute a power of attorney for the purpose of preferring an appeal. Such visits should be between 8. A. M. and 4. P. M.

24. Petitions of appeal from prisoners in Lock-ups are to be written, if the prisoners so desire, by a Lock-up Official, free of all charges and forwarded on to the appellate court by the Lock-up Officer. When the appeal is presented by friends of the prisoner, the petition of appeal is not to be written by a Lock-up Official, except under the order of the Officer in charge of the Lock-up. Such order is only to be given under very special circumstances. The Officer in charge of Lock-up should refuse to countersign and to forward appeal memos from prisoners which are worded improperly and indecorously.

25. When any prisoner wishes to execute a power of attorney for the purpose of preferring an appeal, the Officer in charge of the Lock-up will have it duly attested.

26. The Police shall guard the Lock-up whenever there are prisoners, and the cost of guarding shall be calculated as laid down in Resolution "I," dated 4th December 1879, and it will be entered in the Annual Return No. X as nominal cost. In the case of District Lock-ups, separate guarding establishments sanctioned by Government will be maintained.

27. Rations shall be issued to the convicts and under-trial prisoners, in accordance with the scale of diet prescribed (*vide* Appendices A and B), and correct accounts kept in the form prescribed for Lock-up contingent bills.

28. A blanket and matting whereon to sleep shall be provided for every sentenced prisoner.

29. A. Medical Officer should visit the Lock-up at least once a week and satisfy himself as to the general sanitation and health of the prisoners, also as to their food, and enter his visits and remarks in a book set apart for the purpose. Should the Medical Officer find the general sanitation bad, he should at once report the matter to the Officer in charge of the Lock-up.

30. It shall be the duty of the Officer in charge of the Lock-up to provide penal labor for all prisoners confined in the Lock-up under sentence of rigorous imprisonment, and how the prisoners are employed shall be shown in a separate column in the monthly statement at present submitted.

31. The convicted prisoners (sentenced to rigorous imprisonment) should be employed in keeping the Lock-up clean, in drawing water and cutting firewood, required for the use of Lock-ups; also in doing any repairs to the Lock-up as far as possible. If convenient, they may also be employed on any remunerative labor. Should there be any surplus number of prisoners, they should be employed in road mending, but on no account should they be employed by the prison officials on private work.

32. Prisoners who are received in the Lock-ups, pending transfer to the District Jail, should be made to work like other prisoners during their stay in the Lock-ups.

33. When prisoners are employed outside the Jail, one peon will guard every five prisoners, the pay of these peons to be charged to the Officer or Department employing the convict labor.

34. Prisoners sentenced to simple imprisonment, if willing to work, should receive full rations.

35. Wherever there is a Munsiff, he will be in charge of the Lock-up, one of his Gumastas attending to the clerical work of the Lock-up, and in other places, the Amildar, Deputy Amildar, or the Sheristadar, one of his Gumastas or a literate Dafadar being deputed to do the clerical work. For the District Lock-up, a separate establishment will be allowed with the sanction of Government.

36. Under-trial prisoners shall be subject to no further restraint than is necessary to their safe custody. They must, however, conform themselves to the Rules of the Lock-up and, for insubordination, will be liable to punishment. They are required to be clean in clothing and person. They shall have all reasonable facilities for conversing with their friends and legal advisers.

37. The Officer in charge of the Lock-up shall visit the Lock-up every morning and inspect all the prisoners in the Lock-up and satisfy himself that the prisoners are clean in their person and have proper clothing. He shall frequently satisfy himself that the diet articles are properly issued and properly cooked and distributed. He shall occasionally visit the Lock-up at meal times. He shall verify the inventory of the property in the Lock-up every quarter and shall curtail expenses of all kinds. He shall cause a strict account to be kept of all clothing.

38. No one shall be allowed to sell, or let, or derive any benefit from selling or letting any article to any prisoner.

39. The Police or other Officer acting as Gate Porter, or guarding the Lock-up may examine any thing carried in or out of the Lock-up, and may stop and search any person suspected of bringing in spirits or other prohibited articles into the Lock-up.

40. The Officer in charge of the Lock-up shall keep a correct inventory of all clothing, bedding, furniture, tools, cooking utensils, and other Government property belonging to the Lock-up. He shall be held responsible for the safe custody of all property belonging to the prisoners. He shall not allow any prisoner to retain any of his property, but, immediately on the prisoner coming to prison, deprive him of it. On the release of the prisoner, the property will be returned to him, and a receipt obtained from the prisoner should be duly attested by the Officer in charge of the Lock-up in whose presence the property is delivered.

41. The Officer in charge of the Lock-up shall frequently, at uncertain times, search every prisoner, his clothing and bedding, with a view to ascertain whether he has any prohibited articles. He shall also visit the Lock-up at night. Smoking is strictly prohibited in the Lock-up.

42. The Night Watchman or Guard will look to the protection duties, and prevent any escape, disturbance or out-break.

43. The Officer in charge will be held responsible for the correct keeping of the Registers and Accounts, as per Forms referred to in the Appendix.

I. Register of admission of prisoners in the Lock-up.

No. 12981—R. F. 208–92.—The following Rules framed by the Government of His Highness the Maharaja of Mysore under Section II Act XVI of 1863 as extended to Mysore by Regulation 11 of 1885 for the Methylation, Storage, Fixing the value, and Sale of Spirits rendered effectually and permanently unfit for human consumption are hereby promulgated for general information.

A register in the form appended shall be maintained at distilleries and warehouses whence methylated spirits are issued under Act XVI of 1863 and the following instructions shall be observed in this behalf :—

(i) Spirit methylated for use exclusively in arts, manufactures or chemistry, and which has been rendered effectually and permanently unfit for human consumption, is subject only to an *ad valorem* duty of 5 per cent on the value of the spirits alone, and not on that of the mixture.

(ii) Whenever spirit is to be rendered effectually and permanently unfit for human consumption, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part by volume of the caoutchoucine to 99 parts by volume of the spirit, which shall not be of less strength than 30° over proof.

(iii) But when it can be proved to the satisfaction of the Excise Commissioner in Mysore that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained from that officer for the use of woodnaptha (Methylic Alcohol) instead of caoutchoucine. In this case, one part by volume of crude woodnaptha shall be mixed with nine parts by volume of spirits having a strength not less then 30° over proof.

(iv) The caoutchoucine or the woodnaptha before its admixture with the spirit must be tested by the Chemical Examiner to Government, who must certify to the Excise Commissioner in Mysore that it is of the proper strength and fitted, if used

in the above mentioned proportions, to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed.

(*a*) Should it be found impracticable to obtain, caoutchoucine or crude woodnaptha of the required quality to mix in the aforesaid proportons, the Chemical Examiner shall direct the said proportions to be so raised as to render spirits mixed therewith effectually and permanently unfit for human consumption ere issued.

(v) The caoutchoucine or woodnaptha so tested and certified by the Chemical Examiner shall be kept under the lock and key of the Distillery Officer in whose presence only methylation shall be allowed.

(vi) No methylated spirits shall be allowed to pass out of a distillery or warehouse unless covered by a Pass issued by the Officer in charge thereof.

(vii) For the purpose of fixing the amount of duty to be levied on such spirits, their market-value shall be determined by the Excise Commissioner in Mysore subject to approval of Government.

(viii) No greater quantity than 100 gallons of spirits shall be passed for sale under a single permit to any trader without the sanction of the Excise Commissioner in Mysore who shall be at liberty to refuse a permit on this or any other grounds without assigning his reasons except to Government in case of appeal.

(ix) Materials intended for use in the methylation of spirits must be delivered by the distiller of the Government Central Distillery at Bangalore into the charge of the officer who will take a sample from each separate cask or parcel thereof and forward the same to the Excise Commissioner in Mysore for transmission to the Chemical Examiner, and will secure the bulk under a lock in a separate secure room or godown to be provided by the distiller. No portion of such bulk shall be used for the purpose of methylation or be transferred to the warehouse until the receipt of the Chemical Examiner's report. On the receipt thereof, if it be to the effect that the materials are not suitable for use in methylation, the officer shall deliver the same to the distiller who shall be bound forthwith to remove the same from the premises and not to bring them back again. If, however, the Chemical Examiner's report is to the effect that the materials are suitable for use in methylation, the officer will cause them to be removed into and to be secured in the Distillery warehouse, and will at the same time enter them in the Register appended to these Rules.

(x) The officer must personally attend during the whole process of the methylation of spirits.

(xi) No permit may be granted for the removal by any person for private use of a larger quantity of methylated spirits than one gallon at a time.

12. Convicted prisoners, when sent to Court for trial, should not be placed in the dock with irons on their legs.

13. Every prisoner will be required to wash his own clothing, except in the case of sick prisoners, whose clothing will be washed by some other prisoner.

14. A ticket showing his number, name, crime, term and date of release, will be supplied to each prisoner, to be constantly worn or kept by him.

15. On the admission of a prisoner, he should be searched, and the list of all his property should be entered in a book kept for the purpose, and each entry should be signed by the owner of the property. The properties of each of the prisoners shall be put in a bag duly labelled with his number, number of the case, number of warrant and name of the prisoner, and kept in a box which should be securely lodged in the Taluk Treasury Guard Room.

16. The following offences against discipline are to be read over and explained to every prisoner, on his first admission to the Lock-up, by the Lock-up Gumasta :—

I. Wilful disobedience to these regulations of the prison.

II. Assault or use of criminal force.

III. Use of insulting or threatening language to any officer or prisoner.

IV. Indecent or disorderly behaviour.

V. Wilfully disabling himself from labor.

VI. Refusing to take food prepared and served in the Lock-up.

VII. Contumaciously refusing to work.

VIII. Filing or cutting irons or bars.

IX. Idleness or negligence at work.

X. Wilful mismanagement of work entrusted to a prisoner.

XI. Wilful damage to prison property.

XII. Conspiring to escape, or to assist in escaping, or to commit any other of the offences aforesaid.

17. No one will be allowed to bring, throw, or attempt, by any means whatever, to introduce into the Lock-up, any spirituous or fermented liquor, or tobacco, or intoxicating or poisonous drugs, or other forbidden articles.

18. The offences against the Rules mentioned in Section 16 above, are to be reported to the Officer in charge, giving a brief account of the offence, together with the statement of the prisoner. The said Officer will enquire into the offence and punish the offender in any one of the following ways :—

(*a*) by change of labour to some form less agreeable to the convict,

(*b*) penal or reduced diet for a day or two, in consultation with the Medical Officer,

(*c*) solitary confinement for a day or two.

19. If any prisoner, on or after admission, be found to be sick, he shall at once be placed under treatment and be sent to the nearest Hospital or Dispensary. If he is too weak to be so taken, the Medical Officer should visit him once daily and oftener, if necessary.

20. No convicted or under-trial prisoner, confined in a Lock-up, should be despatched to the Head-quarters of the District, or elsewhere, for trial or for other purposes, unless the Officer in charge of the Lock-up is satisfied, after personal examination, that the prisoner is in a fit condition to travel. In cases of doubt, he should apply, in writing, for the advice of the Medical Officer and act according to his advice, which should also be given in writing.

21. Similar precautions should be observed in the case of prisoners who may, on their way to another station, be taken ill. They should be sent to the nearest Hospital for treatment, either by cart or otherwise as the circumstances of each case may require.

22. It shall be considered a standing order that, on the occurrence of an unnatural or sudden death in the Lock-up, the body is, if possible, to be left in the same position in which it is found, until the arrival of the Medical Officer.

23. Permission shall be granted to prisoners to see their friends occasionally, to enable them to execute a power of attorney for the purpose of preferring an appeal. Such visits should be between 8, A. M. and 4. P. M.

24. Petitions of appeal from prisoners in Lock-ups are to be written, if the prisoners so desire, by a Lock-up Official, free of all charges and forwarded on to the appellate court by the Lock-up Officer. When the appeal is presented by friends of the prisoner, the petition of appeal is not to be written by a Lock-up Official, except under the order of the Officer in charge of the Lock-up. Such order is only to be given under very special circumstances. The Officer in charge of Lock-up should refuse to countersign and to forward appeal memos from prisoners which are worded improperly and indecorously.

25. When any prisoner wishes to execute a power of attorney for the purpose of preferring an appeal, the Officer in charge of the Lock-up will have it duly attested.

26. The Police shall guard the Lock-up whenever there are prisoners, and the cost of guarding shall be calculated as laid down in Resolution "I," dated 4th December 1879, and it will be entered in the Annual Return No. X as nominal cost. In the case of District Lock-ups, separate guarding establishments sanctioned by Government will be maintained.

27. Rations shall be issued to the convicts and under-trial prisoners, in accordance with the scale of diet prescribed (*vide* Appendices A and B), and correct accounts kept in the form prescribed for Lock-up contingent bills.

28. A blanket and matting whereon to sleep shall be provided for every sentenced prisoner.

29. A. Medical Officer should visit the Lock-up at least once a week and satisfy himself as to the general sanitation and health of the prisoners, also as to their food, and enter his visits and remarks in a book set apart for the purpose. Should the Medical Officer find the general sanitation bad, he should at once report the matter to the Officer in charge of the Lock-up.

30. It shall be the duty of the Officer in charge of the Lock-up to provide penal labor for all prisoners confined in the Lock-up under sentence of rigorous imprisonment, and how the prisoners are employed shall be shown in a separate column in the monthly statement at present submitted.

31. The convicted prisoners (sentenced to rigorous imprisonment) should be employed in keeping the Lock-up clean, in drawing water and cutting firewood, required for the use of Lock-ups; also in doing any repairs to the Lock-up as far as possible. If convenient, they may also be employed on any remunerative labor. Should there be any surplus number of prisoners, they should be employed in road mending, but on no account should they be employed by the prison officials on private work.

32. Prisoners who are received in the Lock-ups, pending transfer to the District Jail, should be made to work like other prisoners during their stay in the Lock-ups.

33. When prisoners are employed outside the Jail, one peon will guard every five prisoners, the pay of these peons to be charged to the Officer or Department employing the convict labor.

34. Prisoners sentenced to simple imprisonment, if willing to work, should receive full rations.

35. Wherever there is a Munsiff, he will be in charge of the Lock-up, one of his Gumastas attending to the clerical work of the Lock-up, and in other places, the Amildar, Deputy Amildar, or the Sheristadar, one of his Gumastas or a literate Dafadar being deputed to do the clerical work. For the District Lock-up, a separate establishment will be allowed with the sanction of Government.

36. Under-trial prisoners shall be subject to no further restraint than is necessary to their safe custody. They must, however, conform themselves to the Rules of the Lock-up and, for insubordination, will be liable to punishment. They are required to be clean in clothing and person. They shall have all reasonable facilities for conversing with their friends and legal advisers.

37. The Officer in charge of the Lock-up shall visit the Lock-up every morning and inspect all the prisoners in the Lock-up and satisfy himself that the prisoners are clean in their person and have proper clothing. He shall frequently satisfy himself that the diet articles are properly issued and properly cooked and distributed. He shall occasionally visit the Lock-up at meal times. He shall verify the inventory of the property in the Lock-up every quarter and shall curtail expenses of all kinds. He shall cause a strict account to be kept of all clothing.

38. No one shall be allowed to sell, or let, or derive any benefit from selling or letting any article to any prisoner.

39. The Police or other Officer acting as Gate Porter, or guarding the Lock-up may examine any thing carried in or out of the Lock-up, and may stop and search any person suspected of bringing in spirits or other prohibited articles into the Lock-up.

40. The Officer in charge of the Lock-up shall keep a correct inventory of all clothing, bedding, furniture, tools, cooking utensils, and other Government property belonging to the Lock-up. He shall be held responsible for the safe custody of all property belonging to the prisoners. He shall not allow any prisoner to retain any of his property, but, immediately on the prisoner coming to prison, deprive him of it. On the release of the prisoner, the property will be returned to him, and a receipt obtained from the prisoner should be duly attested by the Officer in charge of the Lock-up in whose presence the property is delivered.

41. The Officer in charge of the Lock-up shall frequently, at uncertain times, search every prisoner, his clothing and bedding, with a view to ascertain whether he has any prohibited articles. He shall also visit the Lock-up at night. Smoking is strictly prohibited in the Lock-up.

42. The Night Watchman or Guard will look to the protection duties, and prevent any escape, disturbance or out-break.

43. The Officer in charge will be held responsible for the correct keeping of the Registers and Accounts, as per Forms referred to in the Appendix.

I. Register of admission of prisoners in the Lock-up.

II. Register showing when each prisoner is to be released.

III. Register showing the employment of prisoners.

II. In the foregoing rules, imprisonment means imprisonment as a substantive sentence and not in default of payment of fine.

III. Provided that if, at any time, the existing accommodation, calculated at 500 cubic feet and 36 superficial feet for each prisoner, is not sufficient for the actual numbers confined in any Lock-up, so many prisoners must be sent to the Head-quarters Jail as shall provide the required accommodation for the remainder.

IV. The distance to be travelled by prisoners sent in to the Head-quarters Jail shall ordinarily be 15 miles a day. But no prisoner physically unfit shall be forced to march at that rate.

THE 27TH JANUARY 1893.

No. 12981—R. F. 208-92.—The following Rules framed by the Government of His Highness the Maharaja of Mysore under Section II Act XVI of 1863 as extended to Mysore by Regulation 11 of 1885 for the Methylation, Storage, Fixing the value, and Sale of Spirits rendered effectually and permanently unfit for human consumption are hereby promulgated for general information.

A register in the form appended shall be maintained at distilleries and warehouses whence methylated spirits are issued under Act XVI of 1863 and the following instructions shall be observed in this behalf :—

(i) Spirit methylated for use exclusively in arts, manufactures or chemistry, and which has been rendered effectually and permanently unfit for human consumption, is subject only to an *ad valorem* duty of 5 per cent on the value of the spirits alone, and not on that of the mixture.

(ii) Whenever spirit is to be rendered effectually and permanently unfit for human consumption, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part by volume of the caoutchoucine to 99 parts by volume of the spirit, which shall not be of less strength than 30° over proof.

(iii) But when it can be proved to the satisfaction of the Excise Commissioner in Mysore that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained from that officer for the use of woodnaptha (Methylic Alcohol) instead of caoutchoucine. In this case, one part by volume of crude woodnaptha shall be mixed with nine parts by volume of spirits having a strength not less then 30° over proof.

(iv) The caoutchoucine or the woodnaptha before its admixture with the spirit must be tested by the Chemical Examiner to Government, who must certify to the Excise Commissioner in Mysore that it is of the proper strength and fitted, if used

in the above mentioned proportions, to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed.

(*a*) Should it be found impracticable to obtain caoutchoucine or crude woodnaptha of the required quality to mix in the aforesaid proportons, the Chemical Examiner shall direct the said proportions to be so raised as to render spirits mixed therewith effectually and permanently unfit for human consumption ere issued.

(v) The caoutchoucine or woodnaptha so tested and certified by the Chemical Examiner shall be kept under the lock and key of the Distillery Officer in whose presence only methylation shall be allowed.

(vi) No methylated spirits shall be allowed to pass out of a distillery or warehouse unless covered by a Pass issued by the Officer in charge thereof.

(vii) For the purpose of fixing the amount of duty to be levied on such spirits, their market-value shall be determined by the Excise Commissioner in Mysore subject to approval of Government.

(viii) No greater quantity than 100 gallons of spirits shall be passed for sale under a single permit to any trader without the sanction of the Excise Commissioner in Mysore who shall be at liberty to refuse a permit on this or any other grounds without assigning his reasons except to Government in case of appeal.

(ix) Materials intended for use in the methylation of spirits must be delivered by the distiller of the Government Central Distillery at Bangalore into the charge of the officer who will take a sample from each separate cask or parcel thereof and forward the same to the Excise Commissioner in Mysore for transmission to the Chemical Examiner, and will secure the bulk under a lock in a separate secure room or godown to be provided by the distiller. No portion of such bulk shall be used for the purpose of methylation or be transferred to the warehouse until the receipt of the Chemical Examiner's report. On the receipt thereof, if it be to the effect that the materials are not suitable for use in methylation, the officer shall deliver the same to the distiller who shall be bound forthwith to remove the same from the premises and not to bring them back again. If, however, the Chemical Examiner's report is to the effect that the materials are suitable for use in methylation, the officer will cause them to be removed into and to be secured in the Distillery warehouse, and will at the same time enter them in the Register appended to these Rules.

(x) The officer must personally attend during the whole process of the methylation of spirits.

(xi) No permit may be granted for the removal by any person for private use of a larger quantity of methylated spirits than one gallon at a time.

7. The contract for which tenders are now invited, shall be subject to the following conditions namely:—

Conditions.

I. The contract shall not be transferable without the previous sanction of the Excise Commissioner, subject to the approval of the Mysore Government.

II. For the purposes of this contract, Government may decline to recognize any representative, agent or partner appointed or taken by the contractors during the period of the contract, unless such representative, agent or partner shall have been first approved of by the Excise Commissioner for the time being.

III (A) The minimum amount guaranteed shall be payable to Government in 12 equal monthly instalments on or before the 20th of each month.

(B) The contractor shall pay into the Taluk Treasuries of the State or into the Bangalore District Treasury fees on wholesale sales of ganja and preparations thereof at the rates prescribed by Government and mentioned in para VIII following. If the total amount of fees accruing on the wholesale sales of ganja and its preparations at the rates above mentioned, be not sufficient in any month to make up the instalment of the guaranteed amount for that month, the contractor shall pay such further amount as may be required to make up the deficiency. On the other hand, if the said fees exceed the said instalment, the excess shall be available to make up the deficiency in any other month of the same official year, this deficiency being adjusted by short payment into the Treasury when the khist for the month is tendered to the extent of such *net* excess sales as may be available when such khist fell due. If the sum available is at any time more than sufficient to make up the deficiency to which it has been applied, the surplus thus accruing shall be paid into the Bangalore District Treasury alone with the instalment of the month in which such surplus was realised.

(C) In case of default in the payment of any of the instalments as aforesaid up to the 15th of the month following that for which it is due, interest at 6 per cent per annum shall be payable in addition; and with the sanction of Government, it shall be lawful, for the Excise Commissioner, to declare the deposit forfeited, to order the contract to be taken under Government management, or to declare the lease forfeited and to dispose of it otherwise at the contractor's risk and loss, and further to recover all arrears together with the loss of revenue entailed on Government by such disposal, by the attachment and sale of his property, personal or real, including cash at Wholesale Depôts, in accordance with the rules relating to the recovery of arrears of land revenue.

IV. The Excise Commissioner or Deputy Commissioner of each District shall be at liberty on good and valid grounds existing therefor, to make any alterations in the number and localities of the shops that he may from time to time consider necessary, or to close any shop without any claims for compensation on the part of the contractor.

V. The contractor shall sell ganja and its preparations only to licensed vendors, and shall not interfere with retail vendors in any way.

VI. The ganja and majum and other preparations thereof sold, shall be of good quality, not black or old, or such as may have lost medicinal virtues, and must be without stalks and seeds which should be removed before issue to retail vendors, or equivalent weight of good ganja given for such stalks and seeds when returned by retail vendors, and must not be adulterated. Powdered ganja to the extent of 5 per cent only shall be taken by the vendors. Such powdered ganja may be made up by the retail vendors into *halva*. The contractor shall always keep on hand not less than one month's supply of ganja at each Wholesale Depôt and two months' stock (exclusive of the stock at depôts) at the Provincial Head-quarters Depôt at the Bangalore Distillery.

VII. All ganja and its preparations transferred from a Wholesale Depôt in one District, to a Wholesale Depôt in another District, shall be covered by a Transport Pass in the prescribed form, and when sent from one Wholesale Depôt to another in the same District, they shall be covered by the "Contractor's Pass" in the prescribed form; and the conditions of such Passes shall not be infringed; and the number and date thereon shall be duly quoted in the depôt account against the entry of receipts in the depôt registers. Those sold at the depôt to retail vendors, shall be covered by a Permit in the prescribed form signed by the contractor or his authorized agent, the conditions whereof shall not be infringed.

VIII. The fees inclusive of local cess on the wholesale vend, payable to Government, and rates of prices for the wholesale and retail vend of ganja and majum, per seer of 24 tolas, are fixed as specified below for the whole Province :—

	Rates of fee payable to Govt. on Wholesale vend.			Wholesale price.			Retail price.

Majum or any other preparation of ganja (except halva) per seer of 24 tolas...	0	2	0	0	4	0	0	5	0

IX. The Deputy Commissioner shall have power to close any particular shop or shops, on the requisition of the Military Authorities or Magistracy, temporarily or permanently, and the contractor shall not be entitled to any compensation therefor. But with the approval of the Excise Commissioner, the number so reduced, might, if the public requirements demand it, be re-established in other adjacent towns or villages.

X. No fee shall be levied for licenses for the retail vend of ganja except in the Cities of Bangalore and Mysore, where a fee of three rupees per mensem shall be charged for each license. Licenses for the vend of opium shall be granted free to vendors holding ganja licenses, and *vice versa*.

XI. The Excise Commissioner in Mysore may permit the contractor to import ganja from beyond the Territories of Mysore under "Import passes" to be issued by him in communication with the authorities of the District from which the article is to be imported, and such drugs, with the passes granted, shall be duly brought to book first at the Provincial Head-quarters Depôt at the Bangalore Government Central Distillery, ere it is utilized or transferred to the Wholesale Depôts. To obviate complications in accounts, the stock of drugs sent to one District shall, as far as possible, be sold in that District.

XII. The contractor shall keep at the Bangalore Distillery and render a true and correct account of all cash transactions and of ganja cultivated and drugs manufactured and bought and sold at the Wholesale Depôts, to the Excise Commissioner, monthly, and allow the officers of the Excise Department free access always to all the accounts kept by the contractor, which shall be true and accurate, and in the prescribed forms. And for the purposes of this contract, the contractor shall open an account showing in detail the prime cost of the drug, cost of carriage by cart and rail, other charges, if any, and total cost of drugs per maund. The number and date of transport or import passes shall be quoted, and each item duly vouched for with original receipts, &c., duly numbered. The cost of establishment, contingencies, &c., shall also be given monthly *in detail*. A copy of this account shall be furnished to the Excise Commissioner monthly, and the original accounts with vouchers shall be kept at the Provincial Head-quarters Depôt at the Bangalore Distillery.

XIII. Disorderly conduct and irregular transactions at the Wholesale Depôts shall not be permitted by the contractor's agents or employés. The Wholesale Depôts shall be provided, at the contractor's cost, with correct scales and weights, duly stamped by Government; and further, all such employés shall, 15 days after the agreement is signed by the contractor, enter into engagements with the contractor to abide by the spirit and letter of the conditions entered into by the contractor with Government, and of the laws and rules in force, and such engagements shall be deposited for each District in the Deputy Commissioner's Office without delay. Such employés shall take out wholesale licenses if employed to sell the drugs, and sign permits for the contractor. With the permission of the Government Arrack carriage contractor, all Mutsaddis in charge of Bonded Depôts and with the consent of the Arrack Vend renters all Mutsaddis in charge of Farm Depôts may be employed as wholesale ven-

dors of ganja and its preparations, and paid such commission on the sales as shall be fixed by the Excise Commissioner, not exceeding one anna per seer sold by them. All ganja and majum remaining on hand on the 1st July 1893 at the Head-quarters Depôt and all Wholesale Depôts, if of good quality and fit for use, shall be taken over by the contractor at an average rate of price struck on the rate entered in the accounts kept by the out-going contractor, on the value of the drugs so transferred. Similarly the contractor shall take over all scales and weights at the Head-quarters and other depôts, if correct and in good order, at a valuation to be fixed by the Excise Commissioner. The contractor shall be liable similarly to make over on the determination of his contract unsold stock in hand and scales and weights to his successor in the lease.

XIV. The contractor shall conform to the rules now in force, or any additional rules which may be prescribed from time to time by the Government, not inconsistent with the terms of this notification. XVI. For any infringement of the above conditions, the contractor shall be liable to a fine not exceeding Rs. 500 to be levied at the discretion of the Excise Commissioner, and to the forfeiture of the contract, with the approval of Government, if deemed necessary, and to such further penalties as are prescribed by the laws in force for breaches thereof or of the rules framed by Government.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st April 1893.

READ :—

Correspondence ending with letter No. 922, dated 5th January 1893, from the Deputy Commissioner, Mysore District, relating to the levy of water-rate on certain lands in the Inam village of Turkarhundi in Tirumakudlu-Narsipur Taluk.

No. 16512-21—R. 2029, DATED, BANGALORE, 1ST APRIL 1893.

ORDER THEREON.—The Inamdar is not liable to pay any water-rate in respect of lands which, at the time of the grant of the Inam, were actually wet and irrigated from the same source as now. The correspondence shows a confusion in the minds of some local officers between "Water-rate" and "Irrigation Cess." A "Water-rate" is a levy of the nature of a land assessment, and the wet assessment may be regarded as composed of the ordinary dry assessment plus a water-rate for irrigation supplied from a particular existing source. If the grant of the Inam alienated the wet assessment on certain lands under a particular source of irrigation and the same lands are now reasonably identifiable, the mere fact that the same source of irrigation has recently been repaired by the State cannot give the Government the right to levy a "water-rate" from such lands, for such a levy would amount to a resumption of part of the originally alienated Revenue. The Inamdar of course cannot claim exemption from water-rate in respect of lands newly converted into "wet" or old wet lands brought under a *new* source of irrigation established by Government.

2. If the old source of irrigation had fallen into disuse and consequently the Inamdar's wet lands under it could not be and had not been all irrigated and if the work is now repaired by Government, the Inamdar must, under existing rules, pay a share of the cost of such repair, proportionate to the extent of the benefit accruing to him thereby.

PART I.

Notifications by the Govt. of His Highness the Maharaja of Mysore.

GENERAL.

NOTIFICATIONS.

The 18th June 1893.

No. 21429—R. F. 183-92.—The Government of His Highness the Maharaja of Mysore are pleased to issue the following rules for the de-limitation of the margin of land to be kept uncultivated below the bunds of tanks. They are in supersession of all previous orders on the subject.

I. Below the bottom of rear slope of bunds of all *maidan* tanks, irrigating more than 20 acres of wet land, a margin, 10 feet wide, to be left uncultivated. The boundary line to be demarcated by the Revenue Survey Department, if not already done. Where the line has been wrongly laid down, (*i. e.*) without affording the full 10 feet margin prescribed, a new alignment is to be laid down by the same agency.

If, however, a distribution channel from a sluice runs along the toe of bund within the margin above described, cultivation will be allowed up to bund of this channel, irrespective of the specified margin.

II. Below small *maidan* tanks, irrigating 20 acres and less, the margin to be left is reduced to 5 feet, unless where a marginal demarcation of greater width has already been laid down and no cultivation exists within it. As under Rule I, a distribution channel running along the foot of bund will mark the marginal limit irrespective of its distance from the bund.

III. In all cases where within the limits above described, whether already demarcated or now to be marked, garden or fruit-bearing trees already exist, the removal of the same will not be insisted on until the trees have ceased to yield. When the trees have ceased bearing, they are to be cut down by the owners and no fresh planting will be allowed. The assessment on such intra-marginal lands will be gradually extinguished, and the measured areas excluded from the several pattas.

IV. The margin provided for tank bunds in Rule II, is also applicable to all river irrigation channels and to any feeder channels which may be specially notified by the Public Works Department as coming under this rule. The rule providing for the gradual extinction of the rights to gardens and fruit-bearing trees will also apply to the required margin below channels.

V. In the case of all *malnad* tanks irrigating less than 100 acres, the restrictions regarding limit of cultivation will be entirely withdrawn except that on no account will cultivation in any form be allowed on the rear slopes and any one cutting into such slopes to level the ground for purposes of watering will be prosecuted for mischief. In the case of *malnad* tanks irrigating 100 acres and upwards, Rule I shall apply in full.

VI. For the purpose of these Rules, the following Taluks will be treated as *malnad* :—

2. In cases which may be submitted to a Sessions Judge, for confirmation of sentence, under para 2, Section 34, Criminal Procedure Code, a copy of the order passed by the Sessions Judge, together with a copy of the judgment passed by the Deputy Commissioner exercising the special powers, should be submitted with a tabular statement in the annexed form, within 48 hours from the date of the order.

3. *District Magistrates.*—District Magistrates will forward to the Chief Court copies of all their judgments and orders, together with a tabular statement in all cases tried by them, including proceedings held under Chapters 8, 10, 11, 12 and 36 of the Code of Criminal Procedure, within 24 hours after pronouncing the judgment or order.

4. *Sub-Division Magistrates and* 1*st Class Magistrates.*—Sub-Division Magistrates and all First Class Magistrates will submit copies of judgments and orders, together with a tabular statement to the District Magistrate, in all cases tried by them, including the proceedings held by them under Chapters VIII, X, XI, XII and XXXVI of the Criminal Procedure Code, within 24 hours after the close of the trial.

5. District Magistrates will, after perusal, forward them without delay to the Chief Court, bringing at the same time to the notice of the Chief Court, any errors or irregularities in the proceedings of the Magistrates. Judgments or orders passed in summons cases by Sub-Division Magistrates and by First Class Magistrates need not be submitted to the Chief Court under this rule. This does not prevent a District Magistrate from submitting a judgment for the perusal of the Chief Court, if he considers that the case is of some importance, or that it is otherwise necessary.

6. All Second and Third Class Magistrates will submit copies of all judgments and orders passed by them, together with the prescribed statements, to the District Magistrate, and when there is a Sub-Division Magistrate, through such Magistrate, within 24 hours after the close of the trial. In the latter case, the Sub-Division Magistrate will, after examining the statements, judgments and orders, forward them to the District Magistrate, bringing at the same time to the notice of the District Magistrate, any errors or irregularities in the proceedings of the Subordinate Magistrates.

7. If an order of discharge is passed by a District Magistrate, under Section 209 of the Criminal Procedure, a copy of the order will, in the first instance, be submitted to the Sessions Judge. If the order is passed by any other Magistrate, he will forward it to the District Magistrate, who will, without unnecessary delay, forward it to the Sessions Judge. Sessions Judges will forward these copies after perusal to the Chief Court.

8. Statements need not accompany copies of judgments or orders when cases are compounded, or are permitted to be withdrawn, or when they are dismissed for default of the complainant's appearance.

9. District Magistrates, to whom copies of judgments of the Subordinate Magistracy are submitted, will carefully examine them and report at once to the Chief Court any cases which, in their opinion, may call for revision.

10. Copies of proceedings, if any, passed by District or Sub-Division Magistrates, on the statements and judgments submitted to them, together with copies of the statements and judgments so revised, will be submitted by District Magistrates to the Chief Court. If no proceedings are passed by a District Magistrate or a Sub-Division Magistrate, on the statements and judgments submitted to them, the statements and judgments themselves need not be submitted to the Chief Court.

APPELLATE JURISDICTION.

11. A copy of every judgment or order passed by Sessions Judges in the exercise of their Appellate Jurisdiction and a copy of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

12. A copy of every judgment or order passed by District Magistrates in the exercise of their Appellate Jurisdiction and of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

13. Copies of judgments on appeal and of miscellaneous orders as above passed by Sub-Division Magistrates and 1st Class Magistrates, will be submitted within 48 hours to the District Magistrate. The District Magistrate, after examining them, will submit them to the Chief Court.

14. A copy of judgment passed on appeal which, under paras 11, 12 and 13, is required to be submitted to the Chief Court or the District Magistrate, shall invariably be accompanied by a copy of the judgment or order appealed against, together with the statement accompanying such judgment or order.

15. Copy of proceedings, if any, passed by District Magistrates on the judgments and orders passed on appeal and submitted to them as above, will be forwarded to the Chief Court.

Note.—(*a.*) Any remark to the effect that a judgment is not in the prescribed form, or that it is not submitted within the prescribed time, or an order calling for an explanation, is not a proceeding within the meaning of this rule and of rule ten.

(*b.*) It is not a proceeding within the meaning of this rule and of rule ten, when a District Magistrate simply remarks that the sentence passed by a Subordinate Magistrate might have been more or less severe, but does not consider it necessary to make a reference to the Chief Court.

16. The following are some of the points which District Magistrates will particularly notice when exercising their powers of supervision :—

(*a.*) The rash or unnecessary issue of process.

(*b.*) The dealing with disputed claims of right under color of a charge of criminal trespass or mischief and convictions for these offences without a finding as to the criminal intent.

(*c.*) The indiscreet imposition of fines beyond the means of offenders.

(*d.*) The light punishment, by inferior Courts, of offences requiring severe sentences in cases which ought to have gone up to a superior Court for enhanced punishment.

(*e.*) The imposition of heavy fines in addition to imprisonment with a view, in default of payment, to extend the term of imprisonment beyond the ordinary powers of the Magistrate to inflict.

(*f.*) The exaction of excessive bail or excessive security for keeping the peace or for good behavior.

(*g.*) Unnecessary delay in the disposal of cases.

In supersession of the Rules of Practice noted in the margin, the Chief Court, under Section 553 of the Code of Criminal Procedure, and with the sanction of Government, has framed the following Rules, for the submission of Calendars :—

No. 30, dated 5th July 1883.
No. 38, dated 6th January 1885.
No. 44, dated 27th October 1886.
No. 48, dated 15th August 1887.
No. 52, dated 12th March 1890.

ORIGINAL JURISDICTION.

1. *Sessions Judges.*—Courts of Sessions Judges will transmit to the Chief Court, copies of all judgments and orders, together with a tabular statement in the annexed form, within 48 hours after the date of pronouncing judgment or order in each case.

2. In cases which may be submitted to a Sessions Judge, for confirmation of sentence, under para 2, Section 34, Criminal Procedure Code, a copy of the order passed by the Sessions Judge, together with a copy of the judgment passed by the Deputy Commissioner exercising the special powers, should be submitted with a tabular statement in the annexed form, within 48 hours from the date of the order.

3. *District Magistrates.*—District Magistrates will forward to the Chief Court copies of all their judgments and orders, together with a tabular statement in all cases tried by them, including proceedings held under Chapters 8, 10, 11, 12 and 36 of the Code of Criminal Procedure, within 24 hours after pronouncing the judgment or order.

4. *Sub-Division Magistrates and* 1*st Class Magistrates.*—Sub-Division Magistrates and all First Class Magistrates will submit copies of judgments and orders, together with a tabular statement to the District Magistrate, in all cases tried by them, including the proceedings held by them under Chapters VIII, X, XI, XII and XXXVI of the Criminal Procedure Code, within 24 hours after the close of the trial.

5. District Magistrates will, after perusal, forward them without delay to the Chief Court, bringing at the same time to the notice of the Chief Court, any errors or irregularities in the proceedings of the Magistrates. Judgments or orders passed in summons cases by Sub-Division Magistrates and by First Class Magistrates need not be submitted to the Chief Court under this rule. This does not prevent a District Magistrate from submitting a judgment for the perusal of the Chief Court, if he considers that the case is of some importance, or that it is otherwise necessary.

6. All Second and Third Class Magistrates will submit copies of all judgments and orders passed by them, together with the prescribed statements, to the District Magistrate, and when there is a Sub-Division Magistrate, through such Magistrate, within 24 hours after the close of the trial. In the latter case, the Sub-Division Magistrate will, after examining the statements, judgments and orders, forward them to the District Magistrate, bringing at the same time to the notice of the District Magistrate, any errors or irregularities in the proceedings of the Subordinate Magistrates.

7. If an order of discharge is passed by a District Magistrate, under Section 209 of the Criminal Procedure, a copy of the order will, in the first instance, be submitted to the Sessions Judge. If the order is passed by any other Magistrate, he will forward it to the District Magistrate, who will, without unnecessary delay, forward it to the Sessions Judge. Sessions Judges will forward these copies after perusal to the Chief Court.

8. Statements need not accompany copies of judgments or orders when cases are compounded, or are permitted to be withdrawn, or when they are dismissed for default of the complainant's appearance.

9. District Magistrates, to whom copies of judgments of the Subordinate Magistracy are submitted, will carefully examine them and report at once to the Chief Court any cases which, in their opinion, may call for revision.

10. Copies of proceedings, if any, passed by District or Sub-Division Magistrates, on the statements and judgments submitted to them, together with copies of the statements and judgments so revised, will be submitted by District Magistrates to the Chief Court. If no proceedings are passed by a District Magistrate or a Sub-Division Magistrate, on the statements and judgments submitted to them, the statements and judgments themselves need not be submitted to the Chief Court.

APPELLATE JURISDICTION.

11. A copy of every judgment or order passed by Sessions Judges in the exercise of their Appellate Jurisdiction and a copy of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

12. A copy of every judgment or order passed by District Magistrates in the exercise of their Appellate Jurisdiction and of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

13. Copies of judgments on appeal and of miscellaneous orders as above passed by Sub-Division Magistrates and 1st Class Magistrates, will be submitted within 48 hours to the District Magistrate. The District Magistrate, after examining them, will submit them to the Chief Court.

14. A copy of judgment passed on appeal which, under paras 11, 12 and 13, is required to be submitted to the Chief Court or the District Magistrate, shall invariably be accompanied by a copy of the judgment or order appealed against, together with the statement accompanying such judgment or order.

15. Copy of proceedings, if any, passed by District Magistrates on the judgments and orders passed on appeal and submitted to them as above, will be forwarded to the Chief Court.

Note.—(*a.*) Any remark to the effect that a judgment is not in the prescribed form, or that it is not submitted within the prescribed time, or an order calling for an explanation, is not a proceeding within the meaning of this rule and of rule ten.

(*b.*) It is not a proceeding within the meaning of this rule and of rule ten, when a District Magistrate simply remarks that the sentence passed by a Subordinate Magistrate might have been more or less severe, but does not consider it necessary to make a reference to the Chief Court.

16. The following are some of the points which District Magistrates will particularly notice when exercising their powers of supervision :—

(*a.*) The rash or unnecessary issue of process.

(*b.*) The dealing with disputed claims of right under color of a charge of criminal trespass or mischief and convictions for these offences without a finding as to the criminal intent.

(*c.*) The indiscreet imposition of fines beyond the means of offenders.

(*d.*) The light punishment, by inferior Courts, of offences requiring severe sentences in cases which ought to have gone up to a superior Court for enhanced punishment.

(*e.*) The imposition of heavy fines in addition to imprisonment with a view, in default of payment, to extend the term of imprisonment beyond the ordinary powers of the Magistrate to inflict.

(*f.*) The exaction of excessive bail or excessive security for keeping the peace or for good behavior.

(*g.*) Unnecessary delay in the disposal of cases.

The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter, or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

JUDICIAL DEPARTMENT.

IN THE CHIEF COURT OF MYSORE.

Criminal Side.

Rule of Practice No. 58, *dated* 1*st September* 1892.

In supersession of the Rules of Practice noted in the margin, the Chief Court, under Section 553 of the Code of Criminal Procedure, and with the sanction of Government, has framed the following Rules, for the submission of Calendars :—

No. 30, dated 5th July 1883.
No. 38, dated 6th January 1885.
No. 44, dated 27th October 1886.
No. 48, dated 15th August 1887.
No. 52, dated 12th March 1890.

ORIGINAL JURISDICTION.

1. *Sessions Judges.*— Courts of Sessions Judges will transmit to the Chief Court, copies of all judgments and orders, together with a tabular statement in the annexed form, within 48 hours after the date of pronouncing judgment or order in each case.

2. In cases which may be submitted to a Sessions Judge, for confirmation of sentence, under para 2, Section 31, Criminal Procedure Code, a copy of the order passed by the Sessions Judge, together with a copy of the judgment passed by the Deputy Commissioner exercising the special powers, should be submitted with a tabular statement in the annexed form, within 48 hours from the date of the order.

3. *District Magistrates.*—District Magistrates will forward to the Chief Court copies of all their judgments and orders, together with a tabular statement in all cases tried by them, including proceedings held under Chapters 8, 10, 11, 12 and 36 of the Code of Criminal Procedure, within 24 hours after pronouncing the judgment or order.

4. *Sub-Division Magistrates and* 1*st Class Magistrates.*—Sub-Division Magistrates and all First Class Magistrates will submit copies of judgments and orders, together with a tabular statement to the District Magistrate, in all cases tried by them, including the proceedings held by them under Chapters VIII, X, XI, XII and XXXVI of the Criminal Procedure Code, within 24 hours after the close of the trial.

5. District Magistrates will, after perusal, forward them without delay to the Chief Court, bringing at the same time to the notice of the Chief Court, any errors or irregularities in the proceedings of the Magistrates. Judgments or orders passed in summons cases by Sub-Division Magistrates and by First Class Magistrates need not be submitted to the Chief Court under this rule. This does not prevent a District Magistrate from submitting a judgment for the perusal of the Chief Court, if he considers that the case is of some importance, or that it is otherwise necessary.

6. All Second and Third Class Magistrates will submit copies of all judgments and orders passed by them, together with the prescribed statements, to the District Magistrate, and when there is a Sub-Division Magistrate, through such Magistrate, within 24 hours after the close of the trial. In the latter case, the Sub-Division Magistrate will, after examining the statements, judgments and orders, forward them to the District Magistrate, bringing at the same time to the notice of the District Magistrate, any errors or irregularities in the proceedings of the Subordinate Magistrates.

7. If an order of discharge is passed by a District Magistrate, under Section 209 of the Criminal Procedure, a copy of the order will, in the first instance, be submitted to the Sessions Judge. If the order is passed by any other Magistrate, he will forward it to the District Magistrate, who will, without unnecessary delay, forward it to the Sessions Judge. Sessions Judges will forward these copies after perusal to the Chief Court.

8. Statements need not accompany copies of judgments or orders when cases are compounded, or are permitted to be withdrawn, or when they are dismissed for default of the complainant's appearance.

9. District Magistrates, to whom copies of judgments of the Subordinate Magistracy are submitted, will carefully examine them and report at once to the Chief Court any cases which, in their opinion, may call for revision.

10. Copies of proceedings, if any, passed by District or Sub-Division Magistrates, on the statements and judgments submitted to them, together with copies of the statements and judgments so revised, will be submitted by District Magistrates to the Chief Court. If no proceedings are passed by a District Magistrate or a Sub-Division Magistrate, on the statements and judgments submitted to them, the statements and judgments themselves need not be submitted to the Chief Court.

APPELLATE JURISDICTION.

11. A copy of every judgment or order passed by Sessions Judges in the exercise of their Appellate Jurisdiction and a copy of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

12. A copy of every judgment or order passed by District Magistrates in the exercise of their Appellate Jurisdiction and of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

13. Copies of judgments on appeal and of miscellaneous orders as above passed by Sub-Division Magistrates and 1st Class Magistrates, will be submitted within 48 hours to the District Magistrate. The District Magistrate, after examining them, will submit them to the Chief Court.

14. A copy of judgment passed on appeal which, under paras 11, 12 and 13, is required to be submitted to the Chief Court or the District Magistrate, shall invariably be accompanied by a copy of the judgment or order appealed against, together with the statement accompanying such judgment or order.

15. Copy of proceedings, if any, passed by District Magistrates on the judgments and orders passed on appeal and submitted to them as above, will be forwarded to the Chief Court.

Note.—(*a.*) Any remark to the effect that a judgment is not in the prescribed form, or that it is not submitted within the prescribed time, or an order calling for an explanation, is not a proceeding within the meaning of this rule and of rule ten.

(*b.*) It is not a proceeding within the meaning of this rule and of rule ten, when a District Magistrate simply remarks that the sentence passed by a Subordinate Magistrate might have been more or less severe, but does not consider it necessary to make a reference to the Chief Court.

16. The following are some of the points which District Magistrates will particularly notice when exercising their powers of supervision :—

(*a.*) The rash or unnecessary issue of process.

(*b.*) The dealing with disputed claims of right under color of a charge of criminal trespass or mischief and convictions for these offences without a finding as to the criminal intent.

(*c.*) The indiscreet imposition of fines beyond the means of offenders.

(*d.*) The light punishment, by inferior Courts, of offences requiring severe sentences in cases which ought to have gone up to a superior Court for enhanced punishment.

(*e.*) The imposition of heavy fines in addition to imprisonment with a view, in default of payment, to extend the term of imprisonment beyond the ordinary powers of the Magistrate to inflict.

(*f.*) The exaction of excessive bail or excessive security for keeping the peace or for good behavior.

(*g.*) Unnecessary delay in the disposal of cases.

Resolved that according to the opinion expressed by Colonel Campbell, the then Deputy Commissioner, in a previous meeting, and as the Board concurring in his views, considers that their services were, not to say absolutely necessary, such that the country would feel it as a great boon conferred on it, provision be made for 3 more Midwives in addition to the two already provided for and that they be appointed in the following circles :—

Resolved that the balance be spent in purchases and that Rs. 200 be provided for on account of feeding charges.

10. Read Senior Surgeon's Docket No. 2106, dated 25th May 1892, stating that if practicable 2 chairs be supplied to the Dispensary at Yedahalli.

Resolved that a provision of Rs. 8 for 2 chairs be made.

18. Proposed by Mudgere Amildar that the pay of Watchman in the Bungalows of Sampigekhan, Balehole and Kotigehar be increased from Rs. 6 to 7.

19. Proposed by the Koppa Amildar that a Kotval on Rs. 8 per month be appointed for Sollebail and one for Hariharpur.

Resolved that the Government orders be awaited regarding the classification of the Bungalows according as they are situate on Provincial or District Funds Boards and regarding the scale of such establishment.

20. Proposed by Dr. Fernandes and the Koppa Amildar that a Dispensary be established at Sringeri and maintained from District Funds as it would be useful both to the people of the Jahgir and the Sarkar Villages around in Koppa and Mudgere Taluks.

Placed before Board correspondence ending with docket No. 982 of 1887, to the Senior Surgeon stating that the Matt would or could not bear all expenses connected with a Dispensary.

The Koppa Amildar stated that the Matt and the Municipality together would bear half the charges.

After much discussion, it was resolved that the Government sanction be solicited for a contribution of one-fourth of the cost of the Dispensary being met from District Funds on condition that the remaining three-fourths be borne by the Matt and the Municipality together (in such proportion between them as may be considered expedient before finally deciding the question) as the Dispensary will be of great use to the Government villages of Kigga, Kere and Nemmar Maganis of the Koppa Taluk beyond the Sringeri Jahgir, and others who may find it convenient to visit the place and indispensable in a place like Sringeri always more or less sickly and thronged by pilgrims.

Resolved that the Executive Engineer be asked to carry out the needful work out of the annual maintenance of 50 rupees per mile which amounts to Rs. 1,150.

II. Read the Executive Engineer's letter No. 41 of the 11 January 1893, applying for additional funds for some works.

Resolved (1) that the additional amounts of 500 rupees and 3,000 rupees asked for the bridges over the Honnenalli stream and the Borankanave stream on Sira-Banavar road, for which 1,000 rupees and 2,000 rupees have already been provided in the Budget for 1892-93 be granted out of the amounts provided in the Budget for other works which may not be spent.

(2) and that the Board are unable to enhance the maintenance allowance of the following roads asked for by the Executive Engineer :—

(*a*) Dobbspet-Koratagere.
(*b*) Bellavi-Timmarajanhalli road.
(*c*) Tumkur-Chelur road.
(*d*) Yediyur-Tiptur road.
(*e*) Hassan-Tiptur road.

III. Discussed the Budget for 1893-94.

There are at present 16 Sweepers for 3rd Class Travellers' Bungalows and 8 for Musafarkhanas at 4 rupees, only one of them (the Sweeper of the Musafarkhana at Gubbi) getting 5 rupees. All the Amildars having represented that it is very difficult to get Sweepers on 4 rupees in these days, the Members resolved to raise the pay to 5 rupees from 1st July 1893. Further as fresh Musafarkhanas have been built at Holavanahalli, Chiknayakanhalli, Banasandra, Yeladabagi, Dodguni, Chelur and Bellavi, seven more Sweepers are needed. Provision is accordingly made in the Budget for these. Unlike the other 3rd Class Travellers' Bungalows which have only one man as Sweeper, those at Nittur and Yediyur have in addition a Waterman each on 4 rupees. The Members resolve to dispense with these two additional men and make all Bungalows alike. Accordingly these two Watermen have not been provided for in the Budget.

President.

MYSORE STATE LIFE INSURANCE.

Circular No. 13, *dated* 17*th February* 1893.

Instances having come under notice of premiums due on Policies not being paid regularly month by month by insured officials direct or by deduction from their pay by Heads of Departments, and as it is apprehended that this irregularity is the result of the rules on the subject not being understood, the undersigned has the honor to invite the attention of Heads of Departments and Treasury Officers to Clause 24 of the Mysore State Life Insurance Rules, which distinctly requires premiums to be paid in advance. By advance is meant the month in which the premium is credited in the Treasury accounts. For example, the 1st premium paid during, say, the month of October is for October; the 2nd premium payable from October's pay is for November and so on.

In several instances, the 1st premium was paid during a month, the second premium payable from the same month's salary was withheld on the presumption apparently that the 1st premium having been paid during the month, no premium is recoverable from pay for that month paid in the following month. This is not intended by the rules and should be guarded against in future.

The Heads of Departments and the Treasury Officers are therefore particularly requested to see that in future due attention is paid to the rules referred to above and that all premiums are recovered strictly in advance.

Proposed by the Executive Engineer that the pay of the Sweeper of the Ulavi Inspector Lodge paid in the proportion of $\frac{1}{3}$rd (Rs. 1—5—4) per mensem from Local Funds and $\frac{2}{3}$rds (Rs. 2—10—8) from the Imperial Funds, be entirely charged to the Local Funds.

Proposed by the Sagar Sub-Division Officer that the pay of the Sweepers belonging to the Bungalows and Musafarkhanas noted below may be raised as follows:—

Sorab Bungalow Sweeper from Rs. 4 to 5 per mensem.
Kalliurkatte Bungalow from Rs. 4 to 5 per mensem.
Benavalli Bungalow from Rs. 4 to 5 per mensem.
Godekoppa Musafarkhana from Rs. 2 to 4 per mensem.

Resolved that necessary provision be made in the Budget subject to the approval of Government.

A provision of Rs. 180 is made in the Budget for two Midwives at 7½ Rs. per mensem being the moiety of their pay in addition to the 2 already sanctioned by Government in Proceedings No. 13383-5—L. F. 55-92, dated 3rd February 1893, as they are likely to pass this year, and have to be employed on their return.

Proposed by the Sagar Sub-Division Officer that a Local Fund Circle for the Sub-Division may be formed with its Head-quarters at Sagar.

The Executive Engineer seconded the proposition.

The Board thinks that it is very convenient that the Meetings of the Members residing in the Sub-Division should be held at its Head-quarters to consider the requirements of the three Taluks comprised thereof. There is now only a single Non-Official Member on the Board, who resides within the Sub-Division. A few more Non-Official Members will have to be appointed and the necessary point settled before a separate circle is formed, especially the allotment of Funds, with due consideration of the requirements not only of the three Taluks in the Sub-Division, but also of the other five Taluks in the District comprising both Maidan and Malnad.

The question has to be fully considered, if the Government are pleased to decide that a separate circle for the Sub-Division should be formed.

MYSORE STATE LIFE INSURANCE.

Circular No. 13, *dated* 17*th February* 1893.

Instances having come under notice of premiums due on Policies not being paid regularly month by month by insured officials direct or by deduction from their pay by Heads of Departments, and as it is apprehended that this irregularity is the result of the rules on the subject not being understood, the undersigned has the honor to invite the attention of Heads of Departments and Treasury Officers to Clause 24 of the Mysore State Life Insurance Rules, which distinctly requires premiums to be paid in advance. By advance is meant the month in which the premium is credited in the Treasury accounts. For example, the 1st premium paid during, say, the month of October is for October; the 2nd premium payable from October's pay is for November and so on.

In several instances, the 1st premium was paid during a month, the second premium payable from the same month's salary was withheld on the presumption apparently that the 1st premium having been paid during the month, no premium is recoverable from pay for that month paid in the following month. This is not intended by the rules and should be guarded against in future.

The Heads of Departments and the Treasury Officers are therefore particularly requested to see that in future due attention is paid to the rules referred to above and that all premiums are recovered strictly in advance.

MYSORE STATE LIFE INSURANCE.

Circular No. 13, *dated* 17*th February* 1893.

Instances having come under notice of premiums due on Policies not being paid regularly month by month by insured officials direct or by deduction from their pay by Heads of Departments, and as it is apprehended that this irregularity is the result of the rules on the subject not being understood, the undersigned has the honor to invite the attention of Heads of Departments and Treasury Officers to Clause 24 of the Mysore State Life Insurance Rules, which distinctly requires premiums to be paid in advance. By advance is meant the month in which the premium is credited in the Treasury accounts. For example, the 1st premium paid during, say, the month of October is for October; the 2nd premium payable from October's pay is for November and so on.

In several instances, the 1st premium was paid during a month, the second premium payable from the same month's salary was withheld on the presumption apparently that the 1st premium having been paid during the month, no premium is recoverable from pay for that month paid in the following month. This is not intended by the rules and should be guarded against in future.

The Heads of Departments and the Treasury Officers are therefore particularly requested to see that in future due attention is paid to the rules referred to above and that all premiums are recovered strictly in advance.

H. EAGLES,
for *Secretary to the Insurance Committee.*

6. The accepted bidder shall, within 4 days from the date of the acceptance of the bid, execute, in favor of the Deputy Commissioner, a muchalika on a stamped paper with two tangible sureties for the due fulfilment of the contract and deliver it to the Amildar or Sheristadar as the case may be, and thereupon the Deputy Commissioner will authorize the executant of the said muchalika to enter into his contract. If the accepted bidder fails to execute and deliver the muchalika, the lease will be resold or otherwise disposed of at the defaulting bidder's risk, the deposit already made being forfeited to Government.

7. Where there are no boats or "Tokaras," they shall be provided by the lessees at all the ferries. The boats kept by the lessees shall always be of the size and quality approved by the Deputy Commissioner, Executive Engineer or Amildar.

8. Wherever boats and platforms are provided by Government, they shall be returned to Government on the termination of the lease or on being demanded by the Deputy Commissioner or other officer authorized by him on the same condition in which they were supplied to him, subject only to reasonable wear and tear. Loss or damage arising from neglect or want of care shall be made good by the lessee. The lessee shall always be bound to keep the ferries or boats in good order and clean.

(*e*) The Deputy Commissioner is, at any time and for any length of time, at liberty to attach the ferry boats for the conveyance of troops, camp equipage and followers, and the contractors and their servants will be bound to give all reasonable assistance to ensure their speedy and safe carriage.

10. The balance of the contract amount shall be paid by the lessee to Government in nine monthly instalments commencing from July 1893, the deposit being credited to the last 3 "Khists." All payments shall be made in the Taluk Treasuries in which the ferry lies.

11. At each ferry, a board showing the rates and the weight to be carried should be put up in a conspicuous place by the lessee at all times when the ferry is worked, excepting those places where provision is made by the Deputy Commissioner.

The exclusive right of transporting passengers, goods, vehicles, animals, &c., and of collecting tolls at the ferries specified in the annexed list will be put up to auction on the dates specified therein by the Amildars or Sheristadars of each Taluk, subject to the confirmation of the Deputy Commissioner.

2. The auction will begin at 12 noon on the days fixed and will, if necessary, be continued on the following days.

3. The ferries will be leased out for twelve months from 1st July 1893 to 30th June 1894.

4. The monopoly covers only so much of the river as lies within 500 yards on each side of the ferry. The Deputy Commissioner forbids both the transports, within these limits of passengers, &c., as aforesaid and the collection of tolls therefor except by, or on behalf of, the lessee or other person authorized by the Deputy Commissioner.

5. The accepted bidder shall, immediately on the declaration of the acceptance of his bid, produce, before the officer conducting the sale, one-fourth of the accepted bid ; failing which, the lease will be resold at the first purchaser's risk.

6. The accepted bidder shall, within 4 days from the date of the acceptance of the bid, execute, in favor of the Deputy Commissioner, a muchalika on a stamped paper with two tangible sureties for the due fulfilment of the contract and deliver it to the Amildar or Sheristadar as the case may be, and thereupon the Deputy Commissioner will authorize the executant of the said muchalika to enter into his contract. If the accepted bidder fails to execute and deliver the muchalika, the lease will be resold or otherwise disposed of at the defaulting bidder's risk, the deposit already made being forfeited to Government.

7. Where there are no boats or "Tokaras," they shall be provided by the lessees at all the ferries. The boats kept by the lessees shall always be of the size and quality approved by the Deputy Commissioner, Executive Engineer or Amildar.

8. Wherever boats and platforms are provided by Government, they shall be returned to Government on the termination of the lease or on being demanded by the Deputy Commissioner or other officer authorized by him on the same condition in which they were supplied to him, subject only to reasonable wear and tear. Loss or damage arising from neglect or want of care shall be made good by the lessee. The lessee shall always be bound to keep the ferries or boats in good order and clean.

9. The lessee shall be entitled to collect tolls at the rates specified in the list hereto annexed, and no fee or toll shall be demanded in the cases enumerated below :—

(*a*) Government mails, stores and remittances and all persons, animals and vehicles employed in carrying the same.

(*b*) All Government, officials including troops, travelling on duty and also in the case of Police officers, prisoners and property in their custody.

(*c*) All parties employed by Government servants to carry official reports, when so carrying such reports.

(*d*) Children under 12 years of age.

(*e*) The Deputy Commissioner is, at any time and for any length of time, at liberty to attach the ferry boats for the conveyance of troops, camp equipage and followers, and the contractors and their servants will be bound to give all reasonable assistance to ensure their speedy and safe carriage.

10. The balance of the contract amount shall be paid by the lessee to Government in nine monthly instalments commencing from July 1893, the deposit being credited to the last 3 "Khists." All payments shall be made in the Taluk Treasuries in which the ferry lies.

11. At each ferry, a board showing the rates and the weight to be carried should be put up in a conspicuous place by the lessee at all times when the ferry is worked, excepting those places where provision is made by the Deputy Commissioner.

12. The Deputy Commissioner reserves to himself the power of accepting or rejecting any bid without assigning any reasons therefor.

13. The contractor shall have a sufficient number of boats in readiness at either side of the ferry and shall take care that mails, travellers, passengers, animals, carriages, &c., are not unnecessarily delayed whether by day or night, but are ferried over with expedition.

14. Every passenger crossing a ferry is allowed to carry with him his luggage not exceeding in weight an Indian maund without any additional fee for the same. Any quantity in excess of the above will be liable to an additional fee of one anna for each Indian maund or less.

I. Read the Budget estimates of Receipts of District Funds for the year 1893-94.

The estimate for 1893-94, under one anna cess on Land Revenue, has been calculated with reference to the Jamabandi for 1891-92 and the details of assets upon which the cess is calculated are given in the enclosure A.

The estimates under 'Sale of stray cattle' and "Fines for cattle trespass" have been based upon the average of the actuals for the last 3 years as the actuals for 1891-92 was comparatively low, owing to the loss of cattle for want of fodder.

The amounts entered under other heads are based upon the actuals of 1891-92.

The amount of Rs. 450 entered under the head "Contribution" is expected to be realized from the raiyats for whose convenience the well works as shown in the Enclosures B and C, are proposed to be executed in 1893-94 in the Chitaldroog Taluk.

Thus the total estimated Receipts for the year 1893-94, under all heads, amount to Rs. 37,215 against Rs. 38,116 estimated for 1892-93.

The Board resolve that the estimate for 1893-94 be passed. The balance that may stand at the credit of the Board on the 1st July 1893 is estimated at Rs. 38,191 as shown in the margin. Thus the total amount available for expenditure during 1893-94 is Rs. 75,406.

II. Read para 14 of Government Proceedings No. 11,470-4—L. 1063, dated 20th January 1892, stating that the request for the transfer of Chitaldroog-Benkipur Road from District Funds to Provincial Funds will be considered in the Public Works Department.

Resolved that as no final orders have as yet been passed on the subject, the request be renewed. Rs. 120 per mile is granted for this road, but owing to heavy traffic, the road cannot be kept in good order without an additional allotment for metalling the same and for increasing its breadth especially wherever there are embankments. This extra expenditure cannot be borne by the District Funds without interfering with other necessary works. If however the transfer cannot be sanctioned, the mileage allotment be raised from Rs. 120 to 140 from District Funds, as it is very desirable to keep the road in a better order.

III. Read the Budget estimates of Expenditure proposed by the Executive Engineer on account of Public Works to be executed in 1893-94.

Resolved that the same be approved with the following additions :—

(*a*) That a provision of Rs. 2,500 be made for the improvement of Challakere-Pavagada, road. and of Rs. 1,500 for opening out Bidarkere-Bharmasagar road. Some work was done to the former last year by the Revenue Department (as Relief Work), and its completion is urgently called for. The latter is a Railway feeder and was sanctioned last year to

(*b*) That the mileage allotments for the marginally noted roads be raised from Rs. 30 to 50 in order to maintain them in a better condition, which is highly necessary.

Davangere ...Hadadi Road.
Harihar ...Harapanahalli Road.
Tarikere ...Hosdurga Road.

IV. Read the list of works proposed by the several Amildars to be carried out in the Revenue Department in 1893-94.

Resolved that a provision of Rs. 5,000 be made for the works described in the Enclosures B and C of the Budget.

V. Read estimate of Civil Charges debitable to District Funds for 1893-94.

The estimate is put down at Rs. 6,559 against Rs. 6,693 sanctioned for 1892-93.

A provision of Rs. 180 has been made for the pay of an additional Statistical Clerk to be newly entertained. There is but one Clerk now both for Municipal and Statistical works, whereas in other Districts these works are done not only by two different Clerks, but an additional Statistical Clerk has been sanctioned though tentatively. The works in these Departments have of late increased to such an extent that it has been found impossible to cope with the same with the existing establishment. The Deputy Commissioner's office itself requires strengthening.

The provision under medical scholarship for 1893-94 has been reduced to Rs. 521 from Rs. 611 in accordance with Government Proceedings No. 5832-43—149 of the 24th December 1887.

The provision for travelling allowance to Hospital Assistants in charge of Local Fund Dispensaries has been omitted for 1893-94, in accordance with Government Proceedings No. 8189-93—202-92, dated 13th December 1892, as the same is to be debited to Provincial Funds.

The provision for house rent for the Dispensary at Holalkere for 1893-94 has been omitted as a new Dispensary building has been constructed.

Considering the prespects of the season in this District at present, and the loss of cattle in the previous year for want of fodder, Government bulls for breeding purposes are not likely to be required during 1893-94. Hence no amount is entered under this head.

The other items call for no special remark.

Resolved that the Budget estimates of Civil Charges amounting to Rs. 6,559 be passed.

VI. The total amount of Receipts and Expenditure for the year 1893-94 as passed by the Board stand as follows :—

	Rs.	As.	P.
Receipts	37,215	0	0
Expenditure by Public Works Department.			
Original works	16,000		
Repairs	14,320		
Establishment	5,610		
Tools and Plant	200		
Reserve for minor works	2,680		
	38,810		
Expenditure by Revenue Officers.			
Original works	3,500		
Repairs	1,150		
Reserve	350		
	5,000		
Civil Charges	6,559		
Total	50,369		
Excess	13,154		

Resolved that the excess amount of Rs. 13,154 over the estimated Receipts for 1893-94 be met from the balance of funds at the credit of the Board. The works provided for are of an urgent nature and cannot be conveniently postponed. If the expenditure is to be confined to the annual income, it is not likely that these works could be undertaken in the near future.

Offg. Dy. Commissioner and President.

The reserve be reduced from Rs. 10,855 to Rs. 5,535.

(4) *Public Works Establishment.*—Rs. 10,000 to be provided. The proportion of the cost of Establishment to the expenditure on works is very high.

(7) *Watchers for Travellers' Bungalows, &c.*—Except the Kankanhalli Bungalow and the Nelamangala Soldiers' shed, all Bungalows, in the District are maintained from the Provincial Funds. (8) *Local Fund Dispensaries.*—Same as current year, except under furniture, for which Dr. McGann's figures should be adopted.

Rs. 250 being a moiety of the price of five bulls to be sold to raiyats, and Rs. 360 being the charge of maintenance of the 3 bulls supplied to the Board to be provided in the next year's Budget. Annas 4 for a covering may be charged, and Rs. 100 may be taken credit for in the next year's Budget. The Board considers this charge too heavy for the Board to bear and not quite a legitimate charge on the Funds.

III. Read.—Executive Engineer's docket No. 5227—1573 of 8th November 1892, forwarding an estimate for completing the Kankanhalli-Kodihalli road. It would be difficult to find funds next year to complete this work. Therefore the Board sanctions the re-appropriation of Rs. 2,500 this year as proposed, and raises the maintenance grant from Rs. 360 to Rs. 900 next year, and thereafter to enable the Public Works Department to complete the work gradually.

IV. Read.—Carrespondence regarding the stone parapet on the Bidarkuppe Tank bund :—

Estimated Receipts.

I. The usual Budget Estimates for the year 1893-94 from District Funds were placed before the Board duly prepared in the revised forms were passed. The estimated receipts being less than the actuals of 1891-92, it was explained to the Board that the actuals of 1891-92 show the collections of 15 months, but the estimate is formed on figures for 12 months

Civil Charges.

II. The Budget Estimate of civil charges was placed before the Board and were passed as modified by the Resolutions Nos. VII, VIII, IX, XII, XIII, XV, XVI.

Public Works Budget.

III. The Budget Estimate of Public Works prepared by the Executive Engineer together with the Talukwar Expenditure statement for 1891-92 in form E were placed before the Board and passed with the modifications resolved in Nos. 1 to 7.

I. Original Works, Addahalla Bridge.

(1.) Read correspondence ending with Chief Secretary's No. 95-11—L. F. 282-92, dated 28th ultimo, on the subject of the grant required for constructing a bridge across Addahalla stream on Bislé Ghat road stating that it is not possible to allot funds from District Funds for such large work as the one under reference and observing that no allotment can be made on account of the bridge from Local Fund General which is specially reserved for drinking water wells, &c., and that the estimated balance in favor of District Funds at the end of June 1893, is only Rs. 39,363 as shown and this will be reduced by Rs. 20,261, if the application made for incomplete works of 1891-92 should be sanctioned.

Resolved after discussion that the condition of the ordinary District Funds does not admit the meeting of any such extraordinary charges—that even the balance available under the District Fund General is not large enough to permit any such contributions being made out of it. Considering the numerous demands of a purely local nature that have to be made upon it and that for the sole reason that the funds at the disposal of the Board are too meagre to meet this requisition. Government be requested to have the work executed from the Provincial Public Works provisions. The Board desired further to record their opinion that the work is a very essential and important one and would further promote the trade between the Province and the western Collectorates of the Madras Presidency and that therefore Government may be pleased to pass early orders for its execution.

Mallipatna-Chengadhalli Road.

(2.) After discussing the necessity of opening out this road and concurring with the opinion of the Executive Engineer, the Board resolved that before making any provision in the Budget, the Coorg authorities may be communicated with whether they would co-operate and make the road in their Territories for a distance of about 4 miles.

Tunnels on Arkalgud, Gubbi and Bagur-Channarayputna Roads.

(3.) As regards works Nos. 9 and 10 proposed by the Executive Engineer and included in the list of original works, the President explained to the Board that the construction of tunnels on these roads was approved of by Government and funds allotted from the Local Funds General, *vide* Government Proceedings No. 935-7—L. F. 63-92, dated 20th July last. The Board resolved that these may be struck off the Public Works Budget.

Annual Repairs of Roads.—The Saklespur-Aréhalli Road.

(4.) In the matter of provision of Rs. 100 per mile made for the road from Saklespur to Aréhalli the Board resolved to sanction this provision, in as much as the road which was formed in the famine year has now become a very important and necessary means of communication, consequent on the extension of coffee cultivation and that the road in its present condition cannot bear the traffic that now moves upon it and that therefore its improvement and maintenance is an urgent matter.

The extension of Saklespur-Aréhalli Road.

(5.) Proposed by Messrs. Chaudaiya, Amildar, and Tammaiya, Member, that the road from Saklespur to Aréhalli should be extended as far as Kagodo to join with the Gonibido road. The Executive Engineer explained to the Board that the trace beyond Aréhalli to a point in the Gonibido road having not yet been determined, as there are 2 or 3 tracks, it was resolved that the matter of extension may be considered next year.

Railway Station Road, Banavar.

(6.) Read docket No. 945, dated 5th ultimo, from the Executive Engineer, requesting approval for maintaining the branch road from the Banavar-Belur road leading to Banavar Railway Station at an allotment of Rs. 50.

Resolved that the same may be included in the list of roads undergoing annual repairs.

Increase of allotment for Section of Hassan-Arsikere Road.

(7.) The President explained to the Board the necessity of raising the mileage allotment for the first ten miles of the Hassan-Tiptur road as far as Dudda, since there is much traffic on the road and that the present allotment is insufficient to meet the requirements.

Resolved with the concurrence of the Executive Engineer that the allotment of the road as far as Dudda, a distance of 10 miles be accordingly raised from Rs. 80 to Rs. 100 per mile.

Hanlaul-Devavrinda Road.

IV. Read Government Proceedings No. 5125-6—L. 634, dated 21st June 1892, on the subject of opening a road from Hanbaul to Devavrinda.

Resolved that as the fund at the disposal of the Board is very limited, the matter may be postponed for the present.

Road side.—Parapat on the Channapatna Tank Bund.

V. Read memo No. 1472, dated 26th September last, from the Executive Engineer, forwarding an estimate amounting to Rs. 1,567 for constructing parapet walls over the Channapatna tank bund leading to Holé-Narsipur, in accordance with the instructions of the Chief Engineer conveyed in the inspection note.

Resolved that there being no funds at the credit of the Board to meet this charge at present, the Government be asked to allot funds out of Local Funds General as the work is a very desirable one.

Necessity for additional Dispensaries.

VI. Read reports of the Amildars persuant to circular orders issued on the question of establishing additional Dispensaries in places required, with reference to the proposal of the Executive Engineer Mr. Nagavkar.

The marginally noted villages being populous ones and situated in sickly tracts and somewhat distant from the Taluk Dispensaries were selected as places where Dispensaries are necessary in the District (*viz.*, in Aréhalli of Belur Taluk and Konanur of Arkalgud Taluk) and that necessary application be made to Government in the matter.

	No. of Population.
Kananur	2568.
Arehalli	872.

Taking over of Rangacharlu's Memorial Chattram.

VII. Read Government Proceedings No. 4798-800—L. 581 of the 13th June 1892 on the subject of establishment required for the Rangacharlu's Memorial Chattram at Arsikere being added on to the list of Musafarkhanau.

Proposed by Mr. Madhava Rao, Amildar, that a sweeper and a watcher are necessary.

After some discussion the Board resolved to take over the building and further resolved that for a place like Arsikere, a Brahmin servant being also necessary provision may be made in the Civil charges Budget for a Brahmin servant on Rs. 7 in addition to a Sudra servant and Toti on Rs. 7 and 3 respectively.

Care taking of Dudda Musafarkhana.

VIII. A Musafarkhana and an Inspection Lodge at Dudda having already been built, a watcher was found necessary to look after the buildings and that in the current, one was appointed on Rs. 5 per month debiting half of his pay to the Public Works Department as proposed by the Executive Engineer.

Resolved that a provision of Rs. 60 at the rate of Rs. 5 per month for a watcher be made in the Budget as the moiety is paid from the same fund under two heads.

Care taking of Arsikere Musafarkhana.

IX. The Executive Engineer informed the Board that the new Musafarkhana near the Railway Station at Arsikere having been completed, a watcher or a sweeper may be appointed.

Proposed by Mr. Madhava Rao, Amildar, that both a watcher and a sweeper are very necessary.

Resolved that only a watcher on Rs. 7 may be appointed who should also keep the building cleanly swept, &c., and accordingly a provision of Rs. 84 be made.

Additional Hospital Assistant for Saklespur Dispensary.

X. Proposed by Mr. Srikantaiya, Member, that an additional Hospital Assistant is necessary for Saklespur Dispensary as only one Hospital Assistant at present cannot attend both the patients and the Coffee Planters who often require medical aid and call away the Hospital Assistant to their Estates.

The Assistant Surgeon informed the Board that an Additional Hospital Assistant is not necessary if a trained Compounder is appointed in lieu of the present one, who could attend in all ordinary matters.

Resolved that a qualified and trained Compounder may be appointed as soon as possible.

Conservancy of Shandy Bazaars.

XI. Mr. Krishnappa, Amildar of Arkalgud Taluk, proposed that for removing the sweepings of Shandy Bazaars some provision is necessary. Mr. Panchanatha Rao, General Assistant Commissioner, informed the Board that no charges need be incurred by Government and that one or two Raiyats may be allowed to remove and take away the sweepings for manure as is done in Halli Mysore of the Holé-Narsipur Taluk.

Resolved after discussion that where it can be arranged the right of taking away the sweepings for manure be sold, and where this arrangement cannot be made that a trial be given to the suggestion of Mr. Krishnappa, Amildar, and that the principal market places be swept by paid labour and such collection of rubbish be sold outright and that the cost of such labour debited against the provision made under "Sanitary and conservancy charges."

Scholarships for Midwives.

XII. Read Government Proceedings No. 7505-7—L. F. 255-92, dated 1st ultimo, sanctioning additional scholarships for 4 women to undergo training for midwives to Shimoga District at a cost of Rs. 480. Read also Government Proceedings No. 2256-9—L. 328, dated 9th May, 1892, sanctioning 4 scholarships of like nature in the current year's Budget for this District.

Resolved that a provision of Rs. 240 be made in the Budget for 1893-94 for two more women to undergo training for the purpose so as to make 6 midwives for this District at the rate of one for each Taluk.

Supply of Breeding Bulls.

XIII. The President informed the Board that in accordance with the instructions contained in Government Proceedings No. 6999-7008—Cir. 723, dated 16th September 1891, 3 Amrut Mahal Bulls have been now received in the District and that another is expected shortly as intimated by the officer in charge of Amrut Mahal Department.

After discussion of the matter, the Board resolved that the Government be requested to order a supply of three more bulls which will make it 7 in all at the rate of one for each Taluk and Sub-Taluk

excepting the Manjarabad Taluk where it is not wanted being Malnad and accordingly a provision of Rs. 450 be made in addition to a sum of Rs. 384 to be made to meet the feeding charges of those already received, on the understanding that the average cost of maintaining each Bull would be about Rs. 8 per month.

Special Improvement in Cart Tracks.

XIV. Adverting to Government Proceedings No. 935-7—L. F. 93-92, dated 20th July last, sanctioning construction of some tunnels across certain village roads, the Board resolved to provide a lump sum of Rs. 2,000 for Special Improvement works of such tracks of which there are 7 in this District.

Rural Sanitation.

XV. Read para 3 of Government Proceedings No. 7259-66—L. 576, dated 25th September last, remarking that very little provision is made in the District Fund Budgets for conservancy and sanitation of rural parts and that such other charges as would tend to increase the health and comfort of people fall within the scope of District Funds.

The Amildars having misunderstood the object of the provision of Rs. 500 sanctioned in the current year's Budget to each of Taluks for the purpose, the President after explaining to them the above and defining the works falling under the head, desired the Amildars to arrange to spend the sum allotted in the current year's Budget.

The Board resolved that for 1893-94 a similar provision of Rs. 4,000 be made in the Budget of civil charges.

Provision for construction and repair of Cattle Pounds.

XVI. The President informed the Board that the provision of Rs. 800 for repairs of cattle pounds at the rate of Rs. 100 for each Taluk sanctioned in the current year's Budget, is not sufficient as there are numerous Buildings.

The Amildars of the Taluks represented to the Board that there are many pounds requiring urgent attention in the Taluks.

After some discussion in consideration of the Receipts from this source credited under District Funds, the Board resolved to allot a lump sum of Rs. 2,000 for the purpose for the District and desired the President to appropriate the sum in accordance with the requirements of Pounds in each Taluk.

Necessity for more Musafarkhanas.

XVII. Proposed by Messrs. Panchanatha Rao, General Assistant Commissioner, Subbarayalu Naidu, Parthasaradaiengar, Madhava Rao, Amildars, and Tammaiya, Member, that Musafarkhanas are necessary in the following places :—

(1.) Sulédévarahalli between Hassan and Belur.
(2.) Chikkanahalli between Saklespur and Belur.
(3.) Yadagaudanahalli between Bheria and Holé-Narsipur.
(4.) Kasaba Holé-Narsipur.
(5.) Nyamanahalli between Hassan and Holé-Narsipur.
(6.) Kanakatté in Arsikere Taluk.

The Board recognizing the necessity for Musafarkhanas in the above places resolved that these may be taken up when funds permit.

Bathing Ghat in Channarayapatna.

XVIII. Mr. Vasudeva Rao, Acting Amildar of Channarayapatna Taluk, proposed that a Bathing Ghat to the Channarayapatna Kasaba Tank, is very necessary.

Resolved that a lump sum of Rs. 500 be provided in the Budget under works to be undertaken by the Revenue Department.

Well in Cart stand in Channarayapatna.

XIX. Mr. Vasudeva Rao, Acting Amildar of Channarayapatna, represented to the Board that a well in the compound of the newly built Bandy-stand in Channarayapatna Kasaba is very much needed for travellers as the tank is not within easy reach for cartmen.

Resolved that a sum of Rs. 300 be provided in the Budget for the purpose under works to be undertaken by the Revenue Department.

Proposed by the Sagar Sub-Division Officer that a Local Fund Circle for the Sub-Division may be formed with its Head-quarters at Sagar.

The Executive Engineer seconded the proposition.

The Board thinks that it is very convenient that the Meetings of the Members residing in the Sub-Division should be held at its Head-quarters to consider the requirements of the three Taluks comprised thereof. There is now only a single Non-Official Member on the Board, who resides within the Sub-Division. A few more Non-Official Members will have to be appointed and the necessary point settled before a separate Circle is formed, especially the allotment of funds, with due consideration of the requirements not of the three Taluks in the Sub-Division, but also of the other five Taluks in the District comprising both Maidan and Malnad.

The question has to be fully considered if the Government are pleased to decide that a separate Circle for the Sub-Division should be formed.

Dy. Commissioner & President, L. F. Board.

With the sanction of the Government conveyed in Government Proceedings No. 16491—J. 917, dated 22nd March 1893, the Inspector General of Registration has the honor to state that the prohibition contained in the marginally noted Circulars, regarding the registration of documents evidencing alienations by sale, mortgage or otherwise of *Inam lands* is not strictly legal, and that it is hereby withdrawn.

No. 25—4, dated 29th June 1870.
No. 2, dated 2nd May 1885.
No. 8, dated 4th September 1886.

2. As the registration of a document is simply an evidence of its execution and does not and cannot confer any right which the document itself cannot convey, it appears to the undersigned that a Registering Officer cannot well refuse to register a document presented to him except for reasons mentioned in the Registration Act itself.

3. As it is however desirable that a record should remain with the Executive Revenue Officers of all unauthorized alienations, copies of such of the documents presented for registration as are opposed to the instructions conveyed in the above mentioned Circulars, should be forwarded to the Deputy Commissioner of the District to which the Registering Officer belongs.

The Amildar of Hunsur remarked that the covering slabs of drains on the Periyapatna-Bettadapur road did not fit in properly and that they should be repaired, and that the road-way near the parapets of the bridge at Hunsur required some petty repair. Mr. Karve observed that the tunnels were constructed of rough slabs long ago, and that separate estimates will have to be made for building them again pakka, as the ground is scoured and the walls of rough stones do not stand firm. He also said that the road near the bridge at Hunsur would be attended to.

2. Read statement of progress of well works.

Recorded after discusssion, *vide* *statement annexed marked B.

* Will follow.

3. Read docket No. 409 of the 23rd January 1893, from the Senior Surgeon about provision being made for new dispensaries and wards for in-patients.

Resolved that recommendation be made for accommodation being provided as hereunder, for dispensaries from the Provincial Funds :—

The dispensaries at Chamrajnagar and Heggaddevankoto are not in need of any additions or alterations, as there is sufficient accommodation for in-door patients.

4. Read docket No. 14662—268-92 of the 4th March 1893 from the Chief Secretary to the Dewan of Mysore, about the establishment of a Local Fund Dispensary at Saragur in the Heggaddevankote Taluk.

The Board agreed to bear the full cost of the proposed Dispensary, provided the people of Saragur and Nemanahalli Hoblis put up a dispensary building at their own cost.

8. The excuse offered by Ramachandra Rao, Amildar of Tirumakudlu-Narsipur Taluk, is not quite satisfactory. Dr. Benson and Jodidar Srirangachar have given no reasons for their absence, while the Hunsur Amildar explained that Narasimha Upadhya was prevented from illness from attending the Board. Mr. Wahab Khan Durrani, Mr. Rajumudaliar and Mr. Paradesigauda having absented themselves for three meetings successively, the committee resolved that their names should be struck off the list and others should be elected as per Government Proceedings No. 2930-9—L. 402, dated 20th May 1829. Accordingly orders have been issued to the Amildars of the Taluks of the Sub-Division to propose the names of new members in their stead.

2. Read the Budget Estimates of Receipts and Expenditure of District Funds for 1893-94 and also the Budget Estimates of the previous year.

ESTIMATED RECEIPTS.

I.—One anna cess on Land Revenue (Statement A.)

3. The actual receipts of 1891-92, consisting of the arrears of previous year after deducting 24 per cent set apart for education is Rs. 36,792—2—8, and the estimated receipts of 1892-93 is Rs. 38,652 and of 1893-94 is Rs. 38,963. Comparing the estimates of 1893-94 with the actuals of 1891-92, it will be seen that there is a small increase of Rs. 170—13—4, and with the estimate of 1892-93, the increase is Rs. 308. This small increase does not call for any special explanation.

II.—Sale of stray cattle and fines for cattle trespass and feeding charges of impounded cattle.

4. Actual receipts under the items of sale and fine for the year 1891-92 are Rs. 1,662—7—2 and the estimate for 1892-93 is Rs. 1,606 and for 1893-94 is Rs. 1,606. Comparing the estimate of 1893-94 with the actuals of 1891-92, it will be observed that there is a decrease of Rs. 56—7—2 and it is equal to the estimate of 1892-93.

Fees collected on account of feeding charges of impounded cattle were not included in the Budget estimate in the previous years, but under the Government Proceedings No. 14603-11—L. 1059, dated 17th March 1892, they have been included in the Budget for 1893-94, the amount being Rs. 138.

III.—Ferry Collection.

5. The actual receipts of 1891-92 is Rs. 206—15—0 and the estimate of 1892-93 is Rs. 254, and of 1893-94 is Rs. 210. Comparing the estimate of 1893-94 with the actuals of 1891-92, there is a very small increase of Rs. 3—1—0.

IV.—Fees from the 3rd Class Travellers' Bungalows.

6. Rs. 10 have been collected during the year 1891-92 and the estimate of 1892-93 is Rs. 10 and of 1893-94 is the same.

7. The total estimate of receipts under all heads for the year 1893-94 are Rs. 40,931 and the opening balance on 1st July 1893 at the credit of the Board is Rs. 24,152—10—3¾. The total amount at the disposal of the Board for 1893-94 is Rs. 65,083—10—3¾.

PROPOSED EXPENDITURE.

Public Works (Statements B and C.)

8. The committee resolved that Rs. 47,500 should be spent on Public Works; of this sum Rs. 2,800 should be spent by Revenue authorities in sinking new wells and in repairing the Musafarkhana at Honakere, Nagamangala Taluk, and in improving the well near the said Musafarkhana.

9. The Executive Engineer of the French Rocks Division, in placing for the approval of the committee an estimate amounting to Rs. 51,450, recommended that the rates for repairing the Mandya-Bannur road and Seringapatam, Sosile-Sivasamudram road should be raised from Rs. 50 to 60 per mile and of Mysore-Mahadevapura road from Rs. 40 to 60, as they are in a very bad condition and require special repairs in most parts. The committee agreed to do so and raised the estimate to Rs. 55,831 and passed it.

Civil charges (*Statement D.*)

10. The estimate sanctioned under this head for 1892-93 is Rs. 7,903 and the proposed estimate for 1893-94 is Rs. 8,879. The increase is Rs. 1,786. The charges under several items of this head have been altered, some remain as before, and while others have been added as shown below :—

(1). Amount sanctioned under the item of Hospital and Dispansaries for 1892-93 is Rs. 2,559, but the proposed estimate for 1893-94 is Rs. 3,312. It will be seen that there is an increase of Rs. 753, as the Municipalities of Mandya, Nagamangala and French Rocks being too poor to bear the usual charge of one-third of the cost of the Dispensaries of these places, the whole cost is to be defrayed from District Funds as per Government Proceedings No. 12014—L. F. 1171, dated 24th January 1892, and the entire cost of maintaining the Dispensary at Maddur also to be defrayed from District Funds.

(2). The estimate sanctioned under the item Sweeper's pay for the Third Class Travellers' Bungalows, Musafarkhanas, &c., for the year 1892-93 is Rs. 468, and the proposed estimate for 1893-94 is Rs. 348. The decrease is Rs. 120. The Travellers' Bungalow at French Rocks being set apart as for the Sub-Division Officer's quarters, the pay of the sweeper Rs. 60 per annum has been struck off the Budget. The Dispensary at Maddur being proposed to be located in the old Taluk Cutcherry, there in which is also located the Police station, there is no necessity of watchman. His pay Rs. 60 is therefore strück off the Budget.

(3). Provision of Rs. 120 has been made for midwife entertained as per Deputy Commissioner's docket No. 986, dated 31st March 1892. One-half of her pay is to be debited to District Funds and the other half to Municipal Funds. The Deputy Commissioner observed in his Memo No. 322, dated 29th October 1892, that the pay of midwife is fixed at Rs. 15 and not Rs. 20. The Senior Surgeon in his docket No. 3276 of 25th October 1892 stated that the midwife was appointed on a monthly salary of Rs. 20 under the order of Government conveyed in their Proceedings No. 14115-24—Cir. 300, dated 18th March 1891. The Deputy Commissioner is addressed on the subject ; final orders has not as yet been received.

(4). Provision of Rs. 3,200 is made for conservancy and sanitation in rural parts of the Taluks of the Sub-Division. The villages and localities where such measures are necessary will be decided upon after inspection and detail estimates will follow.

(5). Provision of Rs. 1,059 is made under the item of Cattle-pounds, *i. e.*, repairs of pounds, feeding charges of impounded cattle and remuneration for pound-keepers, as laid down in Government Proceedings No. 14603-11—L. 1059, dated 17th March 1892. The gross receipts are credited to District Funds.

(6). Under the item Miscellaneous expenditure, the estimate is raised from Rs. 50 to 100, as the actual expenditure under this head for 1891-92 is Rs. 73—7—3.

(7). Other items do not call for any remarks.

11. The amount at the disposal of the Board, as stated in para 7 of this report, is Rs. 65,083—10—3¾, and the estimated expenditure under all heads amounts to Rs. 56,379. The probable balance at the end of the year 1893-94 will be Rs. 8,704—10—0¾.

REGISTRATION DEPARTMENT.

To—The Registering Officers in Mysore, Circular No. 13 *of* 1892-93, *dated, Bangalore,* 10*th May* 1893.

With the sanction of the Government conveyed in Government Proceedings No. 16491—J. 917, dated 22nd March 1893, the Inspector General of Registration has the honor to state that the prohibition contained in the marginally noted Circulars regarding the registration of documents evidencing alienations by sale, mortgage or otherwise of *Inam lands* is not strictly legal, and that it is hereby withdrawn.

No. 1—15, dated 9th February 1866.
No. 21—17, dated 5th February 1870.
No. 25—4, dated 29th June 1870.
No. 2, dated 2nd May 1885.
No. 6, dated 4th September 1886.

2. As the registration of a document is simply an evidence of its execution and does not and cannot confer any right which the document itself cannot convey, it appears to the undersigned that a Registering Officer cannot well refuse to register a document presented to him except for reasons mentioned in the Registration Act itself.

3. As it is however desirable that a record should remain with the Executive Revenue Officers of all unauthorized alienations, copies of such of the documents presented for registration as are opposed to the instructions conveyed in the above mentioned Circulars, should be forwarded to the Deputy Commissioner of the District to which the Registering Officer belongs.

C. MEENACSHAIYA,
Inspector General of Registration in Mysore.

Resolution.—Mr. Subba Rao and Mr. Leonard drew attention to the large balance as shown in the monthly account current and feared it was due to neglect on the part of the Collector. The President explained going into figures that most part of the so called balance was yet to fall due and that, therefore, he could not see any sensible neglect on the part of the Collector. Mr. Venkataramaiya enquired and was informed how much could be realized under Octroi during the remaining months of the year. Returns, &c., recorded.

II. Letter No. 55, dated 10th March 1893, from the Senior Surgeon and Sanitary Commissioner, Mysore Government, as regards the increase to the present pay of the Vaccinators employed by the Municipality.

Resolution.—Elizabeth to be promoted to be the Senior Vaccinator to enable her to get Rs. 15 a month. Rajappa to be 2nd Vaccinator and to get Rs. 12, Aralappa has not one year's service and he need not get any increase.

III. President's Memo, dated 16th March 1893, regarding the removal of the present Slaughter house, on account of its close proximity to the new Taragupete and Western Extension, with two estimates.

Resolution.—The Board considers it very desirable and necessary to remove the Slaughter house and Mutton and Fish Markets to another locality and appoint a Sub-Committee composed of the President, Mr. Scaldwell and Dr. Choksi to report on it.

The estimates for Rs. 502 for such repairs as are absolutely necessary is sanctioned.

IV. Nomination of Members for the Sub-Committee for auditing the monthly accounts as per terms of the Resolution, dated 20th January last.

Resolution.—Proposed by Mr. Venkatasami Naidu that one member instead of a Sub-Committee, be appointed auditor. His ground is that it is difficult to get together a Committee. Carried. Mr. Venkatasami Naidu to be appointed for the next quarter.

V. Memo No. 16312—L. F. 38-92, dated 3rd April 1893, from the Chief Secretary to the Government of Mysore *in re* the cost of constructing the Fort main drain.

Resolution.—The work was carried out without the Board having an opportunity of being heard. If the Board had had to decide the question it would have considered its means before carrying it out. The funds at its disposal are limited and the calls on it especially as regards water-supply and roads are numerous, pressing and urgent. The Board, therefore, resolves to request the Government to relieve it from this charge or as much of it as it considers meet.

It was also resolved that the Vice-President, Mr. Cameron and Dr. Choksi be requested to form into a Sub-Committee to consider and report on the question of the main drain.

VI. Proceedings of the Government of Mysore No. 16298-301—L. F. 187-92, dated 3rd April 1893, regarding the pay and carriage allowance of the Vice-President.

Resolution.—Mr. Leonard after a lengthy speech, explanatory of the proposition, proposes that the Government be requested to increase the allowance to Rs. 100. Salary and allowance to be paid by the Municipality. Carried unanimously.

Deferred Proposition.

Two Vacancies.

I. The provision of Rs. 500 sanctioned in the District Fund Budget of this District for the current year on account of Sanitary charges, not having been utilized, the members were asked to propose works for the same. The Amildars of the several Taluks proposed to carry out the works shown in the enclosed list for the purpose of improving the sanitation of certain populous villages in the Taluks.

(*a*) Resolved that the works be passed and the cost thereof met from the said amount of Rs. 500.

(*b*) Further resolved that Government be asked to raise the provision of Rs. 1,000 made in the District Fund Budget of this District for 1893-94 (submitted with this Office No. 312—102, dated 31st January 1893) under conservancy and sanitary charges to Rs. 5,000 to be spent on works calculated to increase the health and comforts of the people in rural parts of the District. Very little has, as yet been done in this direction. Every Taluk has a few large and populous villages which are in a very insanitary condition. These should in the opinion of the Board be taken in hand and improved as early as possible. The Proceedings of Government No. 7259-66—L. 576, dated 25th September 1891, are very clear. To give effect to the object therein mentioned, a much larger grant is necessary than the very small sum of Rs. 1,000 provided in the next year's Budget, which is now before the Government. The members of the Board strongly urge the necessity of an increased grant being sanctioned.

II. Read statement showing the details of Receipts, Expenditure and Balance of District Funds of this District from July 1892 to January 1893.

	Rs.	As.	P.
Balance on 1st July 1892	45,026	0	10
Receipts under all heads	3,498	9	7
Total....	48,524	10	5
Expenditure	24,442	9	5
Balance at the end of January 1893	24,082	1	0

Resolved that the same be passed.

III. Read letter No. 148, dated 21st April 1893, from the Hospital Assistant in charge of the Local Fund Dispensary at Holalkere, requesting that a Midwife be appointed for that station, as the services of one are badly wanted there.

Resolved that until the two pupils now under instruction for this District become qualified and are appointed Midwives, the Hospital Assistant be told that he might, whenever necessary, send for the Midwife now at Davangere. Much delay and inconvenience are not likely to arise from this arrangement in asmuch as there is Railway communication between Davangere and Holalkere.

IV. Read docket No. 153, dated 14th April last, from the Executive Engineer of this Division, requesting approval to the excess outlay of Rs. 921, over the sanctioned estimate of Rs. 5,000 for constructing a bridge of one arch in ⅝ mile of Chitaldroog-Benkipur Road.

Resolved that the excess outlay referred to be sanctioned.

V. The new Musafarkhana near the Holalkere Railway Station built at a cost of over Rs. 4,000 being now ready to be handed over to the Revenue Department, resolved that provision be made in the next year's Budget for the appointment of a watchman on Rs. 4 a month. He will be both a Caretaker and Sweeper. The marginally named Musafarkhanas in the District are not properly swept and looked for, the reason being that the pay of the watchmen is so law as Rs. 2 a month. The Board are of opinion that this salary is by no means attractive and that it should at least be raised to Rs. 3. Provision for this must also be made in the Budget for 1893-94. These two items necessitate the increase of the Budget provision from Rs. 924 to Rs. 1,128.

Read the District Fund Budget sanctioned for the year 1892-93 and also the statements showing the amount spent on each work up to end of February 1893 ; progress satisfactory and recorded.

PUBLIC WORKS TO BE EXECUTED BY PUBLIC WORKS DEPARTMENT.

I.—Original Works.

The amount sanctioned under this head as per Government Proceedings No. 5331-52—853-74, dated 9th December 1892, is Rs. 16,500 ; of this, Rs. 7,209—14—11 was spent up to end of February 1893 on works already sanctioned. With regard to opening out Krishnarajpete-Beriya road passed in the former meeting mentioned in the statement, the Executive Engineer explains that the project of opening out the road was not sanctioned by the Chief Engineer and that the allotment therefor may be appropriated for extending Mandya-Melkote road and for putting in perfect order the portion of the road already in existence. The Committee passed the proposal.

The Executive Engineer also requested the Committee to select some important works that may be executed out of Rs. 1,000 sanctioned for Miscellaneous Public Improvements. The Amildar of Mandya proposed that a well 10 feet in diameter with pulleys may be sunk at Mandya or at a suitable spot near the Taluk Cutcherry. The Committee passed the proposal, the cost being met from the District Funds as there was no money in the Municipality.

The Civil Surgeon having explained to the Committee the benefits of a pump used for drawing water from wells instead of pulleys, the President proposed that a pump may be sanctioned to the soda water, well which is the only good drinking water at French Rocks, but is now being corrupted by letting into it all sorts of ropes and pots. The Executive Engineer seconded the proposal and the Committee resolved that the Executive Engineer may be requested to purchase a pump at a moderate cost and fit it to the well.

Mr. Sitaramaiya of Malvalli proposed that a road from Malvalli to Muttanahalli *vid* Marehalli tank bund may be opened and joined to Seringapatam, Sosile-Sivasamudram road as the distance is only 8 miles and it would facilitate traffic. The Amildar of Malvalli seconded the proposal. The Committee resolved that the subject may be taken up and disposed of at the next Budget meeting.

II.—Repairs.

Under this head Rs. 24,000 was sanctioned. The amount spent up to end of February 1893 is Rs. 15,625—4—11 and the progress of works is satisfactory.

The Amildar of Mandya proposed that the pond (Gajendra Kola) which is beyond the Municipal limits at Maddur may be improved by clearing the silt, as it was very useful to travellers as well as to inhabitants of the place during the hot weather.

The Amildar of Nagamangala proposed the same regarding the well near Subedar's Chattram as it is very useful for drinking water not only to travellers but also to the villagers.

The President seconded these proposals and stated that the cost may be met from Reserve Grant under repairs. The Committee resolved that these repairs may be carried out by Public Works Department.

In the same manner the Executive Engineer proposed the deepening of the Panakadabhavi and fixing a pulley to it at French Rocks.

Public Works to be executed by Revenue Officers.

The amount allotted under this head as per Government Proceedings No. 11458-62—L. 1061, dated 20th January 1892, is Rs. 2,760—0—0. Of this, Rs. 706—10—3 has been sanctioned for sinking wells. The works are progressing satisfactorily.

The Sub-Division Officer proposed that a parapet wall with a pulley may be constructed to the drinking water well (General Bavadi) at French, Rocks which as it now stands level with the ground, is dangerous to the public and the cost may be met from General Savings as there was no money in the Municipality.

The Executive Engineer seconded the proposal. The Committee passed it.

The Amildar of Mandya proposed that the amount sanctioned for the improvement of the pond at Kothathi as desired by the villagers for supplying good drinking water to them may be appropriated for sinking a new drinking well. The President seconded the proposal as he considered that the villagers require the pond simply to wash their sheep in it and any money spent on it will not improve the health of the people. Therefore a new drinking well which can be dug with the same amount is far better. The Committee passed the proposal.

Mr. Sitaramaiya of Malvalli proposed that the tank of Upala over which the Seringapatam, Sosile-Sivasamudra road runs, being narrow, entails great danger when two carts meet at the same time upon it, specially as the bund is not railed. The Committee resolved that the subject be referred to the Deputy Commissioner of Mysore as the tank in question belongs to T. Narsipur Taluk.

Read the report from Rangaiengar, Non-Official Member of Krishnarajpete Taluk, proposing the following works to be undertaken.

(1) Constructing a village Chavadi and a Kasaba Chavadi both at Krishnarajpete Kasaba.
(2) Constructing a flight of steps to the Krishnarajpete Tank.
(3) Constructing a Musafarkhana near Kageballa where a great many travellers and carts halt invariably during nights.
(4) Sinking a well for drinking water at Krishnarajpete.

The resolution made by the Committee on each of the points is as follows:—

(1) The owner of the site selected for the purpose refused to give it up free and as there are no funds available the works cannot now be undertaken.
(2) There are no Municipal Funds available for the purpose and there is no urgent necessity for any such steps at present. The inhabitants can now descend into the tank easily and can resort to the channel below also. In 1891-92 when the similar recommendation was made it was rejected by the Government on the ground that the Municipality should bear cost.
(3) There is no use in constructing a small Kasaba building here which will soon be destroyed. A good mantapam vasare is what is required. This may be considered at the next Budget meeting.
(4) The estimate received from the Amildar has been submitted to the Deputy Commissioner.

Civil Charges.

The amount sanctioned under this head is Rs. 7,093, as per original estimates and as per supplemental Budget submitted for sanction is Rs. 1,654, and the total Rs. 8,747. ANNUAL EXAMINATION OF REVENUE AND JUDICIAL DEPOSIT ACCOUNTS AND DETAILED STATEMENTS NOS. 4 AND 5, LOCAL REMITTANCES.

To—The Deputy Commissioners of Districts, Treasury Department, and the Officer in charge of the Huzur Treasury, Bangalore, Circular Letter No. 6048—51, *dated* 19*th May* 1893.

With reference to standing orders, the Comptroller has the honor to request that the Deputy Commissioners will be good enough to scrutinize their revenue and judicial deposit accounts and the detailed statements of local remittances under entries Nos. 4 and 5 and take *immediate measures* for clearing them off in the accounts for June next.

(1) Deposit items not exceeding one rupee unclaimed for 12 months, (2) balances not exceeding one rupee partly repaid during the year, (3) deposits of whatever amount unclaimed for more than three complete account years ending 30th June 1893, should be credited to Government.

The sale proceeds of stray cattle kept in deposit for three months and unclaimed within that time should be transferred to credit of the "Municipal" or "District Funds" to which they belong.

Fines and all other items improperly credited to deposits or local remittances should likewise be transferred to credit of the heads to which they belong.

The District Treasury Officers aided by their Head Accountants should personally scrutinize the entries under the head Local Remittances Nos. 4 and 5, which, it is observed, contain many items belonging to revenue and other heads. They should be rectified by transfers in the District Treasury accounts and the Amildars should be instructed to correct their accounts accordingly.

Detailed statements of all items transferred under these instructions should be appended to the Treasury accounts for June 1893, which should contain the corresponding credits.

ANNUAL GOVERNMENT SAVINGS' BANK ACCOUNTS.

To—The Deputy Commissioners, Treasury Department, Circular Letter No. 6094—52, *dated* 25*th May* 1893.

The Comptroller has the honor to request that Deputy Commissioners will instruct their Treasury Officers to furnish to this office by the 20th August, the "Dead Accounts" and the Annual Return of Savings' Bank transactions for the year 1892-93, as laid down in Chapter 19, Rules 46, 47 and 51 of the Civil Account Code. Care should be taken to note the occupation of each depositor, and that no transfers are made of accounts from the District or Taluk to another during the latter half of June 1891, *vide* Chapter 19, Rule 56, of the Civil Account Code, 3rd Edition. It is further requested that in the case of accounts which are transferred during 1892-93, the month and the treasury from and to which the account was transferred might be noted in the column of remarks.

E. R. SUBRAYAR,
Comptroller.

REGISTRATION DEPARTMENT.

To—The Registering Officers in Mysore, Circular No. 13 *of* 1892-93, *dated, Bangalore,* 10*th May* 1893.

With the sanction of the Government conveyed in Government Proceedings No. 16491—J. 917, dated 22nd March 1893, the Inspector General of Registration has the honor to state that the prohibition contained in the marginally noted Circulars regarding the registration of documents evidencing alienations by sale, mortgage or otherwise of *Inam lands* is not strictly legal, and that it is hereby withdrawn.

No. 1—15, dated 9th February 1866.
No. 21—17, dated 5th February 1870.
No. 25—4, dated 29th June 1870.
No. 2, dated 2nd May 1885.
No. 8, dated 4th September 1886.

2. As the registration of a document is simply an evidence of its execution and does not and cannot confer any right which the document itself cannot convey, it appears to the undersigned that a Registering Officer cannot well refuse to register a document presented to him except for reasons mentioned in the Registration Act itself.

3. As it is however desirable that a record should remain with the Executive Revenue Officers of all unauthorized alienations, copies of such of the documents presented for registration as are opposed to the instructions conveyed in the above mentioned Circulars, should be forwarded to the Deputy Commissioner of the District to which the Registering Officer belongs.

I. Resolved that the next meeting of the Board be convened about the end of July to check the expenditure of the year and that no meeting is necessary in May.

II. Read Executive Engineer's docket No. 291, dated 20th instant submitting a Lumpsum Estimate for Rs. 1,800 for countersignature, on account of making a road from Chikka Bikkode to Arehalli.

Mr. Tammaiya informed the Board that the road beyond Arehalli to a point in the Gonibid road should also be made along with the above, as much difficulty is, at present, experienced by the people for want of the same.

The Board considers that this is a very important local trade route and should be made and maintained as a part of the road which is now maintained from Arehalli to Saklespur. The estimate should be sanctioned from the grant under "Reserve" provided in the next year's Budget. The Board further resolved that the section of this road from Arehalli to a point in the Gonibid-Belur road should also be traced and made at an early opportunity as this tract of the country is quite unopened and the necessity of a thoroughfare is very much felt by the coffee cultivators.

III. Statements showing the Civil Charges as well as the outlay on Public Works debitable to District Funds were read to the Board and approved for the three quarters ending with March 1893. The total expenditure was Rs. 44,518—1—0 as detailed in the margin.

IV. Read docket No. 38, dated 9th instant from the Chemical Examiner, Mysore, in reply to the Deputy Commissioner's docket No. 1454 of the 1st idem. The President explained to the Board that the Residents of Javagal village in Arsikere Taluk have been experiencing difficulties for want of good drinking water and that their unhealthiness was due to the water of a well in the station being unsuited for drinking purposes and that the water-supply had to be improved.

Resolved that the well be conserved and deepened a little more and the water again subjected to examination before resolving upon another well or reservoir being undertaken.

V. The President explained to the Board that it was desirable to consider and determine how the sum of five hundred rupees sanctioned for each Taluk for conservancy and sanitation of rural parts should be utilized.

Resolved that the five hundred rupees sanctioned for village sanitation be by preference used to regulate the surface, drainage and after that to fill up stagnant pools of dirty water in selected villages of large population.

VI. Mr. Bhimanna on behalf of the residents of the Hassan Town informed the Board that the Bathing ghat now sanctioned to be constructed out of Local Funds General in Government Proceedings No. 7580-1—L. F. 63-92, dated 2nd December 1892 to the Channapatna Tank to a length of 150 feet be divided into two separate ones one for males and the other for females apart from each other.

Resolved that two ghats be built for males and females separately instead of only one now sanctioned dividing the money or providing additional money as may be necessary.

VII. Read Government Proceedings No. 14247-55—L. F. 346-92, dated 23rd February last, calling for a report on the rates of mileage to be given to the non-official members of the Board for attendance at the meetings.

Messrs. Tammaiya, Srikantaiya and Bhimanna informed the Board that they are of opinion that, as the meetings are for the good of the people, no remuneration of any sort is necessary or desirable.

Mr. Nagaakar informed that the rate of 3 annas proposed appears to be low considering the status of the members in the Board and also that it is less by an anna allowed to the officials.

After discussion and consideration it was resolved that if any mileage is to be granted at all to these members the rate may be that adopted for Amildars and officers of that rank, *i. e.*, 4 annas a mile.

VIII. Read Executive Engineer's docket No. 161, dated 4th March last enclosing extract from the list of works proposed by the Representative Members at the Dasara Assembly with the remarks of the Chief Engineer on the following road :—

1. Completion of the road from Salagame to Javagal.
2. Road from Bikkode to Aréhalli and from Saklespur to Gonibid road.
3. Construction of a road from Arkalgud to Bherya.
4. Construction of a road from Konanur to Somavar-Santé.

The questions were considered and the Board opened with reference to each as follows :—

Arehalli-Bikkode road.—*Vide*, Resolution No. II above.

Salagame-Halebid road.—This road of only about 10 miles is also necessary to be made and maintained as it connects the markets of Salagame and Halebid and improves the big market of Javagal. For administrative purposes this is very much wanted. It shortens the distance between Halébid and Hassan by one half, *i. e.*, 17 or 18 against 34 miles being the shortest link between Banavar-Belur Gonibid road.

The section of this line up to Salagame, a distance of 8 miles, was made as the 1st instalment of this road and is now maintained by the Local Funds. The completion of the 2nd Section of the line to Halebid should be undertaken in 1894-95 duly providing for it.

Arkalgud-Bherya road.—This road must be treated in the same way as the Channarayapatna-Bagar road, *i. e.*, a fair weather cart track for improvement of which, tunnels, &c., may be built in difficult places.

IX. Read applications from Holé-Narsipur and Arsikere Hospital Assistants each for a well in the Dispensary compound.

Messrs. Madhava Rao and Subbarayalu Naidu, Amildars, informed the Board that the construction of wells in the compounds is very necessary and also stated that it would be useful for some of the residents of the Town.

Resolved that the necessity is not apparent.

X. Read lists of works sanctioned from the District Funds as well as those from Local Funds General and approved.

Read lists of works proposed by the several Amildars in the District as urgent ones.

(1) Mr. Chaudaiya informed the Board that the steps of the Vishnu Samudra Tank in the Belur Town require repairs in certain places.

Resolved that the repairs to the ghat being necessary and the season being timely for the execution of this work, the same may be sanctioned as an urgent work and estimate therefor duly submitted.

(2) Mr. Chaudaiya represented that the residents in the western portion of the Town experience difficulties for water—as the wells in the houses have all dried up.

Resolved that a well may be sunk at the back of the Temple.

XI. Read Mr. Middleton's letter, dated 13th February last, bringing to notice that the grant allowed to him for the repair and up-keep of the Kadamoney-Marnhalli road was with held in 1876-77 owing to the Famine and that the same may be renewed to him now as he has been maintaining the road at his own cost.

Resolved that full particulars be ascertained as to who constructed the road originally and for how many years Government maintained the same and also, at what cost—how many villages it serves and the number of population therein.

President, L. F. Board.

Includes the expenditure for April 1893.

The necessity for alteration or confirmation of the present proposed extension of the Bababudan Hill road was discussed, and it was resolved that the matter may lie over till the next meeting with a view to get more information as regards the comparative cost, difficulty and usefulness of the two roads, as also the contribution which may be expected in either case.

The comparatively small allotment worked out by the Revenue Department being brought to the notice of the members, it was explained by Amildars that best endeavours would be made to show better progress during the remaining months of the current year, and that the slow progress was

chiefly due to want of some permanent establishment to make out and submit correct estimates promptly and to supervise the works at their several stages. Some of the members stated that, in a Malnad District like this where labor is very dear, it is generally difficult to secure contractors for petty scattered works, and to entertain temporary establishments. It was also urged that the scheme according to Government Proceedings No. 14059-60—L. 1455, dated 8th March 1892, which the Taluk Méstris or Sub-Overseers are required to go twice a week to the Revenue authorities to help in the getting up of estimates for well works, &c., is not working well, as those officials being the subordinates of a different Department, have little or no regard or sympathy for the Revenue Department and when pressed they will have some excuse or other owing to dual responsibility. To meet these difficulties, it was unanimously resolved that a reference be made to Government to sanction solely for the Revenue Department a permanent professional hand of some status, who may materially help the Amildar in getting up of estimates and in supervising the works.

The following Proceedings and papers having been placed before the Board, it was resolved that the Government may be requested to provide funds for works or establishment concerned in the Budget already submitted but not yet passed.

Resolved that Rs. 750 be provided for the maintenance of 5 miles of Shimoga-Yedahalli road (at Rs. 150 per mile), transferred to this District from Shimoga District.

Correspondence ending with Executive Engineer's No. 163, dated 18th May 1893.

(*Note.*—The Executive Engineer says that the Chief Engineer will be asked to include the said amount in the Budget under preparation).

Resolved that Rs. 280 (⅔rds of the cost except furniture) be provided in the Budget for 1893-94 which is in the course of sanction and that the Municipal Department be asked to provide for Rs. 140 (⅓rd cost except furniture) in the Municipal Budget.

Government Proceedings No. 15600-10—L. F. 4-92, dated 22nd March 1893, sanctioning a Hospital for women and children in Chikmagalur.

(*Note.*—The amount entered in the Budget has to be altered according to this, as the Government Proceedings which were since received have given somewhat a different figure and as sanction has already been applied for.—*Vide* this office docket No. 592, dated 11th May 1893, for the cost of furniture, *viz.*, Rs. 192, being met from the savings of the District Fund and Municipal Fund Budgets of the current year in the proportion of ⅔ and ⅓ respectively).

Resolved that the amount of Rs. 403—3—1 debitable to District Funds be provided for in the Budget for 1893-94, submitted prior to the receipt of these proceedings, if it is not already included on the authority, of the proceedings referred to here.

Government Proceedings No. 15983-93—L. F. 123-92, dated 29th March 1893.

Then a list of works found necessary for the use of several villages was read out and it was resolved that a few of them as subjoined below may be undertaken without delay, should Government sanction the grant of Rs. 10,000 from Local Funds General. *Vide*—Correspondence with Proceedings No. 16206-7—L. F. 9-92, dated 1st April 1893.

Visit of His Excellency the Viceroy and Governor General of India to His Highness the Maharaja of Mysore in November 1892.

His Excellency the Most Honorable the Marquess of Lansdowne, G.M.S.I., G.C.M.G., G.M.I.E., &c., &c., Viceroy and Governor General of India, accompanied by the Marchioness of Lansdowne and His Excellency's Staff, arrived on a visit to His Highness the Maharaja, at Mysore on Thursday, 10th November 1892.

His Excellency was met at Seringapatam by a deputation from His Highness, and at Mysore, by His Highness the Maharaja himself, attended by the principal Officers of State and with full Military and State Honors.

The procession from the Railway Station to the Government House which had been prepared for the Viceregal Residence, passed along the road between the Silledar Lines and the General Hospital; then turned to the right into Sayaji Rao Road and afterwards to the left into Albert Victor Road and past the Clock Tower and through Dodpetta entered Government House by the new West Gate. Along this route, Hindu Pandits and Muhammadan Maulvis assembled under a Pavilion and greeted His Excellency with the usual honors. The students of all Boys' Schools, of the Wesleyan Girls' School and the Maharani Girls' School were next arranged on galleries under their respective banners and greeted his Excellency from their respective galleries as the cortege passed.

The Municipal Commissioners of the Mysore City and the leading land-holders and merchants of the State assembled under the Pavilion erected at the North Gate of the Fort, and the Municipal Commissioners presented His Excellency the Viceroy with an address of welcome in the following terms:—

To

HIS EXCELLENCY THE MOST HONORABLE SIR HENRY CHARLES KEITH PETTY-FITZMAURICE, MARQUESS OF LANSDOWNE, G.M.S.I., G.C.M.G., G.M.I.E.,

Viceroy and Governor General of India.

MAY IT PLEASE YOUR EXCELLENCY,

We, the President and Members of the Mysore Municipality, beg to offer to Your Excellency and to Her Excellency the Marchioness of Lansdowne a most respectful and cordial welcome to the Capital of this ancient Native State. Your Excellency's visit is an event of happy augury to us, coincident as it is with the return of prosperous seasons after a period of anxiety caused by the severe drought which recently affected the greater part of the State.

Under the encouraging direction of our beloved Maharaja, many improvements have been effected in our City during the last decade. An established water-supply, a scheme for drainage and sanitation in course of execution, and the many large and handsome buildings, completed and under construction, at the new Western extension, will show to Your Excellency that our City is passing through a state of transition from a condition of comparative neglect to a position worthy of the Capital of the largest Native State in Southern India.

The warm sympathy with which Her Excellency the Marchioness of Lansdowne has followed up Lady Dufferin's philanthropic efforts for the better medical treatment of the women of India, emboldens us to commend to Her Excellency's kind notice the Maharani Hospital for women, which, with its female medical staff, is doing immense good to our women and children.

Your Excellency has just had some evidence of the advance which has been made in the education of our boys and girls. Among the several institutions brought under Your Excellency's notice, we would respectfully make special mention of the Maharani Girls' School which has made the greatest advance among such schools in Southern India and has extended the benefits of Female Education to the most conservative classes of the population.

The material and moral progress that has been achieved is not confined to the Capital. The whole State has, we are thankful to say, enjoyed continuous prosperity for many years and made substantial progress in all directions. We need only refer to the large Irrigation Works undertaken, to the extension of the Railway to tracts most liable to the inroads of Famine, to the many facilities afforded for the cultivation of land and for the development of industries and, more than all, to the unique institution known as the Representative Assembly, as instances indicating the progressive policy of His Highness the Maharaja's enlightened administration. We hope that Your Excellency will be able to find everywhere signs of a happy and contented people advancing in material and moral prosperity under a benevolent Government.

We humbly trust that Your Excellency's visit will prove as enjoyable to yourself as it is gratifying to us and that you may carry away pleasant recollections of our country and of our beloved Maharaja.

With sentiments of profound loyalty to Her Most Gracious Majesty the Queen Empress and praying that God may grant to Your Excellencies and to all the members of your family long life and every happiness,

We beg to subscribe ourselves,

Your Excellency's most obedient and loyal servants.

In reply, His Excellency the Viceroy was pleased to say as follows:—

Mr. President and Members of the Mysore Municipality,

It gives me much pleasure to acknowledge the loyal sentiments expressed in your address towards Her Majesty the Queen Empress of India, and I must add my own and Lady Lansdowne's thanks for the welcome with which you have received us in the Capital of the Mysore State.

I rejoice that you should be able to tell me that I have arrived here at a time when the trouble with which you were threatened during the past summer may be said to have completely disappeared.

I hope, during the next few days, to see something of the numerous improvements which have been effected in your city during the reign of His Highness the Maharaja, to whom you refer in terms which leave me in no doubt as to the esteem and respect in which he is held by his subjects.

It will be specially agreeable Lady Lansdowne, to whose interest in the philanthropic movement commenced by Lady Dufferin you have appropriately mentioned, to see the Maharani Hospital which confers such inestimable advantages upon the women and children of this neighbourhood.

The Educational Institutions of Mysore have achieved an honorable reputation and I believe that His Highness proposes that we should visit the Maharani Girls' School to which you have particularly called my attention.

Permit me to add that of the many interesting sights which met my eyes during our journey from the Station, none impressed me more than the great concourse of bright and intelligent looking school children who gave us such a hearty reception just before we reached this spot.

I rejoice to know that you are able to bear witness to the general progress which has been achieved of late not only in the Capital but throughout the Mysore State. I believe we should be perfectly justified in ascribing to the extension of Public Works, and notably to that of your Railway system, the success with which the recent scarcity was combated by the Mysore Darbar.

I feel no doubt that I shall carry away with me nothing but pleasant recollections of my visit to this State.

On the follwing day, *i. e.*, the 11th November, after sending a deputation to inquire after His Excellency's health, His Highness the Maharaja attended by principal Officers of State, paid a visit to His Excellency at the Viceregal Residence at noon, and His Excellency returned the visit at the Palace in the Amba Vilas the same afternoon. In the evening, His Highness the Maharaja entertained Their Excellencies the Viceroy and Marchioness of Lansdowne and Staff at a State Banquet at the Jaganmohan Palace. When dinner was over, His Highness the Maharaja proposed the health of Her Majesty the Queen of England and Empress of India, which was responded to with all Honors. On behalf of His Highness the Maharaja, the Dewan proposed the health of Their Excellencies the Viceroy and Lady Lansdowne in the following terms :—

LADIES AND GENTLEMEN,

By command of His Highness the Maharaja, I rise to propose in his name the health of our illustrious guests, Lord and Lady Lansdowne.

His Highness feels it was very gracious of their Excellencies to have accepted his invitation to visit this distant place at so much personal inconvenience and discomfort. Mysore has had on previous occasions the honor of welcoming the Representative of Her Majesty the Queen Empress; but on the present occasion His Excellency has laid the Maharaja under a special obligation by agreeing to spend in this State so considerable a portion of the time at his disposal. His Excellency's visit, while it is a source of high gratification both to His Highness personally and to His loyal people, will be the means of affording a statesman of His Excellency's well-known sympathy for Native States an insight into the working of His Highness' administration and the present condition of his country.

No one who comtemplates what India was in the past and what it is now can resist the conclusion that the destinies of this vast Empire could have been entrusted to no better hands than those of the British nation, for no nation either in ancient or modern times has placed before itself, as the English did at an early stage of their career in India, the high ideal that "the end of Government is the happiness of the governed." Magnificent as are the public works and institutions which will make the sway of the Queen Empress glorious for all time, it is the inculcation and practical working out of this grand principle of subordinating every consideration to that of the public well-being which will be most gratefully cherished by the generations to come. It has always been His Highness' ambition to prove himself a useful auxiliary of the British Government in the realization of its noble aims and purposes by promoting the progress and happiness of the population committed to his charge. And it has ever been His Highness' firm conviction that in thus endeavouring to co-operate with the British Government in its mission of diffusing the blessings of peace and prosperity over India, he was making the best return it was in his power to make for those spontaneous acts of British generosity to which he owes the restoration and perpetuation of his ancient dynasty.

His Highness cannot allow this opportunity to pass without alluding to a recent proof which the British Government have given of their confidence in him by assigning him a place in the scheme for a national defence of the Empire. The acceptance of a Mysore Cavalry Regiment for Imperial Services, His Highness will ever cherish as a high and valued privilege dear to him from the loyal traditions of his house and as a mark of consideration from her Majesty the Queen Empress. The Mysore Horse has an honorable record to show of good work done in the past and His Highness is sure that should occasion again arise for their employment for Imperial purposes, they will prove themselves worthy of their proud traditions as the descendants of those who shared with the British troops and under the immediate eye of England's greatest General, the glories of Assaye and Argaum.

In the person of His Excellency Lord Lansdowne, Ladies and Gentlemen, the Maharaja welcomes alike the august Representative of the great Queen Empress and an Imperial Statesman whose distinguished services to his country rendered in the West derive a fresh and additional lustre from the progressive beneficence of his rule in Her Majesty's Eastern Empire.

And His Highness is happy that at the same time he is enabled to give a most hearty welcome to Her Excellency the Marchioness of Lansdowne who, by the powerful support she has been giving to the philanthropic movement initiated by Lady Dufferin has secured for herself a place in the affections of the people as high as that of her illustrious predecessor, for, a wise Sanskrit proverb dear to the Hindu heart says "Great is the reward of those who institute charities, but greater that of those who maintain them, for their portion is eternal bliss."

Now, Ladies and Gentlemen, His Highness calls upon you to drink the health of our illustrious guests with all honors.

In reply, His Excellency the Viceroy and Governor General spoke as follows:—

I must in the first place express the pleasure with which I have listened to His Highness's loyal speech and to his eloquent reference to the historical occasions upon which the Mysore State gave practical proofs of its fidelity to the British Crown.

I have also to thank His Highness for the kind terms in which he has proposed my health and for his graceful reference to Lady Lansdowne and to the interest which she takes in the useful movement commenced by Lady Dufferin.

It is a very great pleasure to me to find myself his guest, and to see something of his State. Its position is in many respects unlike that of any other.

Eleven years ago, Her Majesty's Government, after administering the Mysore State for half a century, and after expending much thought and pains in order to place its affairs upon a sound footing, determined to replace it in the charge of an Indian Ruler. The step was a most momentous one, and the responsibility of those by whom it was taken was very serious indeed. I am glad to bear witness to the fact that, to the best of my belief, His Highness has never given us cause to regret the decision carried out in 1881 by Lord Ripon's Government. The Mysore State, far from adding to our cares and anxieties, has been administered with much success, its people are contented with their position, and its Ruler has shown by his acts that he has worthy of the trust reposed in him. If the result had been different, His Highness the Maharaja would certainly have been held accountable. The result having been what it is, he is entitled to the most liberal measure of credit. He has proved himself an intelligent and upright ruler, who has from the commencement of his reign shown himself alive to the duties of his position. His Highness has received an education which has enabled him to profit by the culture and wider political ideas of the West, but he has not lost touch of his own people or forfeited their confidence, and there is probably no State in India where Ruler and ruled are on more satisfactory terms, or in which the great principle upon which His Highness has insisted, that Government should be for the happiness of the governed, receives a greater measure of practical recognition.

There is, perhaps, no better test of the soundness of an administration than its ability to pass without discredit through a period of exceptional difficulty. The Mysore State has lately encountered such a trial, and has, I am glad to say, surmounted it successfully. The failure of the rain-fall, last year threatened at one moment to lead to a reappearance of the calamities which befell this part of India in the years 1876-77 and '78, but so effectual were the measures taken by Your Highness's direction that your Minister, of whose energy and administrative capacity I am able to speak in the highest terms, has been able to report to you that during the period of scarcity, the death-rate did not rise above the normal, and that there were no deaths clearly traceable to starvation. But this was not all. Advantage was taken of the opportunity thus offered in order to set on foot a system of Relief Works under which the water-supply available for the use of Your Highness's subjects has been permanently improved, with the result of largely diminishing the danger to be apprehended from future periods of scarcity. No expenditure of public money is more useful than that upon Irrigation wells in Districts liable to drought, and the system of making advances to the raiyats for this purpose upon easy terms, is one which has had excellent results in other parts of India, and which Your Highness has certainly done well to encourage.

There is another matter, to which I must refer in this connection. At the time of the earlier period of scarcity to which I referred just now, only fifty miles of Railway were open within Your Highness' State. You have now no less than 364 miles open for traffic, whilst fifty miles more are under construction. There can, I think, be no question that this large addition to the Railway mileage of Mysore has been, and will be, the means of affording the population additional security from the disasters of famine.

I believe I am right in saying that, since Your Highness's accession, no less than 150 lakhs of rupees have been spent on the Mysore State Railway alone, and I rejoice to hear that Your Government contemplates further extensions, in addition to those already in progress, with the object of bringing Mysore into direct communication with the Western seaboard.

In many other directions His Highness the Maharaja has shown himself mindful of the best interests of the people committed to his charge. Good progress has been made with the important work of Revenue Settlement which was only half completed when His Highness succeeded; new roads have been constructed, hospitals and dispensaries have been opened, attention has been paid to the improvement of the breeds of cattle, the enterprise of the miner and the planter have been encouraged. Last, but not least, the State has liberally encouraged educational institutions, and I may refer with special interest to the schools for girls with which the name of Her Highness the Maharani will always be honorably connected.

I have also to express my acknowledgments of the manner in which His Highness has placed a portion of His troops under special discipline in order to qualify them to take their place alongside of ours for the defence of the empire. I am glad to think that that portion of the outlay which has been appropriated for the Imperial Service Troops has been the means of adding to the resources of the Empire, as well as to the efficiency of the Mysore Army without imposing an excessive burden upon the Exchequer of the State.

There is one other matter as to which I should like to say a few words before I sit down. I have watched with the utmost interest the valuable experiment which His Highness has instituted in the formation of the consultative council, known as "The Dasara Representative Assembly." This council has been in existence ever since His Highness's accession and of late years he has increased its numbers and has invited the various Local Boards, Municipalities, and public associations to depute members to it. More recently still, the wealthier classes of the community have been permitted to choose a certain proportion of the members, and I understand that the qualification for membership has been fixed so as to include not only those who are the largest land-holders, and the most representative merchants and traders, but that, in certain cases, the possession of a high education has been recognized as in itself a qualification. His Highness has found that his hands have been materially strengthened by the deleberations of the public body thus constituted and I sincerely congratulate him upon the result of the experiment. It is one which possesses a particular interest for me, because, as you are aware, the Government of India is, at this moment, itself engaged in a very interesting attempt to increase the numbers and to enlarge the functions of our own Legislative Councils. His Highness, in his desire to inform himself of the feelings of the leading classes and people of Mysore, has, it seems to me, acted with true statesmanlike instincts. I trust that he will continue in this, and other respects, to govern the State in the enlightened spirit by which his rule has hitherto been characterised, and I am glad to have this opportunity of publicly assuring him of the good-will and approval of the Government of India.

His Highness then returned his best thanks to His Excellency.

After viewing a grand display of fireworks, the party broke up.

On the 3rd day, *i. e.*, 12th November, His Excellency the Viceroy received at his residence, deputations from the Members of the Mysore Dasara Representative Assembly, the Mysore Planters' Association, the Coorg Planters' Asso-

ciation, the Coorgs and the Guru of the Sringeri Matt. The deputation on behalf of the Representative Assembly consisted of 32 Members from various parts of the State and Mr. Raja Rao read and presented the following address to his Excellency the Viceroy :—

To

HIS EXCELLENCY THE MOST HONORABLE SIR HENRY CHARLES KEITH PETTY-FITZMAURICE, MARQUESS OF LANSDOWNE, G.M.S.I., G.C.M.G., G.M.I.E.,
Viceroy and Governor General of India.

MAY IT PLEASE YOUR EXCELLENCY,

We, the Members of the Mysore Representative Assembly, beg most respectfully on behalf of the people of this Province to express our grateful appreciation of the honor done to us by the visit of Your Excellency to the territories of His Highness the Maharaja.

The constitution of the Assembly to which we have the honor to belong was one of the first enlightened measures inaugurated by His Highness the Maharaja on his assumption of the administration of the State. His sincere desire to advance the best interests of his people suggested to him the idea of calling to his counsels the leading men of all sections of the community, and the warm sympathy and continued interest with which he has watched and fostered the institution during the past eleven years have lead to its development into the Assembly possessing a definite representative character which Your Excellency finds today.

From the sentiments expressed from time to time by His Highness' Government we have every reason to presume that they are satisfied that we serve a useful purpose and that our representations and discussions are of some help to them in adapting their policy to the practical requirements of the country.

While, on the one band, the Assembly has thus been a source of strength to the Administration, it has, on the other, been the means of awakening in the people an interest in the measures of the Government. We approach Your Excellency with every assurance that an address from the Mysore Representative Assembly as now constituted cannot fail to interest a Statesman who has shown such warm sympathy with the desire of Her Majesty's subjects in India to have their voice heard in the Councils of the State.

Your Excellency will be pleased to learn that this year His Highness' Government has, in accordance with our representations, promised a measure of social reform in regard to infant marriages which, we are assured, cannot fail to be productive of great good to the Hindu community both in its direct results and as an educative agency.

We cannot meet Your Excellency today without referring to the period of scarcity through which we have recently passed. We are grateful to His Highness' Government for the prompt measures taken by them for combating the threatened Famine. At the very first signs of distress, the Dewan, under His Highness' direction, toured through the affected tracts and took every precaution to prevent suffering, and his energetic action and ready sympathy have elicited expressions of warm approval and admiration on every side.

We are thankful also for the many measures of puplic usefulness which have been undertaken by His Highness' Government and which have conferred lasting benefit on the country. The Railways constructed and the valuable Irrigation works carried out will, for all time, entitle the Government to our gratitude. And while thus grateful to His Highness for his wise and beneficent rule, we are no less grateful and loyal to the Great Queen Empress and to her illustrious Representative in India, who have always evinced a deep interest in Mysore and the prosperity of its people.

In conclusion, we thank Your Excellency for the patient hearing you have been pleased to extend to us and praying that God may vouchsafe his choicest blessings to Your Excellency and to the members of your family.

We beg to subscribe ourselves,
Your Excellency's most obedient and loyal servants.

In reply, His Excellency the Viceroy was pleased to say as follows :—

GENTLEMEN,

It gives me much pleasure to meet the Members of the Mysore Representative Assembly.

I have already publicly expressed the interest which I feel in this important body. The manner in which His Highness the Maharaja has, from the time when the Assembly was first called into existence at his accession, watched over and fostered its development, reflects the greatest credit upon the statesmanlike instincts of His Highness, and I feel sure that the fact of its constitution being to some extent based upon the principle of representation will greatly add to the weight of its deliberations, and to the respect with which its suggestions will be received. The inquiries which I have made from those who are best able to judge have satisfied me that your proceedings have served a most useful purpose and have brought His Highness's Government into touch with all classes of the community.

I have heard with much pleasure that your discussions have been conducted in a thoroughly practical spirit, and that on the one hand the members have not hesitated to bring forward grievances where grievances were supposed to exist, while, on the other the Dewan has dealt in the frankest possible manner with the suggestions which have been made.

You are quite right in supposing that this remarkable experiment has a special interest in my eyes, because the Government of India is at this moment engaged in introducing considerable changes in the constitution and functions of our own Legislative Councils.

I shall be glad to hear that your efforts to procure a measure of reform in regard to infant marriages are successful. The subject is one of very great difficulty. The Government of India has, as you are aware, given practical proof of its desire to protect immature children, but in passing the measure to which I refer—a measure which appeared to us to be required in the interests of humanity, the Government of India did not attempt to interfere with the domestic institutions of this country as such. We feel that it is mainly to the spontaneous action of the people, whether within or without the limits of British India, that we must look for social reforms of the kind which you desire to effect.

Allow me again to congratulate you on the success with which the recent scarcity has been combated. The prompt and vigorous action taken under His Highness's direction deserves the commendation which it has received at your hands.

I trust that the Representative Assembly will continue to assist the Ruler and the Government of the State in the conduct of its affairs and that it will always be inspired by the loyal feelings which you have been good enough to express upon the present occasion.

The Members of the deputation were then introduced to His Excellency one by one by name and they bowed to His Excellency and retired. Then His Excellency the Viceroy received the combined deputation from the Mysore North aud South Planters' Associations who presented the following address :—

To

HIS EXCELLENCY THE MARQUESS OF LANSDOWNE, G. M.S I., G.C.M.G., G.M.I.E.,
Viceroy and Governor General of India.

MAY IT PLEASE YOUR EXCELLENCY,

We, the Representatives of the combined Planting Associations of Mysore, most respectfully beg to express our deep appreciation of the honor conferred on the inhabitants of Mysore, by this Province having been included in Your Excellency's tour through Southern India, and while gladly availing ourselves of this opportunity to tender an expression of profound loyalty to our beloved Sovereign Her Majesty the Queen Empress, we beg to offer a heartfelt welcome to Your Excellency as Viceroy of this great Empire.

As British subjects domiciled in this State under the benign rule of His Highness the Maharaja, we esteem it our duty to briefly allude to certain important matters which vitally affect the interests of the industry we have the honor to represent, and the settlement of which rests with the Supreme Government.

Act XIII of 1859 having now been distinctly proved by the accumulated decisions of the High Courts of Madras, Bombay and Mysore, to be utterly unsuited in its present form to meet the requirements for which its provisions were extended to the Planting Districts, and moreover, by its loosely-worded clauses positively to frustrate the very objects for which it was originally and specially desired, we have united with the other Associations of Southern India in submitting a Memorial to Your Excellency in Council, through the Government of Madras, praying most earnestly that the Ordinance may be amended in a manner calculated effectually to guard the interests of both the employer and his laborers. As far however as this Province is concerned, we have the honor most respectfully to submit that no alteration in the Act specified can possibly render its provisions effectual, so long as the privilege of issuing warrants operative in British Territory is withheld from the Government of Mysore.

It is a matter for sincere congratulation that the Governments of Madras and Mysore have mutually recognized the necessity for extending the existing Railway system to the Western Coast, and have ordered a preliminary survey of the various routes proposed.

Mangalore is undoubtedly the natural outlet for the products of this State, and we being intimately acquainted with the wishes of the inhabitants of our District, both European and Native, venture to assure Your Excellency that it is the prevailing opinion that a line to any other Port would fail to divert the large trade which now exists with that Town, or to meet the growing requirements of the country generally.

The line from Mangalore to the Southern Mahratta Railway would also render available, by the most direct route, the produce of a vast expanse of the richest rice growing country in South Canara, for the needs of those Maidan Táluks of Mysore which have always been the first to suffer in periods of scarcity.

We have taken the liberty of drawing Your Excellency's attention to these matters, which are of paramount importance to our community, in the full assurance that they will receive that measure of favourable consideration which the immense interests involved appear to us to deserve.

In conclusion, we most sincerely trust that the tour Your Excellency is now making through this Presidency, may, while affording an interesting insight into the circumstances under which the various industrial enterprises of the people are conducted, be attended with every possible enjoyment, and that especially with regard to Mysore, most pleasant recollections may be ever retained.

To the above address and to that presented by the Coorg Planters' Association, His Excellency the Viceroy was pleased to reply as follows:—

GENTLEMEN,

It may be convenient that, as the points dealt with in these two addresses are to some extent identical, I should make one statement in reply to them both.

Let me begin by assuring you that it gives me great pleasure to meet the members of the combined Planting Associations of Mysore and of the Coorg Planters' Association.

You are the representatives of industries to which this part of India owes much of its prosperity and I am first to admit that you have a right to avail yourself of my presence here in order to lay before me any matters in the treatment of which you have a special interest.

Both Associations have called my attention to the operation of the Labour Act of 1859 and have memorialised the Government of India upon this subject. I shall

take care that the views which you have expressed receive careful consideration, and I have no doubt that it will be possible to furnish you with an early decision upon the points at issue. I observe that the Mysore Darbar has suggested that offences committed under Act XIII should be included in the Schedule referred to in Section 11 of the Extradition Act, so that Criminal Processes issuing in the Mysore Courts should be executed in British India in the same manner as if such processes had been issued in British Courts. That is a proposal requiring careful scrutiny and I would rather reserve my judgment upon it. I may say, however, that it gives me much pleasure to observe that the Mysore Planters have been careful to make it clear that any amendment of the Law should be carried out in such a manner as to guard effectually the interests of both the employer and his labourers. The Act in question is one of which the principle has been not infrequently assailed, and any attempt to render its provisions more stringent would certainly be regarded in many quarters with suspicion. All legislation affecting labour, particularly that legislation which gives to the employer a remedy against the person of his employè, raises questions of some difficulty, and we should, I am sure all of us deprecate changes of the Law which might have the effect of creating in India or elsewhere, a feeling that it was unduly favorable to one of the parties concerned.

The next point which is mentioned in both addresses is the question of the extension of Railway communication to the West Coast.

A study of the map, and a perusal of the papers which have been submitted to me leaves no room for doubt that such extension would be advantageous, and I trust that we may look forward to it. I understand that the Mysore Darbar whose co-operation was clearly necessary before any line could be promoted or surveyed, has hitherto been prevented from taking up any of these projects owing to the large expenditure upon other lines to which it was already committed. It has now, I am glad to hear, expressed its willingness to share with the Madras Government the cost of surveying several of the proposed routes, and it is prepared to construct its own portion of any line which may ultimately be approved.

Some of these lines would certainly serve a useful purpose both for the protection of the country against famine, and also for the development of its industrial resources.

Nothing would give me greater pleasure than to see some of these projects taken up by private companies, which if the facts are as you have stated them in a memorial which has lately been submitted to the Government of India, should certainly find the enterprise a remunerative one. I should be wanting in candour were I to lead you to expect that the Government of India is likely in the near future either itself to construct or to guarantee any of these projects. The resources at our disposal are, as you know, limited and are hypothecated for some time to come.

As to guarantees, I could, I think, give you excellent reasons for which, in common prudence, the time has come when we ought to hold our hand. These are, however, questions, which do not yet arise in reference to the Railways in which you are specially interested: the first step which is necessary is to obtain proper surveys of the country, and these are I am glad to know likely to be undertaken without loss of time.

I have now only to express the pleasure which it has given me to meet the members of both Associations and to thank them for the expressions of good will and loyalty contained in their Addresses.

The deputation from the Sringeri Guru headed by the Agent M. R. Ry. Subrahanya Sastri presented the following address to His Excellency the Viceroy:—

To

HIS EXCELLENCY THE MOST HONORABLE SIR HENRY CHARLES KEITH PETTY-FITZMAURICE, MARQUESS OF LANSDOWNE, G.M.S.I., G.C.M.G., G.M.I.E.,
Viceroy and Governor General of India.

MAY IT PLEASE YOUR EXCELLENCY,

On this auspicious occasion of Your Excellency's welcome visit to this part of India, it affords us peculiar pleasure to convey our warm and heartfelt felicitations to the representative of Her Most Gracious Majesty the Queen Empress.

2. The advent of Sri Senkaracharya into this world as an incarnation of Siva two thousand years ago, his early predilection to a religious life, his vast learning, his extensive travels in the country and his revival of thought when materialism was rampant in the country, are all matters well known to European scholars and to the world.

3. The labours of Vidyaranya, also called Sayana Madhavacharya, one of our predecessors, in the cause of Vedic and Sastric learning and his unparallelled commentaries on the Vedas and every branch of Sanskrit literature are matters of history. His political connection with the then reigning dynasty of the Karnatic Kings of Vijayanagar whom the Mysore Kings represent now, are remembered by the people and ourselves with pride and pleasure.

4. The establishment of British power in India and Her Most Gracious Majesty's Proclamation of 1858 have vouchsafed to the Natives of India religious toleration and freedom of thought in happy contrast with what existed under previous rulers; and we as the spiritual leader of the Princes, Chiefs, and a large portion of the people of India dwell with thankfulness upon this policy of the British Government.

5. Having the Head-quarters of our Matt at Sringeri in the Territories of His Highness the Maharaja of Mysore and being under his immediate protection and treated with every mark of devotion and respect, we and our predecessors have watched the progress of the country with anxious interest; and the gracious recognition by the Empress, of the adoption of the present Maharaja and the solicitude with which the British Government qualified the young Prince for the responsible duties of Kingship, are acts which will shed everlasting lustre on the name of the Empress and the British Nation. We are ever grateful to them for this act of generosity. And we are likewise grateful that through a merciful Providence the British hold dominant sway over India. Among the many benefits that have marked their benign sway, education of the people is the one that has always elicited our approval and admiration, for Saraswati or the goodness of learning has been our tutelary goddess from the time of the great Senkaracharya.

6. Representing as Your Excellency does, the Great Queen and Empress of India and the British Nation in this peninsula, it gives us peculiar gratification, that amidst the multifarious duties and responsibilities attaching to Your Excellency's exalted station, Your Excellency has found time to pay a visit to the Native States of this part of India and to see for yourself how happy the people are under the Princes and Chiefs to whose beneficent keeping their destinies have been entrusted.

7. As the representative of the Great Senkaracharya in the position of spiritual head of a large portion of the Hindu community, we have deputed our agent and a chosen number of learned men attached to our Matt to present this address of welcome to Your Excellency and we shall deem it an honor if you can graciously receive the address.

8. In conclusion, we pray to the ALMIGHTY GOD whom we devoutly seek to serve all the days of our life, that He may preserve in good health, and shower His choicest blessings on Her Most Gracious Majesty the Queen Empress of India, on all the members of the Royal Family, on Your Excellency and Her Excellency the Marchioness and on Your Family.

In reply, His Excellency the Viceroy spoke as follows:—

It has given me great pleasure to receive this deputation, and I have listened with much interest and satisfaction to the loyal words contained in the address presented to me on behalf of the Sringeri Guru. I notice gladly the reference made in the address to the desire of the Government of India to exercise towards the Natives of this country the utmost toleration in all religious matters. I have also observed with pleasure what has been said as to the conduct of the Government of India in restoring the Mysore State to the family represented by the present Maharaja who rules the people of Mysore with so much wisdom and with so great a regard for their well-being. I will ask you to be good enough to convey my thanks to the Sringeri Guru for his loyal sentiments and tell him that he may depend on being treated by the Government of India with the same consideration which has always been extended to him in past years.

In the evening Their Excellencies the Viceroy and the Marchioness of Lansdowne presided at a distribution of prizes at the Maharani Girls' School. After selections in music and recitations were gone through by students of the School and Lady Landsdowne had given away the prizes, the Honorable Mr. P. Chentsal Rao, as Chairman of the Committee of Management, spoke to the following effect:—

May it please Your Excellencies and Your Highness, Ladies and Gentlemen—

It is a matter for congratulation to the Managing Committee which I now do myself the honor of representing as their unworthy President, and it is also no doubt a source of gratification to His Highness the Maharaja that we have been permitted to present the report of the progress of the school committed to our charge to Their Excellencies Lady and Lord Lansdowne. I say it is a matter for congratulation not merely because of the honor conferred on us which we certainly prize highly and for which we are extremely thankful, but also because, I know from experience that when great personages appear among us, they exercise a sort of talismanic influence on our minds and impart to us, I cannot explain how, a part of their own personal instincts and development. One word of approval, one word of appreciation, one word of advice from them is enough to give the workers a new and powerful impulse, and I hope that this visit of Their Excellencies to our school will be the dawn of a new era in the history of the progress of Female Education in the Province of Mysore.

The school was started by Her Highness the Maharani in 1882, not for the purpose of qualifying women to tunnel mountains, or to make laws or to make money but to make them good directors of home-power—a power which we all know, it is beyond our means to keep from them, and which they exercise upon us, when ignorant, most cruelly with all the power of a despot, but which when they are enlightened, they use most beneficially as our merciful Maharani has done in inducing His Highness the Maharaja to take such active and deep interest in the cause of the education and regeneration of her sisters.

The work we have undertaken is so vast in its magnitude, that it is impossible for us to show any great results within any short period. It is a work of generations but I am glad I am able to say that we have made a beginning, and a very fair beginning, and that our future prospects are not only promising, but also bright.

We have, thanks to the indefatigable energy and labors of Darbar Bakshi, Rai Bahadur Narasim Iyengar, who had the exclusive management of the school up to the middle of the last year, and threw his heart and soul into the work and brought it to its present efficient condition, succeeded in removing the prejudices of Brahmins, the-ecclesiastical aristocracy of India, against Female Education. Nine-tenths of the girls that attend the school are Brahmins and most of them, Brahmins of Brahmins, and some of the members on the direction, are also orthodox Brahmins who, I am glad to say, take quite as much interest in the progress of the school as their more advanced brethren. I make prominent mention of this fact as Brahmins, howmuchsoever they might have lost their original purity of life, still

continue to be the leaders of society and their actions are closely imitated by all other classes. With the vanquishment of their prejudices which I am glad, we have nearly accomplished in this Province, it may be said that the problem of Female Education in India is half solved. Another important point we have gained is, here also my thanks are due to Mr. Narasim Iyengar, people in Mysore now see the necessity and advantage of allowing the girls to remain in the school for some time even after their marriage which unfortunately takes place in this country. at too early an age, and actually allow them to do so. This has enabled us to train some high caste ladies as teachers, so that they may impart at least primary and secondary education to their sisters, sons and daughters—a work which I am convinced men can never do as successfully as women, especially in India where all males and even women if they are of inferior castes are religiously refused access in respectable families. Almost all the teachers of the higher classes in our school which are attended by grown up girls are high caste ladies who have been brought up in this school, and we are also endeavouring to turn out every year a good number of such lady teachers and supply the want which is badly felt in the Mofussil. Last year, out of the 12 pupils of our school who appeared for the Teachers' Examination known as the Lower Secondary Examination, 9 passed successfully. One of them K. Subbamma, heading, I am proud to say, the list of all the candidates, males and females, who took up Kannada as their chief language.

We have not confined our labors to the school. We also impart Home Education to grown up women who have prejudices, or are otherwise unable to attend the school, in a manner congenial to their feelings. In doing so while we do not encourage any sectarian education likely to foster petty animosities, we have not declared any open war against it, as it certainly has its moral utility in the present state of the Hindu mind. We therefore allow our home pupils to read in addition to pursuing secular studies, such religious works as they take delight in, only taking care to bend their minds in such a way as to associate virtue with pleasure and vice with pain. In the school, however, the subjects taught are all secular excepting in the lower classes where small girls are allowed to commit to memory religious poems, in the recitation of which the parents take particular delight, and we pay also particular attention to cookery, sewing, music and fancy work,—the universally acknowledged feminine accomplishments. All these measures, which we have adopted, with the full sanction and approval of His Highness the Maharaja and his able Minister, Mr. Sheshadri Iyer, and the success attained, have had such an immense effect on the minds of the people that in rural parts and even in such orthodox centres as Melkote and Mandya, grown up ladies of superior caste, chiefly those who have had the misfortune of losing their husbands at an early age, have taken to learning without the intervention of Government and are qualifying themselves for the work of teachers. I am authentically given to understand that not less than a dozen of them will appear for the Teachers' Examination at the end of this year. These few facts I have mentioned (I can mention some more but I do not, lest, I may fatigue Their Excellencies), and the performances witnessed this evening are enough to show how the cause of Female Education stands in Mysore. The success, little as it is, which we have attained, is, I can unhesitatingly say, due to one cause and one cause only, namely, the active and deep interest taken by His Highness the Maharaja, whose praise will I doubt not sooner or later be sung, as the Hindu proverb has it, by every woman that rocks a cradle in this Province.

Without further tiring Your Excellencies with more details of the various other steps we have taken, and the success we have been able to attain in each, I beg leave to submit, a small suggestion in the interests of Female Education for the kind consideration of His Excellency the Viceroy.

Although the main object of Female Education is, as I have already said, not to enable women to earn money, still the prospect of decent and honorable livelihood is by no means a mean incentive to exertion even in the case of women, especially in India where, owing to the pernicious system of early marriage and permanent widowhood, many a young woman is thrown helpless on the slender resources of her parents at a very early period of her life. His Highness the Maharaja is ready and is willing to help educated women as far as it is within

his power by finding them some employment in the Educational Department and, if, in addition to this, the Government of India can make a rule that when vacancies occur in Post Offices and Telegraph Offices, the female candidates, if they are qualified should, as I believe it is the case in England, have preference over the male candidates, I think it would give a fresh impetus to the cause of Female Education and further its progress with unprecedented rapidity. It is the birthright of all English ladies and gentlemen and much more so of the English aristocracy to do all that lies in their power to elevate the gentler sex, and I need not therefore dwell further on the matter. The appointments I seek on behalf of women are only such as they can hold without detriment to efficiency or shock to Hindu ideas of decency. I trust that unless there is some insuperable difficulty, which perhaps my zeal in the cause of Female Education does not enable me to see, His Excellency the Viceroy will be graciously pleased to give a favorable consideration to my humble suggestion and thus make the tree so generously planted by Her Highness the Maharani and so affectionately nursed and cared for by His Highness the Maharaja, bear abundant fruit enough to meet the requirements of not only the Province of Mysore but also the whole of Southern India.

I am sorry I have taken so much of Your Excellencies' time, but I trust that Your Excellencies will be pleased to accept the importance of the subject as my apology and excuse any impropriety that I have unconsciously committed.

His Excellency the Viceroy then said as follows :—

Your Highness, Ladies and Gentlemen,

Neither Lady Lansdowne nor I would like to leave this room without expressing the pleasure which it has given us to visit this school. The Honorable Mr. Chentsal Rao, in the interesting speech which he has just delivered, said that one of the advantages to be derived from a Viceregal visit was that it might be made the occasion of a word of encouragement to institutions of this kind. If I can speak such a word of encouragement, no matter how simple, I shall certainly speak it from my heart; and it was with this object that I have risen this afternoon. (*Applause.*)

The Honorable Mr. Chentsal Rao made another suggestion, which struck me as a very practical one with regard to the possibility of opening certain classes of employment to young persons who had received sufficient education at this and other schools. I can assure him that it will give me great pleasure to have that matter thoroughly looked into, although with that caution which is characteristic of all officials, I must decline to commit myself further upon the subject. (*Applause.*)

It seems to me that this school is calculated to confer a very great and lasting benefit upon the Mysore State. I understand that its main object is to provide with a sound education girls of high caste. The majority of the pupils are Brahmins but the school is open to other girls of good caste and position. We look to persons belonging to the best castes to place themselves in the van of all liberal and enlightened movements, and for that reason it seems to me of immense importance that women of high caste, as well as men, should receive a sound and thorough education in schools of this sort. (*Applause.*)

Then there is another most useful function which this school seems designed to perform—I mean that of affording education for young women who intend to adopt the profession of teachers. We shall not have good schools in other parts of the State unless we can provide them with soundly educated teachers, and this institution is eminently calculated to supply this want. (*Applause.*)

I wish to add before I leave off that it gave me very great pleasure to listen to the recitations which were given this afternoon by the pupils. One or two of them were rendered in the English language with great spirit and correctness. Of the rest we were fortunately able to form some sort of a judgment owing to the thoughtfulness of the authorities in providing us with a translation of the Sanskrit and Kanarese pieces.

281

We also listened with much interest to the musical performance of the pupils. Your music does not exactly resemble the music to which we are used but it has a pathos and character of its own and I feel sure that the more one heard of it the more one would appreciate and admire it.

I should like to say that, since I have been here, His Highness has spoken to me in the strongest possible terms of the services rendered to this school by Rai-Bahadur Narasim Iyengar, Darbar Bakshi, whose name was so enthusiastically received when it was mentioned just now by the Honorable Mr. Chentsal Rao. (*Applause.*)

I am glad to have this opportunity of recording my appreciation of the excellent work which he has done. (*Applause.*)

It remains for me only to wish success to the Maharani Girls' School and to express the hope that it may prosper and succeed in the charge of Miss Vokins who has lately taken over the school bringing with her a high reputation from one of our English Universities. I can only hope that the girls who study here may follow the admirable example which appears to have been set by that Princess Savitri who was mentioned in one of the Kanarese recitations, and who is said to have learnt her lessons eagerly, to have got them up every day without feeling annoyed in the least, and to have even gone the length of reflecting upon them at intervals. I am afraid that a great many of our English School girls do not reflect upon their lessons once they are outside the school room; if these young ladies will only take the Princess Savitri for their model in these respects, they will certainly do credit to Miss Vokins and to the Maharani School. (*Applause.*)

On the 4th day, *i. e.*, Sunday the 13th November, the Viceroy and party went to the Kheddas in the Kakankote jungles to witness the elephant catching operations, &c., and returned to Mysore on the 20th. They paid a visit to Seringapatam on the 21st and left the same night for Bangalore, which they reached on the morning of the 22nd.

At the City Railway Station, His Excellency was received by the Resident in Mysore, and the Officer Commanding the Bangalore Division with their respective Staffs and the principal Local Officers. The procession from the Railway Station to the Residency where His Excellency stayed was along the following route :—

From the Petta Railway Station along the bund on the south of the Dharmambudhi tank, then towards the left past the Yelahanka Police Station, District Offices and St. Martha's Hospital, then right along the Cenotaph road, Sydney road, Ice road and Cubbon road to the Residency. On the way, in the Municipal pavilion near the London Mission School, a deputation of the Petta Municipality headed by its Vice-President Mr. Srinivasa Rao presented the following address of welcome which was enclosed in a silver casket :—

To

HIS EXCELLENCY THE MOST HONORABLE SIR HENRY CHARLES KEITH PETTY-FITZMAURICE, MARQUESS OF LANSDOWNE, G.M.S.I., G.C.M.G., G.M.I.E.,
Viceroy and Governor General of India.

MAY IT PLEASE YOUR EXCELLENCY,

We, the Municipal Commissioners of the City of Bangalore, beg leave on behalf of its Citizens, to offer to Your Lordship and to Her Excellency the Marchioness of Lansdowne a most respectful and cordial welcome, and to convey to Your Excellency our deep sense of the honor done to us by Your Excellency's visit.

We are glad to assure Your Excellency that under the benign and sympathetic rule of our beloved Maharaja the wants of the people in every part of the State are duly attended to, and the country is advancing with rapid strides in prosperity and enlightenment.

There is however one local want, to which owing to its great importance and the suffering occasion by it, we are constrained to invite Your Excellency's kind attention.

The want of an efficient water-supply has been long and keenly felt by the 80,000 inhabitants of this City, and by the still larger population of the adjoining Civil and Military Station of Bangalore.

We believe that the adoption by his Highness the Maharaja's Government of a definite scheme of the water-supply for the City awaits Your Excellency's decision, as to the way in which our neighbours of the Civil and Military Station, whose interests in this direction are intimately bound up with ours, can be best supplied.

We are aware that several projects have from time to time been under the consideration of Your Excellency's Government during the past few years, but as no scheme has yet been definitely settled, and the sufferings of the people increase day by day, we venture to approach Your Excellency with a prayer for an early solution of the question, so that, either in common with the Civil and Military Station, or by means of a separate arrangement, a plentiful supply of good drinking water may be obtained for this City.

This great boon will imperishably associate Your Excellency's name with the health, comfort and well-being of this growing and important City. We fervently pray to God that long life, health and happiness, may be vouchsafed to Your Excellency, and to all the members of your family.

In reply, His Excellency the Viceroy was pleased to say as follows:—

MR. PRESIDENT AND GENTLEMEN,

I have to thank you for the welcome which you have offered to Lady Lansdowne and myself on the occasion of our visit to Bangalore.

It gives me great pleasure to see Municipal Institutions like your Municipality and that at Mysore established upon so firm a basis within a Native State, and I have been much gratified in listening to the terms in which you have referred to the rule of your Maharaja. Everything that I have seen since I have entered the Mysore State has tended to convince me that in speaking of His Highness's rule as benign and sympathetic you are using no empty phrases, and that the efforts of your Maharaja and his advisers are aimed at improving the condition of his subjects and developing the resources of his State.

The improvements which have been effected since the State was restored to your present ruler, have, I hope, served to protect it in a great measure from the evils to which it was previously liable from recurring periods of scarcity and famine, and have, in your own words, enabled it to advance with rapid strides in prosperity and enlightenment.

I trust that it will be possible before long to remove the hardships from which you at present suffer, owing to the want of an efficient water-supply which I gather from what you say, as well as from what I have heard from other sources, must be urgently needed in your City. I observed, while in Mysore, that the Capital of your State has been provided with an excellent supply of water by the Maharaja's Government, and I have no doubt that His Highness will, as soon as you are in a position to decide definitely upon a scheme for the provision of water to your City, be prepared to consider whether he can assist you. I understand the determination of this question depends to a certain extent upon the action of the Committee of the Civil and Military Station, and I trust that now that an officer has been deputed to examine the rival projects for the supply of water to the Station, the Committee will, before long, be able to determine which scheme to select. I notice that you contemplate as possible a joint scheme by which a plentiful supply of water might be obtained for your City, as well as for the Civil and Military Station. I have heard objections made to such a proposal on the ground that, with a scheme for a joint supply, friction will arise between the two Municipalities as to the distribu-

tion of water. It appears to me that upon the face of it there should not be any insurmountable difficulty in contriving a scheme by which under the guidance of the Resident, satisfactory arrangements might be made for the distribution of water between the two Municipalities, and it is, at any rate, worthy of consideration whether in view of the expenditure involved in the carrying out of two separate schemes, it would not be more prudent for your Committee and that of the Civil and Military Station to combine in carrying out a project which would supply you both an abundant supply of good water.

I have now only to express the pleasure which it has given to us to meet you upon this interesting occasion, and you must allow me to add a word of thanks for the very beautiful work of art in which you have been kind enough to enclose your address.

At noon His Excellency received a deputation of the Municipal Commissioners of the Civil and Military Station at the Residency.

In the evening, His Excellency drove through the City and attended a fetê at the Lal-Bagh and afterwards an Evening Party at the Residency.

On the morning of Wednesday the 23rd November 1892, His Excellency witnessed a review of Troops in the Station and in the evening laid the foundation stone of Rai-Bahadur Dharmaratnakara Arcot Narayansami Mudaliar's Orphanage.

His Excellency left Bangalore for Madras by Special Train from the Cantonment Railway Station at 9 P.M., the same night, the departure being private.

R. Vijayindra Rao,
On Special duty.

THE MYSORE GAZETTE, MAY 1893.

Department of Land Records and Agriculture, Bombay.

Second Note on the Potato Disease prevalent in the Poona District and in other parts of India.

The experiments of 1892-93 are described in detail in Mr. Mollison's note, which is appended. The methods and results of cultivation are there fully described, and in this memorandum only the general inferences to be deduced need be dealt with.

2. Last year's note elicited a good deal of enquiry, and among other facts of interest it was ascertained that the "bangdi" or ring disease was much more widely spread than was at first known. It has established itself throughout the Bombay Presidency including Gujarat, and has been found in the Nilgirries, at Bangalore, and in Bengal. There can be no doubt that preventive measures should be adopted without delay wherever the disease has made its appearance, and fortunately the results of the present experiments are encouraging as regards the practical steps to be taken.

3. Among other communications received from correspondents, some useful information was obtained from Mr. DeJoss, Superintendent at Panchgani, through the Collector of Satara. Mr. DeJoss found that burning the soil with vegetable material, the land having been previously well turned up with the plough and exposed to the sun, was effective to destroy disease-germs, and he succeeded in producing a crop of several varieties which was remarkably free from disease. Three of these were, however, plainly grown from newly imported stocks, and they were planted on the ridge system and not in beds as by native cultivators. Major Radcliffe, Assistant Commissary General at Mhow, wrote recommending the pulling of the haulms and also suggested that the "Magnum Bonum" variety might prove strong enough to resist the disease. We have, however, as shown in Mr. Mollison's note, found other varieties superior to the Magnum Bonum, and the idea of pulling the haulms was based on the assumption that the fungus, as in the European disease, fructifies on the foliage of the plant, which is not the case. But Major Radcliffe's recommendation gains interest from the latest conclusions reached by Dr. Cunningham, which also point to the pulling of the haulms as a preventive measure, though on somewhat different grounds. Mr. Creighton Duff of Coonoor is pursuing a series of experiments with potash and other manures intended to fortify the plant-system against infection.

4. Dr. Cunningham's researches were this season obstructed in some degree by an unexpected difficulty, *viz.*, by the failure of the diseased seed supplied to him for cultivation to reproduce the disease in the crop grown at Calcutta. Probably the diseased potatoes decomposed so far in transport as to lose their power of germination, and only the comparatively healthy ones survived. In any case it must on no account be taken as proved that diseased sets produced a sound crop because they were grown on virgin soil. No conclusion has been more clearly pointed to by the experiments and observations conducted in the field during the past two years than that the disease is propagated from the seed as well as from the soil, and that if anything the first source of infection is the more dangerous and common.

5. On the other hand Dr. Cunningham is inclined to a contrary opinion, microscopical investigation leading him to believe that the lesions in the tuber are of a secondary nature. The primary lesions, he writes, are those in the haulms, and it is the disturbance of nutritive conditions determined by these which occasions the pathological changes in the tuber. He says, "I should certainly be inclined to believe that the disease is maintained not by the use of diseased tubers as such, but as the result of planting either diseased or healthy ones in soil contaminated by containing portions of the haulms with their mycelial and specially their sclerotioid contents." It may be added in this connection that the brownish tinge in the haulm which was noticed last year as a chief diagnostic symptom has this year been much less marked. But although the discolouration has been less striking, following on

an absence of the previously observed tendency to the formation of sclerotioid masses within the larger vessels, it is always discoverable on section, Dr. Cunningham observing that in such preparations "the presence of abundant although generally isolated mycelial filaments comes out very clearly especially within the spiral vessels." In some young plants examined, he found abundant mycelium in the cortical and pith tissues, whereas last year the fungal masses were noticed in the vascular system only. Pulling *and burning* the haulms might, apparently, tend to save the soil from infection, but it is doubtful whether this can be recommended in practice. The disease develops itself most a little below the soil surface, and extends downwards as well as upwards in the stem. When pulled, the stem breaks off at the main point of disease-development, and as many germs would be left in the soil as would be removed.

6. The practical result of the Khed experiments of the past season is to show that certain varieties of imported seed can and do resist infection in a marked degree. The provisional inferences of last year were against this conclusion, but Mr. Mollison's experimental results have fully established it, and the cultivators of the district are eager to obtain seed for the new stocks at almost any price. Unfortunately it is difficult to keep the cold weather seed till the following winter, because of its tendency to sprout in the monsoon months, and it becomes necessary to grow a crop during the rains to provide seed for the main crop cultivation of the next cold weather. This rain-crop is not always as sound in cultivation as the dry-season produce, and here we find another cause tending to the deterioration of all stocks after they have been grown in this country for any length of time.

7. The "Bouillie Bordelaise" treatment of the land *before sowing* has succeeded in a very considerable degree, and there can be no doubt that flushing diseased land with the copper sulphate solution in the manner adopted in these experiments is specific as regards all disease germs which it reaches. It has been found in large degree to protect sound plants from infection and to prevent the spread of disease from one plant to another. The treatment with caustic lime and soot has been inconclusive because the imported seed proved so robust that the failure of the disease to make headway cannot with certainty be attributed to the treatment adopted.

8. The same somewhat unexpected degree of success with the imported seed has prevented any very clear differentiation being arrived at with respect to the methods of cultivation followed. The ridge and furrow system, however, has not been proved to have the full advantage at first expected. This is probably due to the more rapid growth and maturing of the tubers in this country, the crop being ready in 14—15 weeks as against at least 20 weeks in Europe. The bed system with its superabundance of surface moisture seems to enable the plant to effect the more rapid assimilation of food necessary under Indian conditions. But, on the other hand, it is extremely probable, as pointed out by Mr. Mollison, that the constitution of the plant is unfavorably affected by this luxuriance of growth and is more prone to disease in consequence.

9. The lesson so far learnt is that the disease may be largely checked by the use of the copper salt; but that reliance must chiefly be placed on the distribution of robust seed of the varieties which have been found most successful. It has also been found that the small cut sets used by natives induce weak growth, and that large cut sets or, better still, medium sized potatoes planted whole produce more vigorous seedlings. Great interest has been taken by native cultivators in the experiments, and they have shown themselves ready to take large quantities of seed at prices much over the market rates for the indigenous kind. There is therefore every prospect, at least in the Poona District, of our being now able to effect in the course of a few years a thorough change in the stocks cultivated, but it must be added that there is little prospect of including the raiyats to give their land the needed rest from potato, without which all measures can only be palliative and no permanent cure can be expected.

E. L. CAPPEL,

Poona, 28th March 1893. *Director Land Records and Agriculture, Bombay.*

REPORT BY MR. J. MOLLISON, M. R. A. C., SUPERINTENDENT, GOVERNMENT FARMS, BOMBAY.

Potato Experiments, 1892-93, conducted at Khed, Poona District.

1. The aims of the experiments this year were :—

(*a*) To obtain knowledge as to the manner in which the "ring" disease gains admission to the plant.

(*b*) To test the effect of sulphate of copper, caustic lime and soot on disease-germs harbouring in the soil.

(*c*) To test improved methods of cultivation, and in particular to compare the ridge and furrow system of planting with the native "bed" system; also to compare whole potatoes as sets with cut sets.

(*d*) To ascertain whether robust varieties of imported seed will produce healthy crops on diseased land, with or without the treatment noted in (*b*).

(*e*) To compare the values of different varieties of imported seed.

2. The field selected for experiment is fairly deep medium black soil in the heart of the Poona potato district and is of the best kind for potato cultivation. Diseased crops of potatoes have been grown on the land for four years certainly. It is naturally sub-divided into four sections, each being of a slightly different elevation, but each block is tolerably level and all are well suited for irrigation. A well in a central position commands the whole and the water (which is extremely hard) was sufficient in quantity.

3. I append four tabular statements marked Section I, II, III, IV. Each exhibits a distinct line of experiment, and results on each are shown in tabular form as far as possible.

4. It may be useful to note first the manner of preliminary cultivation for the whole crop. The field grew "bajri" (*Penicillaria spicata*) as a rain crop, and as soon as this was reaped and removed our operations commenced. Farm-yard manure, thoroughly decayed and of good quality, was applied to Sections I and II before ploughing. These two sections were ploughed and harrowed three times and clods where necessary were broken by hand, thus securing thorough incorporation of the manure with the soil and thorough tilth to a depth of six inches. To Section III caustic lime was applied after twice ploughing and harrowing; subsequently it was once ploughed and twice harrowed, the object being to secure good tilth and at the same time to mix the lime thoroughly through the upper stratum of soil. Section IV was three times ploughed and harrowed. To this section soot was applied (as to part of Section III) before the sets were planted.

5. The mode of application of the sulphate of copper may be now described. The salt was first converted into a concentrated solution and was then added to the irrigation water as it was raised from the well by môt, a measured quantity of the solution being added to each bagful of well water as it was discharged into the receiving trough at the lip of the well. The salt was thus applied at any desired rate per acre. The hardness of the well water is probably due to corbonate of lime, and it was noticed that when the copper sulphate solution was added, a dense precipitate formed which was carried to the field by the flow of the water. This precipitate was probably hydrated oxide of copper, a compound which destroys fungoid germs but is harmless to vegetable tissue. If this assumption is correct, the change in the constitution of liquid was advantageous, as sulphate of copper has an injurious effect on vegetation.

6. The soot was broadcasted in the furrows immediately before planting, and therefore was in direct contact with the sets. Soot has some manurial value, and has often been used as an insecticide.

7. Turning to the results of the experiments in each plot, in Section I three

varieties of Kumaun potatoes and one kind of local indigenous seed were grown for comparison. The Kumaun potatoes are the descendants of well known English varieties which have been grown for a few years in the hills; but the varieties have become much mixed and are now by no means true to sort. There are eight plots in the section, six of which were treated with sulphate of copper (84 lbs. per acre); two were not so treated. The results in the first three plots are most interesting. Plot A grew country seed, undoubtedly diseased, planted in the native way in beds. Plot B grew Kumaun potatoes planted in the same way. Both these plots were without treatment. The same native seed as in A was planted on the ridge and furrow system in plot C, which was treated with sulphate of copper. About the 1st of January disease made its appearance in Plot A. On the 20th of January it had made considerable progress, at least ¼ of the plants being withered. On this date 1 plant was found diseased in Plot B and 6 plants in Plot C. The disease gradually increased in A and the infection extended into B, being worst in the latter plot along the border line. The disease made little progress in Plot C, and on this plot the benefit of planting the sets wide apart was well marked. The plants were large and vigorous and many flowered. Of these not a few produced seed-plums, a circumstance which has never occurred of late years in this district, though formerly common. While the seed rate was less, the produce was much more than in Plot A, and owing to their size the tubers commanded Rs. 2 per "pulla" (280 lbs.) more in the Poona bazaar than those grown in A. The sulphate of copper, therefore, undoubtedly exercised a beneficial effect upon the disease, but as regards the weight of the produce and the vigorous growth of the tubers, I assign the chief influence to the ridge and furrow system, an incident of which is that it gives ample room to each plant.

8. Plots D and E of Section I may further be compared with advantage.

In both Kumaun "kidneys" were planted on the ridge and furrow system,—cut sets in one plot, whole small potatoes in the other. The results are as under:—

	Seed rate per Acre.	Out-turn per Acre.
	Lbs.	Lbs.
Plot D cut sets ...	1,568	10,065
„ E whole sets ...	1,437	13,509

Wherever diseased seed was planted, sulphate of copper seems to have had some beneficial effect, but where the seed was sound, neither this nor lime nor soot can be said with any certainty to have proved of use. Apparently, the newly imported English seed and the Kumaun-grown English varieties resisted the disease independently of treatment, at any rate to a very large extent. This year, although I watched closely, there was in these varieties no sign of the disease before harvest, but when the crops were lifted, an occasional tuber of all varieties was found diseased.

9. Section II gives results in one respect which I did not anticipate. Sutton's "Early Regent" planted in beds gave a better crop than Sutton's "Windsor Castle" planted in furrows, and as these varieties grown in other plots under like conditions gave nearly like returns, the test is fairly conclusive. The "Early Regent" had a slight advantage of soil and was very even in germination, but these advantages are not sufficient to account for larger out-turn of nearly 6,000 lbs. per acre. The inference need not be that an increased out-turn is got by growing in beds; the safer inference is that if sufficient space is allowed between sets, the bed system does very well, and under these conditions may produce larger tubers and more of them than the ridge system, owing to the better storage of moisture. On the other hand, the luxuriant growth so induced may be the exciting cause of the disease which we are now endeavouring to cope with. The potato naturally likes a sunny well drained situation, and the altered conditions mentioned must have a serious effect on the constitution of the plant.

10. It may be noted here that a cultivator grew some Carter's "Reading

Giant" potatoes from seed supplied by me immediately adjoining Plot B of Section II, which was treated with sulphate of copper. His cultivation was otherwise identical, and as far as I could see, there was no sign of disease in the produce. This looks as if the robustness of the seed was the chief factor in resistance to the disease.

11. Sections III and IV were intended more especially to test the protective value of caustic lime and soot,—each alone or both together, but, as already pointed out, the experiment has so far been inconclusive.

12. In each of these two sections seven varieties of English potatoes from Sutton and Sons were compared. Unfortunately the results were to some extent vitiated by damage to the sets by white ants. The ants were attracted to the field probably by the castor cake which we had to use, as farm-yard manure could not be obtained except at a prohibitive price.

13. The best variety tried, for general cultivation, is Sutton's "Early Regent," which could have been sold in any quantity for seed purposes. Sutton's "Windsor Castle" comes next. Sutton's "Triumph" and Sutton's "Perfection" have each succeeded admirably and are beautifully-shaped varieties which cook well. Cultivators in this part of the country prefer a round potato to an oblong one, and round potatoes command a higher rate in the market. This is a prejudice which it may not be difficult to overcome, but the point is only of importance because it is desirable to meet the raiyat's views as far as possible. Excepting the "White Kidney" and "Snow-drop," both of which are delicate varieties, all crops from Sutton's seed sold readily as seed to cultivators at Rs. 12 per *palla* of 280 lbs. The present bazaar rate for indigenous sorts is Rs. 5 to Rs. 6. Of the Kumaun potatoes the "Magnum Bonums" are preferred.

14. I made a "Crop Experiment" test of a full average crop as grown this year by the cultivators of the Khed taluka. The seed rate, outturn, and value per acre are noted below, and, for comparison, the best returns from the experimental field from English seed similarly tabulated :—

	Seed Rate per Acre. Lbs.	Out-turn per Acre. Lbs.	Value per acre. Rs. A. P.
Cultivator's crop	1,120	10,230	200 15 0
Sutton's Early Regent	1,180	16,871	723 0 0
Sutton's Windsor Castle	1,361	14,365	612 1 0

The great difference in value between our crop and that of the raiyats is due to the higher selling rate (Rs. 12 per palla as against Rs. 5½) which the produce of the English seed has commanded.

* "*Country way*".—The cut sets were planted in the furrow behind an ordinary country plough. The soil moved in making the next furrow covered the sets. Subsequently long narrow beds were formed, each containing four rows of potatoes. The rows were about 9 or 10 inches apart and the sets were 6 inches to 8 inches from each other in the rows.

† "*Ridge and furrow*" *System*.—Ridges were drawn with an ordinary country plough about 24 inches apart. The sets were planted 10 inches to 12 inches apart in the furrows. The sets were covered by splitting the ridge intermediate between two furrows, but every 2nd ridge was left intact, thus forming long narrow beds containing 2 rows of potatoes. These beds were found convenient for watering until the potatoes were well above ground. When the plants stood 6 inches high they were earthed up by hand so that they grew in the ridges, the irrigation water now flowing along the furrows. The 2nd earthing up was given with the "Planet Jr." hoe a fortnight after the first (a country plough would have done the work)

Plot A was irrigated eleven times only, watering having to be stopped on account of the disease.

Plot H was watered twelve times, being an early variety.

All other plots were watered thirteen times.
